FESS PLANS PAT STAND

Firm Concerning Party Policies

Prospective Leader Makes Plain Unbending Attitude on Prohibition

Also Opposes Compromise Relative to Republicans' Farm Program

WASHINGTON, July 27. (Exclusive) — Senator Fess, Republican, Ohio, as the prospective chairman of the Republican National Committee, will oppose any compromise in party policies on prohibition or farm relief.

With an increasing tendency on the part of the Republicans in some States to get away from a bone-dry prohibition policy, Senator Fess is prepared to do everything possible to hold the party to the line followed in the 1928 campaign.

In spite of dissatisfaction over inability of the Farm Board to boost wheat prices, he will resist attempts to swing the party over to a more radical solution of the problem.

Senator Fess is known as an Anti-Saloon League follower. He also has been consistently regular, voting with the conservatives on economic questions. He was the administration leader both under President Coolidge and President Hoover in the fight against the equalization fee of the old McNary-Haugen bill and the export debenture plan. He is a high protectionist and is ready to defend the new Hawley-Smoot tariff law against all criticisms.

HOOVER'S CHOICE

Inasmuch as Fess has been selected for national committee chairman by President Hoover, the choice is interpreted as meaning that the President intends to rest his political fortunes on continued support of prohibition and of a more conservative farm relief policy than favored by the radicals and by some of the farm organizations.

Senator Fess stands by his declarations on prohibition and farm relief as made in his address as keynote orator of the Kansas City convention which nominated President Hoover two years ago. He rebuked the wets in dealing with "enforcement of laws" in the Kansas City speech.

"NO BACKWARD STEP"

"After the expenditure of billions of money in the improvement of the conditions of existence, in the rearing of childhood, the education of youth for effective and noble living, and in lengthening the span of human life, no backward step can be tolerated upon whatever pretext which would permit a noisy minority to exploit the great mass of our people," said Senator Fess. "All over the earth, led by our own example, there has been burnt into the national consciousness the conviction that this policy and program of human conservation must not be scuttled.

"It is not a question of tolerance or of liberty, but of life, both individual and national. The Republican party is ready to call the roll on this false doctrine masquerading under the mask of liberty. It is ready to sound the moral tocsin against the present campaign of a noise-making minority whether in

MURDER OF JEW CAUSES URIEV PANIC

Leaders of Race See in Slaying Development of Anti-Semitic Campaign

BUCHAREST, July 27. (AP)—The Jewish Telegraphic Agency reports that the Jews of Uriev, Bessarabia, are in a state of panic over the murder on Friday of a Jew named Sholom Landau.

The Jewish leaders of Uriev telephoned they were fearful of further sinister developments in what appeared to be a definitely planned anti-Semitic campaign. All stores owned by Jews are remaining closed and Jews are keeping off the streets in the bazaar section.

Former Prof. Machedon, anti-Semitic leader, who killed Sholom Landau in the presence of hundreds attending the Uriev bazaar, arrogantly asserted to the investigating authorities today that he shot Landau because he hates the Jews.

From Galatz came details of a supposed incendiary fire Saturday that devastated many Jewish homes in the cherished section of the city. It started in the warehouses of the Jewish bankers, Marmorosh Blank & Co., and was still burning today. Police today arrested two suspects.

From Fikan it is reported the Jewish youth of the town have organized themselves into a Jewish Defense League.

New Giant Navy Dirigible to Use German Motors

WASHINGTON, July 27. (AP)—Eight German-made motors are to be installed in the Navy's giant dirigible now under construction because motors manufactured in this country would not provide the required efficiency.

Naval officers had hoped American motors could be used, because it sometimes now is necessary to order replacements parts from Germany, but domestic motors failed to meet the requirements. Motors of the same type are in use on the Los Angeles.

The new dirigible will be slightly less than twice the size of the Graf Zeppelin, will have a speed of seventy-two miles an hour and a cruising range of 9200 miles, 200 more than the Graf.

Bourbons Shy at Wet Plank

COLORADO SPRINGS (Colo.) July 27. (AP)—By an overwhelming vote the platform committee of the Democratic State Assembly tonight turned down a plank designed to place the party on record as favoring the repeal of the Eighteenth Amendment.

The action of the committee is taken as evidence that the Denver "rebel" contingent will meet with failure in tomorrow's assembly in an attempt to commit the party on prohibition.

Three Drown as Boat Sinks in Park Lake

LINCOLN (Neb.) July 27. (AP)—The sinking of a pleasure boat in Indian Lake in Pioneers Park here last night cost the lives of three persons. Nine were aboard the small craft, powered by outboard motor, when it sank.

The dead are Clara Toft, Mildred Bevier of Lincoln, and James Parker of O'Neill, Neb.

Parker went to his death in an effort to rescue his companion, Miss Bevier. Hysterical, she struggled with him when he attempted to swim ashore with her, and he was dragged beneath the surface to his death.

Two Workmen Die in Mishap

MILWAUKEE, July 27. (AP)—Two workmen of a crew of twenty were killed and five others were injured, one critically, today when buried beneath wreckage of a falling superstructure at the Donahue-Stratton Grain Company's elevator under construction on Jones Island.

The accident occurred when a loaded sand-car jumped its track and crashed into a box car, hurtling the box car against the elevator.

Motor Deaths Show Increase

WASHINGTON, July 27. (AP)—Six hundred and fifty-one deaths from automobile accidents in seventy-eight large cities for the four weeks ended the 12th inst., were reported today by the Census Bureau.

This was an increase of sixteen over the four weeks' period ended July 13, 1929.

DAY OF REST ENJOYED BY PRESIDENT

Hoover Relaxes in Shade of Mountain Camp and Chats About Trip West

ORANGE (Va.) July 27. (AP)—President Hoover relaxed today in the welcome shade of his mountain camp as he whiled away the hours chatting with friends and considering plans for the western trip he intends to take next month.

It was a day of almost complete inactivity for the President and his guests. The heat from the lowlands had edged upward to the mountain retreat and the Presidential party sought relief in the shade.

The President went over plans for his summer vacation in the West but no decision was announced. It was understood he would decide upon a definite schedule this week.

A walk to the top of a hill near the camp with Mrs. Hoover was the only activity by the President. From this vantage point he and Mrs. Hoover obtained a panoramic view of the surrounding country. They saw a number of small forest fires scattered about in the distance.

Excavator Discovers Mud Stratum in Euphrates Valley With Relics of Flood Era

BAGDAD, July 27. (Exclusive)—A dramatic confirmation of the Bible story of the flood has been furnished in official reports of the digging in the Euphrates Valley. Prof. Stephen Herbert Langdon while excavating at Kish found that about 3000 years before Christ a great deluge destroyed the city and laid down a mud stratum eighteen inches thick on which the subsequent civilizations were built.

Below the stratum relics proved that preflood people made stone vessels and beautiful copper utensils. He found the royal tomb containing the King's body, a chariot, four oxen, driver and several retainers—all were slain when the King died.

Evidence of the eternal feminine was found in a woman's tomb containing the earliest known vanity case or toilet set made up of a small two-edged knife, a small pin ending in a tray, a small semicircular shovel, a small wood-bladed knife and a copper pin, all in an elaborate case belonging to some preflood beauty in the palace. He also proved that the horse was domesticated 1000 years earlier than was thought.

Traces were found of two smaller floods predating the Moses deluge. These discoveries were paralleled by Mr. C. Leon Wooley at Ur of Chaldees. He proved that postflood civilization was similar, but weaker and more degenerate than that blotted out by the catastrophe.

He discovered that the oldest toy in the world was a child's porcelain cow. He found bodies buried with the feet bent under and the hands covering the face. He recalled the flood legends also in Syria, where coins have been found with a picture of a dove issuing from an ark-like object.

'MA' GAINS IN TEXAS

Sterling Holds Second Place

Mrs. Ferguson Favorite for Governor in Primary by Wide Margin

Senator Sheppard Victor; Representative Box Trailing Dies

DALLAS (Tex.) July 27. (AP)—Ex-Gov. Miriam A. "Ma" Ferguson and Ross S. Sterling, wealthy Houston publisher, appeared certain of entering the Democratic run-off primary for Governor when the Texas Election Bureau made its final unofficial count for the night of the vote in yesterday's primary.

Mrs. Ferguson, whose husband, James E. (Farmer Jim) Ferguson, was impeached while Governor, was defeated for renomination in 1926 by Gov. Dan Moody and Gov. Moody appointed Sterling chairman of the State Highway Commission.

With approximately 100,000 votes yet to be tabulated, as estimated by the bureau, the standing was as follows: Mrs. Ferguson, 197,375; Sterling, 141,283; Clint C. Small, 106,245; Thomas B. Love, 67,459; Jim Young, 63,738; Barry Miller, 43,492; Earle B. Mayfield, 43,168; C. C. Moody, 3864; Frank Putnam, 2437; Paul Loven, 2381, and C. E. Walker, 2211.

BOX DEFEAT INDICATED

Congressman John C. Box of Jacksonville appeared to have been defeated for renomination in the Democratic primary by Martin Dies, Jr., of Orange, whose father, now dead, was a former Congressman. The elder Dies retired and Box won the race for his seat twelve years ago.

Martin Dies, Jr., was a schoolboy when his father retired. Former Congressman Dies was a celebrated debater and his son is declared by friends to have much of the fire and eloquence of his father. Congressman Box took a leading part in the enactment of immigration laws. He had insisted on the resignation of John J. Raskob as chairman of the Democratic National Committee.

Returns from thirteen of the district's fourteen counties including three complete gave Dies 28,723 votes to 23,746 for Box.

United States Senator Morris Sheppard, dry Democrat, was renominated by an overwhelming majority. Latest returns gave Sheppard 398,641 votes to 133,704 for Robert L. Henry, a wet, and 31,621 for C. A. Mitchner of Sherwood.

MOODY BACKS STERLING

Gov. Dan Moody, arch-enemy of the Fergusons, had been a reputed quiet supporter of Sterling, Moody's appointee as chairman of the State Highway Commission. Gov. Moody said tonight he would support "anyone who goes into the run-off against the Fergusons" and would give Mrs. Ferguson's opponent any assistance the candidate might need.

Senator Love, one of the defeated candidates who led the successful Democratic bolt in Texas from Alfred E. Smith in the 1928 Presidential race, pledged his support of Sterling and said he would do all in his power to prevent the return of "Fergusonism" to the State Capitol.

G.O.P. VOTE 10,000

Election Bureau officials estimated the Republican vote for Governor and United States Senator at not more than 10,000.

In the Republican Governor's race, twenty-six counties, ten complete, gave H. E. Exum, Amarillo cattle man, 970; Dr. George C. Butte of Austin, 412; John F. Grant of Houston, 212, and John Pollard Gaines of Wichita Falls, fifteen. Potter county, Exum's home, returned 100 per cent of its Republican strength, 824 votes, for Exum.

The same returns in the Republican Senatorial contest gave C. O. Harris of San Angelo 522 votes, Doran John Haesley of Dallas 473 and Harve H. Haines of Port Arthur 344.

CONGRESS RACES

Latest incomplete unofficial returns on yesterday's Congressional races, as compiled tonight gave the following totals:

Democrat: Second District: Returns from thirteen of fourteen counties, including three complete, gave John C. Box, incumbent, 23,244; Martin Dies, 27,718.

Fourth District: Four of five counties, none complete, Sam Rayburn, incumbent, 14,859; C. B. Randell, 9446; B. L. Sherley, 3307.

Fifth District: Two of three counties, one complete, Hatton W. Sumners, incumbent, 17,160; Walter J. Reid, 3216; J. Hayden Moore, 2154.

Eighth District: All four counties, none complete, Daniel E. Garrett, incumbent, 27,037; Charles Murphy, 6898; John M. Snell, 4759; James L. Bailey, 2069.

Ninth District: Ten of thirteen counties, none complete, J. J. Mansfield, incumbent, 10,593; Leo C. Buckley, 3402.

Tenth District: All nine counties, two complete, James P. Buchanan, incumbent, 16,916; Harry Nolan, 8095; John W. Hornsby, 5383; C. G. Human, 425.

Thirteenth District: All twelve counties, two complete, Guinn Williams, incumbent, 10,866; W. D. McFarlane, 7942; B. D. Sartin, 6869; John Lee Smith, 3464.

Sixteenth District: Thirty-two of thirty-eight counties, thirteen complete, R. E. Thomason, 16,409; E. E. (Pat) Murphy, 13,230; Marvin L. Birkhead, 1756.

Seventeenth District: Eighteen of nineteen counties, four complete, Thomas L. Blanton, incumbent, 32,461; V. Earl Earp, 15,601.

Eighteenth District: Thirty-six

Will Rogers Remarks:

BEVERLY HILLS, July 27. [To the Editor of The Times:] Well, sir, yesterday was Bernard Shaw's birthday. He was 74 years of age. I had a great visit at his London home with him when I was over to the "increasing of naval armament conference." He has more original ideas to any subject you name than any man in the world. He has lived in England all these years and they don't know yet whether he is "for 'em or against 'em." Here was one of his observations he turned out on me: "America and Russia are the only two countries left in the world with any scheme of life. Russia is trying an experiment and America is trying everything." So good luck to the old rascal, I hope he lives to be a thousand.

Yours,

REDS' COAL BAN URGED

Lumber Barring Also Favored

Senator Reed Writes Mellon Products Could be Kept Out in Two Ways

Wood and Mine Interests Would be Assisted by Exclusion

BY LAURENCE M. BENEDICT
"Times" Staff Correspondent

WASHINGTON, July 27. (Exclusive)—Immediate exclusion of Russian imports of lumber and anthracite produced by convict labor or otherwise in conflict with the Tariff Act was urged by Senator Reed, Republican of Pennsylvania, today in a letter to Secretary of the Treasury Mellon.

These products could be barred from the country, Reed suggested, either by Treasury regulations under Section 307 of the Hawley-Smoot Act, prohibiting entry of convict-made goods, or under proclamation under Section 327, dealing with unfair competition.

There were indications the Senator's letter will receive serious consideration at the Treasury Department, Assistant Secretary Lowman in charge of customs having announced yesterday that he will start an investigation this week into lumber, coal, manganese and Russian imports to see whether they should be excluded. The Treasury has already barred Russian pulpwood and has apparently adopted a policy of keeping out all Russian goods possible, despite the threats of soviet retaliation.

WEST INTERESTED

Pacific Coast Senators and Representatives have been fighting for many months to exclude Russian lumber, and members of Congress from the anthracite region in Pennsylvania have been attempting similarly to eliminate the Russian competition which has been all but ruinous to the domestic anthracite industry.

The Tariff Commission is now making an investigation of Russian anthracite exports and is expected to report to Congress in December. American lumber interests have been insistently demanding the same kind of an official inquiry into lumber and now are going to get it. Investigation, however, will require time and Senator Reed in his letter to Secretary Mellon urges that action be taken at once so that a forewarned Russia will not have an opportunity to "dump" its products into this country.

MIDWEST IN BAKE OVEN

Deaths Mount; Crops Suffer

Farmers Pray for Rain as Heat Wave Continues; Fires Break Out

Relief Promised for Tonight; Mississippi in Low Stage; Mercury Tops 100

CHICAGO, July 27. (Exclusive)—Baked for weeks under recurrent heat waves, the Middle West and East over the Sabbath suffered from another day of record-breaking, ravaging and suffocating torridity that claimed sixteen lives, many prostrations and further serious crop damage. Forest fires in Virginia added another menace to the heat and drought in that section.

In the Middle West the drought is spreading to such an extent that the Mississippi River is about sixteen feet lower than it was a month ago, while the Wabash River reported an extreme low of one foot in Indiana. The low stage of the Mississippi River is beginning to worry river men because river transportation has been slowed and it is expected the Federal barge lines will be put out of commission if rain doesn't come quickly.

PAVEMENTS BUCKLE

The highest temperatures were reported from Southern Illinois, Kentucky and Arkansas. Earlington, Ky., reported an official 110 deg. So did Mt. Carmel and Carbondale, Ill. St. Louis reported an official 105 deg., with street thermometers registering 115. Northern Arkansas, without rain for more than two months, reported 110 deg. generally. Pavements tonight were buckling in Southern Illinois.

Prayers for rain were held in virtually every rural community in the Central States. C. A. Donnel, government weather forecaster, predicted rain Monday and a temperature drop Monday night as the wind shifts from the southwest to the northwest. This forecast applies, he said, to Northern Illinois, Indiana and Missouri, Eastern Iowa and possibly Kansas and Nebraska. The farmers of these States have suffered most from the continued intense heat along with drought.

FARMERS JOYOUS

The despairing farmers tonight hailed with joy the predicted rain. The general forecast for the central district was as follows:

"A break in the heat wave will occur in the Northern Central States within thirty-six hours except in the southeast portion, where it will be delayed until Monday night. Fairly general showers and thunderstorms are likely, in this connection."

Three deaths occurred today from the intense heat in Chicago and there were a score or more prostrations. Near the lake the official reading was 98, but on the west side and through the western suburbs street thermometers registered as high as 106. It was estimated tonight that more than 750,000 persons motored to the Wisconsin and Michigan lakes over the week-end. Those who stayed home crowded the parks and beaches.

In Illinois other readings were: 107 at Quincy, the hottest day there so far this summer; Peoria also reported 107 deg. Toulon, 107; Canton, 106, and Eureka, 102. Corn is firing, the blades are rolling up like long cigars and pastures are burning under the intense rays of the sun. Hannibal and Brookfield, Mo., suffered under 105 deg., the hottest day in years. Corn all through that section has been severely damaged, according to estimates by experts.

ST. LOUIS SWELTERS

St. Louis sweltered under the highest temperatures recorded since 1901, the thermometer reaching an official 105 deg. at 5 p.m. Street thermometers, however, climbed as high as 115 deg. there and through the central part of the State. One death from the heat was reported and twelve prostrations. Farmers generally report their crops are withering from lack of rain.

Western Missouri, Kansas, Iowa and Nebraska reported readings of from 104 to 108. Omaha experienced the second hottest day of its history when the mercury touched 108.6 at 3 p.m. The all-time record is 110 recorded Aug. 4, 1918. One death and three prostrations were attributed to the heat. Excessive temperatures were recorded throughout the State.

Other high temperatures record-

FOX CHAIN TURNS TO PRESS

All of Theaters' Advertising to Go to Newspapers; Survey Shows Latter Best Medium

NEW YORK, July 27. (Exclusive)—After a careful survey of the field of motion-picture advertising the Fox Theaters Corporation, operating hundreds of houses between the Mississippi River and the Atlantic seaboard, today announced it has instructed its house managers, without decreasing their advertising appropriations, to drop all other forms of advertising and spend the money for newspaper space.

The Fox company has found newspapers the "logical medium to advertise current programs to the motion-picture public." G. S. York, director of advertising, declared he listed six reasons for this decision.

"Frequently the theaters must make quick changes in programs. These can always be advertised in newspaper columns.

"The newspaper columns also permit the best use of decorative advertising which is so essential to the advertising of our theaters.

"Increased space always is available in newspaper columns.

"Newspaper advertisements can be changed or corrected with greater dispatch, minimum cost and greater convenience.

"Except in rare cases, theatrical advertisements in the newspapers do not have to compete with non-theatrical copy.

"Newspaper advertisements can be digested at the convenience of the reader."

The decision is based on the experience of the Roxy Theater, Fiftieth street and Seventh avenue, which has used newspaper advertising exclusively.

QUAKE RELIEF WORK PUSHED

Various Aid Services Have Been Smoothly Adjusted

Streets in Italy's Stricken Area Being Cleared

Measures Taken to Rebuild Most Needed Homes

ROME, July 27. (AP)—Relief work in the Italian provinces devastated by last Wednesday's earthquake is going forward smoothly, and there are no indications that the toll of 2143 dead and 4551 injured will be greatly increased.

In his second official report to Premier Mussolini, Minister of Public Works Crollolanza announced today that the various relief services have been completely adjusted, the work of bracing or demolishing dangerously damaged buildings is going forward smoothly, the clearing of the principal streets is well under way, and the distribution of rations and other supplies is regular and equal to the people's needs.

MATERIALS AWAITED

The report said many local bakeries are functioning again, and emergency chemist shops have already been installed in the various townships. The Minister announced that tomorrow morning the last convoy of injured, now grouped at Santa Angelo De Lombardi, will be taken to hospitals by special train.

The work of enumerating damaged or destroyed buildings is being pursued, and measures were taken to start construction of houses for the homeless in the townships hardest hit by the quake. The building will start next week, as soon as the materials arrive.

King Victor Emmanuel, accompanied by Undersecretary of Public Works Leoni, made two visits to Melfi yesterday. He first visited the town early in the morning, but was so determined to envisage the extent of the disaster that he returned there, and investigated conditions also at Rapallo, Rionero, Barile, Accadia and Ansano.

The King stopped often to question the authorities and townspeople. Everywhere he was the object of moving manifestations of attachment to his house and regime.

NEW TOWN TO BE BUILT

In his report, Minister Crollolanza told of his own visits to Ariano and Villanova, saying the latter must be considered destroyed, and a new town created. He told of assembling technical experts to provide for the proposed construction and for co-ordination of all efforts.

In conclusion, the Minister said the morale of the populace is as high as possible, and that the people maintain serene faith in the government's efforts. He said public order is "perfect."

Minister of Finance Mosconi, by an executive order, has suspended the collection of taxes in the worst-stricken towns of Potenza Province. He asked the chief financial official of Avellino Province to formulate concrete plans for doing the same for the townships worst damaged in that area. Similar action has been planned for two sections of Bari and Naples provinces, as well as for the reconstruction of damaged or destroyed offices for tax collectors.

BAN ON SOVIET IMPORTS ASKED

(Continued from First Page)

men for organized labor and with a suggestion relating to the possibility of an embargo emanating from Chairman Brossard of the Tariff Commission, now engaged in a study of the subject.

Customs officials who have been studying the same problem are understood to feel that the language of the Tariff Act is broad enough to permit the Federal government to place the burden of proof upon the importer that lumber and anthracite consigned from Russia to the United States are not produced by convict labor. This is the view also of Senator Reed and is supported by President Mathew Woll and Secretary M. J. Flynn of the Wage Earners' Protective Conference, the tariff organization of labor groups interested in tariff protection.

Calling attention to a recent communication addressed to Assistant Secretary of the Treasury Lowman by Messrs. Woll and Flynn, Senator Reed says in his letter to Secretary Mellon:

"Section 307 of the Hawley-Smoot Tariff Act clearly prohibits the entry of commodities produced by convict labor. The same section directs the Secretary of the Treasury to prescribe such regulations as may be necessary to enforce this provision.

BURDEN ON IMPORTER

"In my opinion, this language is sufficiently broad to permit the American government, in dealing with imports from Russia, some of which are known to be produced by forced labor, to place the burden of proof upon the importer, by requiring him to show as a condition of entry that the commodities sent to this country are not produced by convict labor in contravention of this section.

"As you doubtless are aware, a serious situation has arisen as a result of the importation of lumber, anthracite and the threatened importation of other commodities produced or supposed to be produced by convict labor at prices much below the cost of producing similar commodities in the United States. This competition unless checked by the exclusion of foreign goods so produced not only will prove ruinous, but in making a bad situation worse, will contribute to the unrest and unemployment in our own country. This would be particularly pleasing to the Communistic regime in Russia and encourage the spread of radicalism in the United States.

"From every viewpoint, therefore, I believe that this subject is worthy of most careful study and I earnestly hope that the regulations for the enforcement of Section 307 will be of such a character as to make certain of the exclusion of commodities produced by convict labor."

EINSTEIN PEEKS AT NEW SECRET

"Most Interesting" Idea Yet Engrosses Scientist

He Studies It Even While in League Committee

Mme. Curie Often to Be Seen Conversing With Him

(Copyright, 1930, by New York Times)

GENEVA, July 27. (Exclusive)—Calculating, jotting down figures and symbols, checking equations, smoking his pipe when he has not forgotten to light it, figuring while the translators are turning into French and English his views on the necessity for improving the education of children, Prof. Albert Einstein, even during the sessions here of the League of Nations Committee on Intellectual Co-operation, of which he is one of the illustrious members, is working in a field of study still more vast than those in which he has already pioneered.

He does not say what it is, but when asked if the subject is more interesting than his previous theories, he replied, with the soft voice and engaging smile which from merely looking at him one expects him to have, "I think it is more interesting, but maybe people will think I am a fool when they read it."

MME. CURIE BUSY, TOO

At the other end of the committee table sits slight black-robed, white-haired Mme. Curie. With bright eyes peering from behind horn-rimmed glasses she follows closely the discussion on reorganization of the intellectual co-operation section, but she rarely joins in it. When the meeting adjourns for luncheon or dinner she is to be seen refusing all the social invitations pressed on her. She has not time, she explains, for she needs every spare moment to finish the scientific monograph which she must deliver in Paris soon. To the question "What is its subject?" she, too, does not answer.

Mme. Curie will not allow herself to be either interviewed or photographed. She does not know yet that the man who passed her when she was reaching at noon today for her black purple-lined cape, hanging in the hall of the secretariat, and who stopped to help her into it, was Derso, the Hungarian caricaturist who had just sketched her.

OLD-TIME FRIENDS

When Mme. Curie has any free time she is usually to be seen deep in conversation with her old friend, Dr. Einstein. The sight of the frail earnest little woman who, with her husband, discovered radium, and the stocky man with leonine hair and the gentlest of expressions, who is the genius who propounded the relativity theory sitting on a bench in the lobby, lost to everything but the conversation, is one that intimidates the most brazen autograph collector. People simply stand at a respectful distance and stare, or tip-toe by these friends who knew each other before either was known to the world.

Speaking of those days before her husband died, a martyr to science, Mme. Curie smiled at her memory of the younger Einstein. He was the funniest man, she said. He was always thinking of the same thing, discussing the same problem of relativity and seeking to talk with any scientist working in any possibly related field.

SPECIAL INTEREST

Though Dr. Einstein is devoted to his studies during the time taken by the translations here, he not only follows as closely as any the work of the Intellectual Co-operation Committee, but he contributes much to it. He himself understands both French and English, so does not need the translations. But he prefers to speak to the committee in German, save for his short statements, which he makes in French.

Like Mme. Curie, Dr. Einstein shows special interest in problems touching child education. His longest statement to the committee—which meets in private—was to say that to him the main thing is how generally to improve the education of the young. The League could do no greater work, he held, than to help to make the elementary schools throughout the world better.

TASK POINTED OUT

Teaching children the spirit of international co-operation, he said, is a task the successful achievement of which will quite suffice to assure the full success of the intellectual co-operation committee's work. It is extraordinary, he declared, how little relation there is now between the savants working in the different branches of science though their work really is closely related. He did not hesitate to point to himself as a bad example, Dr. Einstein describing Dr. Einstein as a mathematician and physicist with a lamentable ignorance of chemistry.

Dr. Einstein came to this meeting with an unexpressed prejudice against one of the members. When that member addressed the committee Dr. Einstein listened carefully and found he spoke truly. When the speaker finished Dr. Einstein alone got up, went to him and warmly expressed his praise. It was only when a curious friend of Dr. Einstein mentioned that incident that he admitted his previous prejudice. He explained with his child-like candor that he felt he had done the man an injustice in thinking badly of him and owed him amends.

HE HAS OPEN MIND

Aside from his fame, Dr. Einstein makes the strongest impression on the committee and the secretariat officials because of what one of the latter called "his extraordinary frankness and sincerity and the perfectly open mind with which he approaches and discusses every question."

This official asked the professor if he realized what impression his words make here. Einstein looked at him and said: "But I only say what I think."

When the same official remarked it was hard to find intellectuals who could work together, Dr. Einstein, who can still laugh like a boy, said, "Yes, the intellectuals always have microscopes before their eyes."

Cooler breezes brought some relief to Cleveland and Northern Ohio generally tonight. Thermometers at Cleveland Saturday registered over the century mark and the heat claimed five victims. The high point there today was 83 deg. with the humidity at 81, which caused discomfort.

MANY RESCUED

Farther east in New York City and the coastal Jersey towns where the mercury went up to 85 during the major portion of the day with a high humidity, millions suffered from the heat. Five deaths in New York City were reported and five prostrations. Scores of bathers were rescued by life guards at the crowded beaches.

At Rice Lake, Wis., one man was killed and much property damaged during a severe windstorm which struck that section early tonight. Louis Gagner, a local policeman, was electrocuted when he came in contact with a power wire which had blown down.

The wind blew off the roof of the Elks' Club Building and landed it across the street on the top of four automobiles. One car had four persons in it but none was injured. The roof of the local canning company, Alson & Co., was blown off and many plate-glass windows were smashed. A heavy rain accompanied the blow.

OKLAHOMA HAS HOTTEST SUNDAY OF YEAR

OKLAHOMA CITY, July 27. (AP)—Oklahoma today experienced its hottest Sunday of the year and there was no relief in sight.

In the State capital a maximum of 100.2 deg. was reported by the United States Weather Bureau, which yesterday announced a season's high of 101. From Medford, in Northern Oklahoma, came an unofficial high of 116 deg. yesterday. Thermometers in the sun there burst.

Forecasters said prospects were for fair and continued warm weather.

KATYDIDS GIVE HINT OF EARLY FROSTS

STONEY POINT (N. Y.) July 27. (Exclusive)—Believers in folklore, sweltering in the hot weather of the past ten days, were encouraged today by the singing of katydids—a bit early, this year, according to some of the nature students. One of the oldest Orange county traditions is that when the katydids vocalize, the first frost is only six weeks off. On that basis, many natives expect it to be cooler by September 5, at the latest.

DROUGHT AND HEAT UNABATED IN TEXAS

DALLAS, July 27. (AP)—Drought and excessive heat remained unabated in Texas today as temperatures hovered near the 100 mark over most of the northern and central sections of the State. Dallas reported a maximum of 100; Waco, 100; Fort Worth, 102; San Antonio, 97; Houston, 95.7, and Galveston, 88.

MERCURY SOARS TO PEAK IN KENTUCKY

LOUISVILLE (Ky.) July 27. (AP) Kentucky had its hottest weather of the year today, canceling the slight benefit done to crops by slight rains yesterday. The official reading at Earlington was 110 deg., the highest in the nation.

Bowling Green and Paducah had high official of 108 deg.; Owensboro, 105; Louisville, 104; Hickman, 103; Lexington, 99, and Covington, 98.

The State's crops have been damaged more than 50 per cent by a record drought of four months' duration. A heavy rain visited Eastern Kentucky today, relieving water shortages, but in other sections of the State water companies have curtailed service.

ENGLISHMAN WINS EUROPEAN AIR DERBY

BERLIN, July 27. (AP)—Pilot Broad of England landed at Tempelhof Flying Field at 4:33 p.m. today, being the first among sixty entrants to complete a 4650-mile round-Europe flight which started a week ago. He was followed a few seconds later by Butler of Capetown, who, however, is considered barred from the competition since he had to renew his propeller after his plane made a nose dive yesterday. The next arrivals were Morzik of Germany and Thorn of England, all completing the circuit five days before the final date.

LADY OWEN HELD IN JAIL IN SHOOTING

Widow of Titled Briton Fails to Gain Release in Wounding of Woman

PARIS, July 27. (Exclusive)—Lady Owen, French-born widow of Sir Theodore Charles Owen of England, is finding French justice too stringent for her liking.

When she shot the wife of Dr. Paul Gastaud, radiologist with whom she had had an affair, she confidently expected to be let off with little more than a mild reprimand, she indicated when she appeared before a magistrate to answer for her offense. Instead, the cold-blooded magistrate sent her back to jail to await further proceedings.

Lady Owen told the magistrate she had lent Dr. Gastaud a large sum of money and that this financial transaction was the reason for the shooting. She had gone to the doctor's home to discuss the affair, she said, when Mme. Gastaud appeared. The shooting follow. Mme. Gastaud will recover.

DEBT OWED BY AMERICA ENORMOUS

Foreigners' Holdings in United States Outclass Credits Due, Says Klein

WASHINGTON, July 27. (AP)—While the United States is a creditor nation with accounts of magnitude it is the greatest debtor nation in history on private account, Dr. Julius Klein, Assistant Secretary of Commerce, said tonight in a radio address.

Dr. Klein discussed the situation in an address dealing with the conception that the United States economically is a sort of Shylock among nations. He said this viewpoint has been emphasized by persons considering more exclusively the war debts owed this country by Europe.

Dr. Klein's estimate of the other side of the international debt score took into consideration the immense holdings of railway and industrial securities, of branch factories and of bank credits which foreigners have obtained in the United States, and on which they draw an income from this country's business activities.

the interest of business profit or mere human indulgence."

What Senator Fess had to say about farm relief fits in with the present insistence by Chairman Legge of the Farm Board that the only real solution of the wheat problem will come through control of production.

"Sound relief will avoid artificial stimulus such as government price-fixing or government buying and selling," said Senator Fess. "Such remedies will but defer the day of reckoning. All relief measures to be of permanent value must be constructive and grounded in economic principles underlying production and consumption. The solution is primarily economic, not political. It is more individual and collective than governmental.

"Whatever aid the government may give the remedy lies most largely with the farmer himself, acting in unison with his associates to control his products. It is a matter of management rather than legal enactment, save in constructive legislation enabling the farmer to better handle his product, to better determine a market."

STEAMSHIP DISABLED OFF NORTHERN COAST

SAN FRANCISCO, July 27. (AP)—The steamship Daisy Gray, owned by the Fremont Navigation Company, was reported as disabled twenty miles off Astoria in radio advices received today by the marine department of the Chamber of Commerce here.

The vessel, en route to the Hunting Islands, was reported drifting with a broken propeller. Help was ordered sent from Astoria.

Citizens Scratch for Favor at Primary Tomorrow

Democrats Crowd Lists for Political Preferment

Republican Choice Conceded to Senator Pine

OKLAHOMA CITY, July 27. (AP) Oklahoma's polls-goers, who nominally vote the Democratic ticket, Tuesday must select their choice of party nominees for United States Senator and Governor from fields filled with personalities which ever have dominated the State's brief but chaotic political career.

Four former governors, two of them ousted, seek the Senate seat of W. B. Pine, whose nomination on the Republican ticket is regarded as assured in the first State-wide primary this week. The size of the field assures Democratic contests in a run-off primary, an innovation in Oklahoma, two weeks hence.

GORE RUNS AGAIN

Henry S. Johnston, ousted on a charge of incompetence from the Governor's chair; Charles J. Wrightsman, Tulsa oil man; Lee Cruce and J. B. A. Robertson, also ex-governors, the latter a wet, and blind T. P. Gore, for thirteen years Senator, seek the Democratic nomination in a campaign of many issues, none of them particularly outstanding.

Johnston's campaign for "vindication," during which he has bitterly assailed the enemies who brought about his ouster in 1929, has attracted considerable attention.

A woman, Mrs. Kathryn Van Leuven of Oklahoma City, is in the same race. J. C. (Jack) Walton, ousted as Governor in a Ku Klux Klan controversy during which he ordered martial law, is running as an independent.

Woodson E. Norvell of Tulsa, Democratic Senatorial candidate who was unsuccessful in two attempts to bar Wrightsman from the race on the grounds of excessive expenditures, last night withdrew in Cruce's favor.

IN CHARACTER

Colorful William H. (Alfalfa Bill) Murray, constitutional author and founder of an ill-fated colony of American farmers on a 50,000-acre tract in Bolivia, has made a stormy campaign for the Democratic gubernatorial nomination, promising to put a "howdy" sign on the executive office.

Frank Buttram, Oklahoma City oil millionaire, and M. E. Trapp, former Governor who went into office after the Walton ouster in 1923, are among his eight opponents for the nomination. Other major candidates include A. S. J. Shaw, State Auditor; Frank M. Bailey of Chickasha and E. B. Howard, former Representative.

Trapp was impeached while Lieut.-Gov. Buttram, newcomer to politics, has powerful newspaper backing.

CONTESTS ALL 'ROUND

There will be general election contests in all eight Congressional districts and several spirited races have developed for the first primary. One of these concerns the Republican nomination from the Eighth District in Northwestern Oklahoma. There Carl B. Haun, Blackwell, is pressing Representative M. C. Garber, Enid, veteran House member. Mrs. C. D. Carter in the Third District is opposing Representative Wilburn Cartwright, the man who defeated her husband, now dead, for the Democratic nomination.

On the Democratic side around 250,000 votes are expected to be cast, with a much lighter Republican balloting anticipated.

Senatorial candidates for several weeks have been under the scrutiny of investigators for the Senate Campaign Funds Committee.

WOMEN OF SAN JOSE BACK FITTS

Third Club Organized to Support Angeleno's Race for Nomination

SAN JOSE, July 27. (Exclusive) A Fitts-for-Governor Club has been organized by a group of San Jose women, with Mrs. D. A. Laughlin, president, and Miss Gladys Johns, secretary. The club is composed of women representing virtually every veteran auxiliary, club, society and fraternal organization in San Jose.

At the club's organization meeting at the City Hall, a short address was made by Judge Percy O'Connor, in which he declared that the life record of Buron Fitts was one which appealed strongly to California, not only because of what he has actually accomplished in his crime clean-up, but because of his devotion to the welfare of service men, and to the widows and children of the service men.

The women's Fitts-for-Governor Club is the third Fitts organization in San Jose, the other two being Fitts-for-Governor Club, and the Veterans' Fitts-for-Governor Club, both organizations being composed of men.

TESTS FOR INTELLIGENT PEOPLE—A SERIES

When was the bed a house?

In our chairs and tables today we can follow no better models than those of Old England. But beds are a different story. Long ago, when icy winds swept in through crude casements, the bed was a little wooden house. It had a roof and was completely enclosed. Admittance was by a panel in the side. Later, there followed the four post bed with heavy draperies.

Obviously the old traditions in beds are not suitable for the present day, and new designs must be created. Years of sketching and model-making preceded the completion of the Danersk Sudbury bed pictured below. In design is related to certain prized Connecticut chests with Hepplewhite bracket feet, and is in the spirit of some of the most beautiful furniture of the period of 1780.

Why do mahogany hunters climb tall trees?

The finest mahogany trees are widely scattered, and hard to find. To spot their locations, mahogany hunters climb to the tops of the highest trees that tower above the jungles, and pick out the king mahoganies.

Only the choicest grains of mahogany have been used in the Danersk bed pictured below.

What is a laminated panel?

Few of the wide panels in antique furniture have withstood modern heating conditions without cracking or warping. Modern craftsmanship, however, has devised a method of panel building which defies the frequent temperature changes of present-day living conditions. Many layers of fine wood are carefully joined and then the panels are mortised and tenoned into the frame itself. Such careful craftsmanship is one of the numerous features which add value to the Danersk bed pictured below.

The Danersk Sudbury bed pictured above was made by our own Scotch and English cabinetmakers, using only the choicest mahogany, with crotch mahogany inlays, and fine inlays of boxwood. Come and see this interesting Danersk piece, with hundreds of others for every room in the house.

TARDIEU RAPS AT SOCIALISM

French Premier Discusses "Dreams and Systems"

Profligacy of Parliaments Also Draws His Fire

Manufacturer and Worker Gathering Hears Talk

NANCY (France) July 27. (AP)—Present-day Socialism and the profligacy of parliaments, were severely handled here today by Premier Tardieu, before an audience of manufacturers and workmen.

Observers believe his speech, evidently intended to place before the people the government's point of view of recent conflicts with important groups in the Chamber of Deputies, will have loud echoes through France. The head of the government started out by declaring France cannot support an annual increase in its budget of something like 5,000,000,000 francs (around $200,000,000.)

"Our pre-war budget was 5,000,000,000 francs," said the Premier. "This year it is 52,000,000,000 and if we add the sinking fund and all local budgets the total asked from the taxpayers is 72,000,000,000.

"Parliaments, which originally were set up to limit the profligacy of the ruling powers, have by evolution become less apt to limit than to increase expenditures."

The Premier then made a direct attack on the Socialists, saying: "The policy of prosperity which my government announced at the outset of its career cannot be realized by dreams or by systems."

He went on to say that the dreams were those of Karl Marx and the systems are the present-day programs of the Socialist party, which takes no account of what has happened since the days of Marx. Tardieu referred to bills passed by Parliament at the last sessions which will affect future budgets. He told the workers, "You are not sufficiently considered as taxpayers and consumers, which are one and the same thing."

He ended by saying that fifty-one nations succeeded in founding an international labor bureau, and asked "Are we incapable in the bosom of our own family of conceiving and realizing the unity of French labor? That is the problem of tomorrow."

AMERICAN SHIPS KEEP IN RUNNING

Third of United States Commerce Sails Under Stars and Stripes

By a "Times" Staff Correspondent

WASHINGTON, July 27. (Exclusive)—That American ships are holding their own in competing for cargoes of the foreign commerce of the United States is shown by the annual survey of shipping just completed for the fiscal year ended June 30, 1929, by the United States Shipping Board Bureau of Research.

Eleven hundred million dollars is the estimate arrived at for the transportation of passengers and cargoes in the water-borne foreign trade of the United States for the year 1929. This exceeds by $100,000,000 the transportation bill for 1928.

A total of 5221 vessels aggregating 24,440,000 gross tons participated in the transportation of the water-borne foreign commerce of the United States during the past year.

The study discloses that ships of thirty foreign countries engaged in the carriage of freight and passengers between the United States and other parts of the world. American ships numbered 1835 with an aggregate gross tonnage of nearly 8,000,000, and were responsible for 23,088 of the 59,685 entrances and clearances made through United States ports during the year.

American flag vessels, therefore, represented 35 per cent of the number of vessels engaged in our foreign trade, 32½ per cent of the total tonnage and made 38½ per cent of the entrances and clearances through American ports.

Angeleno Heads State Board of Civil Engineers

SACRAMENTO, July 27. (AP)—At a meeting of the State Board of Registrations for Civil Engineers held here recently, Donald M. Baker, Los Angeles, was re-elected to the presidency of the board for another year. H. J. Brunnier, San Francisco, was again named vice-president, and Albert Givan, Sacramento, was chosen secretary for another term.

The board, created by the last Legislature, has the task of registering and licensing all civil engineers in the State. Work was started last fall, and is now nearing completion, Baker said.

To date approximately 5727 applications for registration have been received by the board, and 3388 have been approved and certificates issued.

BAPTISM KNOTS INFANT TANGLE

Bamberger Baby Christened Despite Protest

Watkins Family Attempts to Halt Ceremony

Several Suits Threatened Due to Mix-up

CHICAGO, July 27. (AP)—The Bamberger-Watkins baby mix-up settled today into what would seem a protracted squabble.

One of the infant principals, and possibly the Watkins heir, was christened George Edward Bamberger at the Church of Our Lady of Solace.

Original plans were for an afternoon ceremony at one church, but threats from Barrett O'Hara, attorney for the Watkins family, to halt the Catholic baptism by court injunction caused the Bambergers to hold the christening in the morning at another church.

With the name of the child officially entered in the church records, Charles Bamberger stated the celebrated baby tangle was settled once and for all. Simultaneously William Watkins announced the affair was "just starting." He promised a suit against the Bambergers and another suit against the hospital where the babies were born on the same day five weeks ago, and supposedly delivered into the hands of the wrong parents. Watkins reiterated his belief that the baby freshly baptized George Edward Bamberger is in reality the Watkinses' son. Bamberger claims him for a true Bamberger.

Meanwhile there were joy and sorrow in the respective homes. The Bambergers went forward with a Christening celebration. Watkins chafed and his wife was reported in a hysterical condition.

SCANDINAVIA FERTILE FIELD FOR MORMONS

NEW YORK, July 27. (Exclusive) Mormonism has been making greater progress in Sweden, Norway and Denmark recently than in any other part of the world, it was declared today by three Mormon missionaries who returned on the Swedish-American liner Oscar II from a conversion expedition. The missionaries paid their own expenses on the tour and incidentally, lived comfortably in Scandinavia on $40 a month apiece.

LODGE PICTURES AMERICAN RULE

British Scientist Airs Views in London Radio Talk

United States Seen as Head of Co-operating Nations

Direction of World Police Force Also Predicted

NEW YORK, July 27. (AP)—Sir Oliver Lodge, eminent British scientist, speaking today from London over the Columbia broadcasting network on the "Destiny of America," said, "The United States of America probably hardly yet realizes the part it is to play in human progress."

Mentioning our great wealth, our geographic isolation from "the squabbles and jealousies of Europe," and our skill in industry and science as qualities that have developed America into one of the mightiest of nations, he said this country ultimately will take the lead in the worldwide co-operation of peoples.

Sir Oliver expressed the conviction the first steps for world peace already are under way and soon we can trust to a civilized method of settling disputes. He pointed out the need of a power to keep international order, and said:

"I believe in due time the police force of the world will be in the hands of America.

"Such a power can only be in the hands of a people who can afford it, a people who can be trusted not to abuse it, a people who have so much land they cannot be suspected of wishing to grab more, a people with high and noble traditions to which presently they will determine to adhere."

PHELAN'S CONDITION SLIGHTLY IMPROVED

SAN JOSE, July 27. (AP)—Former United States Senator James D. Phelan, ill at his home, Villa Montalvo, near here, had a "fair night" last night and is slightly improved today, although his condition remains critical. This was the word this afternoon from Dr. Louis Mendelsohn of Saratoga, one of his physicians.

KOREAN SLAIN IN FEUD

OAKLAND, July 27. (AP)—Believed by police to have been the victim of an oriental love feud involving a white girl, H. K. Rinn, a Korean, was slain today in an apartment back of his Franklin-street barber shop here.

YOUTH TAKES PATH BLAZED BY FATHER

Rodolfo Elias Calles

MEXICO CITY, July 27. (Exclusive)—Rodolfo Elias Calles, son of Gen. Plutarco Elias Calles, former President of Mexico and still a powerful figure in the political affairs of the republic, is following in the footsteps of his father. He is going up rapidly in politics.

Young Calles, at present Treasurer-General of his native State of Sonora, in extreme Northwestern Mexico, has thrown his hat in the ring in the gubernatorial election of the State, scheduled this fall. Since Calles is running on the National Revolutionary party's ticket, the party organized by his distinguished father, his election appears virtually assured.

SHIPPING BOARD PARES BUDGET

Only $4,000,000 to be Asked for Year's Maintenance

Appropriations Drop Yearly Since 1918 $1,067,183,000

More Lines Will be Sold and Employees Released

WASHINGTON, July 27. (AP)—The $3,000,000,000 government agency which spent one-third that sum in a single year plans to ask for only $4,000,000 for its maintenance next year.

Altogether $3,683,569,000 has been appropriated for the Shipping Board and the Merchant Fleet Corporation, the board's operating agency. Of that sum $1,067,183,000 was spent in 1918, when the United States was at war and ordered the board to buy and build ships regardless of cost.

Since that year the appropriations have decreased steadily. They were $110,915,000 in 1922, $30,000,000 in 1925 and $6,000,000 for 1930.

To allow the decrease in funds, the board has sold hundreds of ships built or contracted for during the war and reduced its staff correspondingly. It is slowly going out of the shipping business, concentrating on stimulation of the domestic merchant marine. For this latter purpose, President J. R. Gordon of the Merchant Fleet Corporation estimates $4,000,000 will be enough in 1931.

The board has in active operation only 186 of the more than 2000 ships built during the war period. These are to be sold as soon as practicable.

In 1920 the board's pay roll was about $23,000,000, but the fewer employees now draw only $3,288,513 annually. This latter figure will be further decreased for the next fiscal year as additional steamship lines and other properties are sold and existing government-operated lines are consolidated.

FOUR INJURED AS GERMAN REDS FIGHT

CHEMNITZ (Saxony, Germany) July 27. (AP)—Three Fascists and the Police Commissioner of Chemnitz were injured today in a fight between Fascists and Communists. The Communists attacked a hall where the Fascists were meeting, one group fired a volley of revolver shots through the windows, while another burst through the doors and had a wild scuffle with the audience. Chairs and beer steins were freely used.

WOMAN'S BODY DISMEMBERED

Missing Ohio Wife Victim of Butchery

Mystery Surrounds Death of Cleveland Matron

Husband, Suburban Marshal, Offers No Theory

CLEVELAND, July 27. (Exclusive) The dismembered body of a woman found in a swampy blackberry patch on a farm near Hudson, O., has been identified as that of Mrs. Myrtle Smith, missing from her home since June 16, last. Mrs. Smith was the wife of Clyde C. Smith, marshal of North Randal, a suburb of this city.

Quicklime had been spread over parts of the body in an effort to destroy evidence of the brutal murder or to thwart identification.

Marshal Smith is unable to offer any explanation of his wife's murder or furnish authorities with any clews as to the possible slayers. He said he does not believe his wife was murdered as a part of a plot against him and, he declared, he is unaware of any enemies his wife might have had.

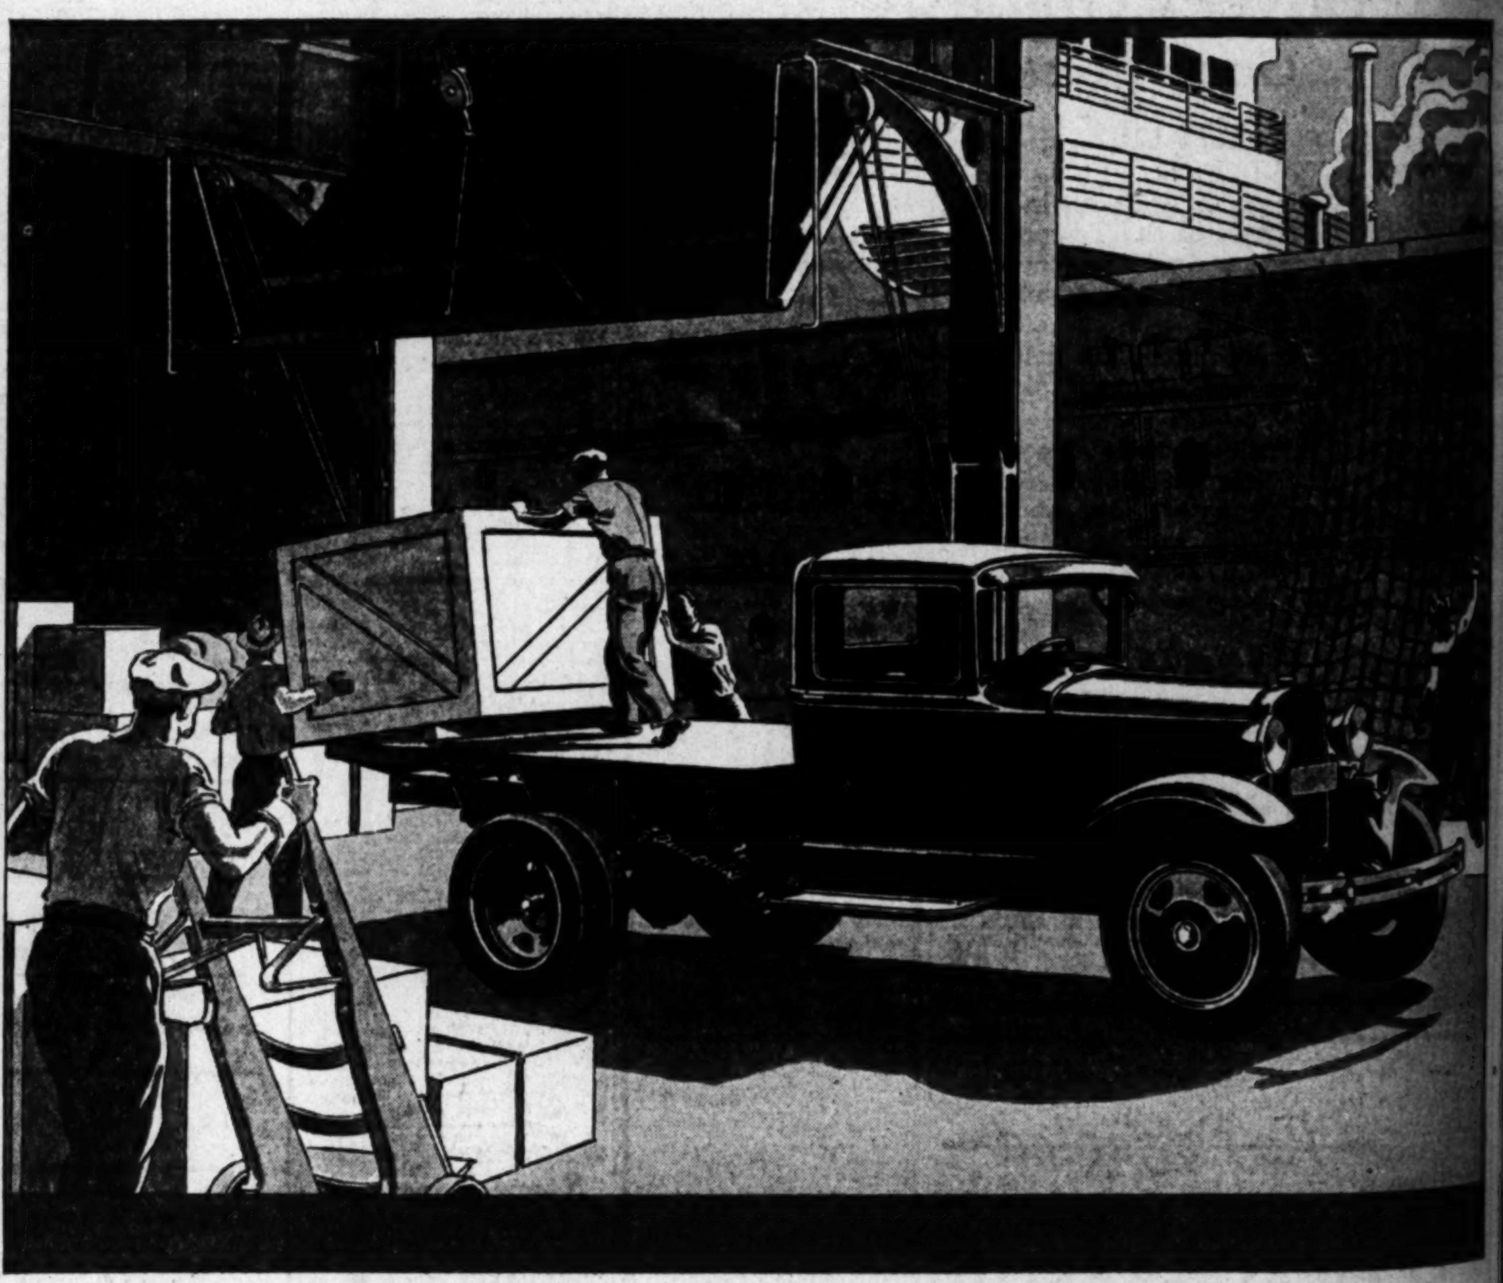
The Ford Truck is a faithful worker



THE Ford 1½-ton truck plays an important part in business. Wherever there are goods of any kind to be hauled, you are likely to see these trucks at work. Notice the ease with which they hasten their loads along—whether among the drays at a seaport, abreast of the leaders in down-town traffic, or where grades are steep and roads are rutted. The Ford is a strong and capable truck . . . a willing, tireless worker.

Rugged parts of simple design; large mechanical brakes, internal-expanding and fully enclosed on all four wheels; the use of 40 different kinds of steel, of fine steel forgings, and of more than 20 ball and roller bearings, all provide strength, reliability and long life, and add definitely to safety and economy in the Ford truck.

New chassis features of the truck increase its ability to work hard and long, and contribute greatly to its value. For example, the new rear axle has a spiral bevel gear of special design, with straddle-mounted pinion. Axle shafts are heavier than formerly, and because of the three-quarter floating construction, they serve only to turn the wheels, without carrying any of the weight of the truck or load.

Additional features are the 4-speed transmission; the provision for power take-off mounting; the heavier front axle and spring; the option of two rear-axle gear-ratios; the dual rear wheels available at small additional cost; and the 157-inch wheelbase offered for carrying unusually bulky loads. Standard stake, platform, and panel bodies are mounted on the chassis with 131½-inch wheelbase.

Bodies of the Ford truck are strong, of attractive appearance, and have ample loading-space. With the stake and platform bodies, either an open or enclosed cab can be supplied. Go to your Ford dealer, and let him help you decide what body-type and equipment are best suited to your purposes.

SNAKE TRIES TO BITE MAN BUT LATTER BITES SNAKE

WOOSTER (O.) July 27. (AP) "If a man bites a dog, that's news," according to the late Charles Dana, publisher, and on that basis, the feat today of Allen Manson, 17 years of age, of Wooster, ought to be worth an "extra." Allen picked on a snake.

The snake, a blue racer, was coiled to strike when Allen first saw it. Allen promptly stepped on it, but missed the head. The youth then found it necessary to grab the snake just behind the head and a moment later, the blue racer was coiling its tail around Allen's neck.

In that predicament, Allen took the easiest "out." He bit the snake and kept on biting until its body relaxed. Then he finished the killing with a club.

PISTOL SHOT CAUSES RIOT AT RESORT

Man and Woman Beaten and 200 Take Flight; Police Find No Clew

NEW YORK, July 27. (Exclusive) A mysterious pistol shot suddenly barking out above the dulcet strains of a double dance orchestra in Hollywood Gardens on Pelham Bridge Road, Bronx, early today, precipitated a riot in which one man and his fashionably dressed wife were beaten, and 200 other patrons, a number of them battered or trampled, fled in confusion.

Reports that gangsters were shooting up the place brought the police swarming to the scene, and although scores of witnesses were closely questioned there was none who could, or would, give the origin of the shot or throw any light on the trouble.

Even the two victims, Joseph Fisher, 30 years of age, and his wife Jeanne, 28, of Kew Gardens, L. I., were unable to explain why they had been attacked except to advance a theory that Fisher might have been mistaken for a night club masher said to have insulted another woman at a near-by table shortly before the melee.

Suspect Admits Trio of Wives

HOLLISTER, July 27. (AP)—Accused by one of his three admitted wives of being a polygamist, forger, jail breaker and slayer, M. V. Bradley is being held in the County Jail here today while authorities investigate his record.

Authorities said Bradley admitted he has three wives, Mrs. Bradley, Mrs. Harris and Mrs. Stanley, and that he twice escaped from the Texas State penitentiary at Huntsville, where he was serving terms for forgery.

INDIA'S PEACE HOPES FADING

Political Observers There Grow Pessimistic

Sapru-Jayakar Endeavors Believed Futile

Gandhi Still Firm in Stand for Independence

BOMBAY (India) July 27. (AP)—Hopes for peace entertained after the Indians Sapru and Jayakar undertook their mission to Mahatma Gandhi, in an effort to compromise the civil disobedience struggle, today were beginning to fade in the belief of Indian politicians.

These politicians pointed out Gandhi still insists Congress should be promised the substance of Indian independence, which Sapru and Jayakar would be unable to offer. They believe Sapru has little or nothing to offer from the government in the way of compromise.

PRIVATE PARLEY SOUGHT

The Congress party insists Gandhi, Motilal Nehru and Jawahablal Nehru, and Valladhai Patel and V. L. Patel be allowed to confer in private to review developments as a result of the Sapru-Jayakar interview.

However, there are no indications the government has any idea of making such a concession. Political circles have a report that Gandhi had insisted, in a letter which Sapru took to the Nehrus, that any peace document must bear the signature of both Nehrus. He insists on the signature of Jawahahlal Nehru as Congress leader, and Motilal as the last Congress president. In other words, these circles understand Gandhi himself will have nothing to do with such a document.

FINISH FIGHT URGED

Meanwhile Vallabhai Patel, in the course of a speaking tour, gave an address at Surat in which he continued to urge the Congressional party to strengthen their forces and fight to the finish.

He urged them not to pay a single copper in taxes to the government, and also exhorted his hearers to ignore the peace talks and concentrate on the nonviolent resistance campaign with renewed energy.

JAPAN DISEASE KILLS TEXANS

Mysterious Ailment Fatal to Two Members of One Family

WACO (Tex.) July 27. (Exclusive)—A mysterious disease, which proved fatal to two members of one family here, has been diagnosed as a bacillary dysentery of a type first found in Japan, following blood tests made by City Chemist C. C. Hill. Source of the disease remains a mystery, as it is seldom found in the United States. No epidemic is feared.

LAKE TAHOE INTERESTS FIGHT DITCH

Warrant Halts Operation of Steam Shovel Working on Irrigation Project

TAHOE CITY, July 27. (AP)—At midnight last night a steam shovel began digging at the outlet of Lake Tahoe, near here, between the dam and the edge of the water, on the land of the Truckee River Power Company, apparently for the purpose of drawing water of the lake for use in Nevada.

Executives of the Lake Tahoe Protective Association composed of landowners, and of the Tahoe Sierra Association, resort owners, telephoned the Placer County District Attorney and under his instructions had a warrant issued for the shovel operators, charging disturbance of the peace.

Work ceased at 3 a.m., Sheriff's officers said, when workmen learned of the issuance of the warrant.

Sheriff Carl Bechdolt said the work was being done under direction of T. H. King, Truckee Meadows engineer, representing certain farming and irrigation interests in Nevada. Instructions were to excavate a trench five and one-half feet deep, fifteen feet wide and ninety feet long to the water's edge.

KURDS DEMAND INDEPENDENCE

Demonstrations Reported by Oriental Press Bureau

Proposed Anglo-Irak Pact Brings About Agitation

Relatives of Sheik Mahmud Leaders in Movement

JERUSALEM, July 27. (AP)—The Oriental Press Bureau here reports great Kurdish demonstrations for the autonomy of Kurdistan have occurred recently at Sulaimanieh and Erbil, in Northern Irak.

Agitated by the proposed Anglo-Irak treaty under which the British will withdraw from Irak as soon as the country has become a member of the League of Nations, the Kurds gathered outside government offices and demanded an independent state for Kurdish tribes.

They are said to have submitted their demands officially to the British High Commissioner in Irak and to the League of Nations, and have decided to boycott the forthcoming vote in Irak on the treaty.

Among the leaders of the movement are the relatives of the famous Kurdish sheik, Mahmud, who for three years led a rebellion against the Irak authorities.

The Kurdish tribes, many of which are nomadic religious fanatics, are widely scattered through Turkey, soviet Armenia, Persia and Irak.

Chiang Reports Crushing Drive Against Rebels

SHANGHAI, July 27. (AP) — Dispatches from Hankow today tell of Nationalist claims to a crushing thrust against the Kuominchun, so-called peoples' army, revolting against the government, in the vicinity of Hsuchang, Central Honan.

Nationalist communiques say government forces occupied the city and forced the rebels to withdraw to the northward.

In a formal statement yesterday Chiang Kai-shek, Nationalist President and commander-in-chief of the armies, said morale of the rebels is crumbling and predicted an early victory.

BLAZING GASSER MENACES TOWN

Refugio (Tex.) Citizens Flee Threatened Doom

Outlaw Oil Well in Flames Fires Buildings

Destruction of Whole Field Possible Outcome

CORPUS CHRISTI (Tex.) July 27. (AP)—The town of Refugio near here is threatened by fire today by a burning gas well within two blocks of the business district.

Three homes have been destroyed and unless the fire is smothered down it is feared flames will break out in another section.

The gasser, known as Houston Oil Company No. 1, which had covered Refugio and surrounding country with a blanket of brown oil sand as it defied control, caught fire last night. The blaze is visible here, a distance of fifty-two miles.

Residents in the immediate vicinity had moved from their homes several days ago, anticipating fire and to get away from the ever-widening crater.

The well has a pressure of 2200 pounds with the gas production estimated from 50,000,000 to 140,000,000 cubic feet daily.

Shortage of water in the town makes the fire hazard greater and many oil and gas wells in the immediate vicinity add to the danger.

BEES DIE FOM INTEMPERANCE

Mountain Moonshine Exacts Heavy Toll Among Honey Gatherers

ASHEVILLE (N. C.) July 27. (AP)—More than 3,000,000 honey bees have died of alcoholic poisoning in Buncombe county during recent weeks due to the presence of moonshine stills in the mountains, beekeepers here estimate.

SUNDAY RACERS DIE IN CRASHES

Robinson, Daytona Beach, Killed on Speedway

Boy Spectator Dead, Driver Dying at Kalamazoo

Indiana Dirt-Track Pilot Skids to Eternity

WOODBRIDGE (N. J.) July 27. (AP)—Bob Robinson, 32 years of age, A.A.U. race driver of Daytona Beach, Fla., was killed this afternoon when his car crashed through the upper guard rail of the Woodbridge board speedway.

Robinson was jockeying for second place with Richard Decker in the fifty-mile feature race when the front right tire of Decker's car blew out, throwing him to the top of the banked turn.

Robinson was caught between Decker and the rail and forced through, he dropped fifty feet and landed in a mass of wreckage, suffering a fractured skull and other broken bones. He was dead when removed from the car. The driver's wife and 3-year-old son were among the 6000 persons witnessing the races.

BOY SPECTATOR DEAD, RACE DRIVER DYING

KALAMAZOO (Mich.) July 27. (AP)—A 14-year-old boy was killed instantly and James Brown, race driver of Findlay, O., was injured seriously when a car Brown was driving in a 100-mile race left the track at Recreation Park this afternoon.

The dead boy is Wesley Reynolds. Brown received chest, head and back injuries and is not expected to recover.

RACING CAR PILOT KILLED IN SKID

INDIANAPOLIS, July 27. (AP)—Frank Jenkinson, 23 years of age, Lafayette (Ind.) race driver, was fatally injured this afternoon when his racing car skidded off the east turn of the Jungle Park track, eight miles north of Rockville. Jenkinson died while he was being taken to Rockville.

The fatal accident was one of three mishaps in the four-race program but the other two drivers were not seriously hurt.

JAIL INMATE SEEKS CHANGE

Captive Couldn't Trust Police, Now He'll Have to Cough Up Hospital Fees

LYNN (Mass.) July 27. (Exclusive)—Refusing to trust the police with his money after he had been arrested on a minor charge, Aloysis Ferrieri, machine repair man, decided to deposit a number of coins in his stomach, and today is on the danger list at Lynn Hospital.

While the jail keeper was attempting to coax Ferrieri to allow them to put his money in the headquarters strong box until he appeared in court tomorrow morning, Aloysis swallowed a 50-cent piece, a 25-cent piece and several nickels.

Two Roadhouse Bandits Killed

CHICAGO, July 27. (AP)—Two unidentified men were shot to death last night when they tried to hold up a roadhouse in Lansing, Ill., a suburb.

Tony Sodo, proprietor of the place, heard the two in his dining-room taking money and jewelry from the eight patrons who were there. He took a shotgun, went out the back door and around to the front, where he lay in ambush.

When the two bandits left the front door he opened fire, killing both instantly.

Three Killed in Plane Crash

MATAWAN (N. J.) July 27. (AP) Three persons were killed today as an aeroplane owned and piloted by Al Biddle of Red Bank, crashed a half-mile away from its airport.

Those killed, in addition to the pilot, were George Schrank of Freneau, and John Housman of Morganville.

The policemen have been arrested pending an investigation.

BRAZIL STIRRED BY PESSOA'S MURDER

RIO DE JANEIRO, July 27. (AP)—Brazilian political circles were deeply disturbed today over the assassination in the city of Recife last night of Joao Pessoa, president of the State of Parahyba and member of a prominent family of statesmen. Senor Pessoa, who was Liberal candidate for the Vice-Presidency of Brazil in the March elections, was shot by a political rival in a refreshment store.

DETROIT GANG RESORT RAIDED

Sixty Officers Arrest Five Slayer Suspects

Pistol Cache Found Under Floor Boards

Buckley-Murder Weapon Believed Included

DETROIT, July 27. (AP)—Sixty detectives and patrolmen besieged a gangsters' hideout in the exclusive Grosse Pointe suburb this morning and finally gained entrance and arrested five men believed to have been involved in a dozen recent gang slayings here.

Detroit detectives, Michigan State policemen and Grosse Pointe policemen and firemen took part in the raid after a man leaned from the window and shouted he would "bump off the first coppea that sets foot on the doorstep."

WEAPONS FOUND

Among the weapons found in the place, police believe they may have those used in the slaying of Gerald E. (Jerry) Buckley, political commentator for radio station WMBC, shot to death last Wednesday. Bullets from a German Luger revolver and an unidentified .38-caliber weapon were found in the place raided today.

Those arrested are Joseph Catlonetti, Dageo Bonvante, Elmer Macklin, Joe Locano, and Joseph Amico. All have police records. They are held on technical armed robbery charges.

CACHE UNDER FLOOR

After officers searched the house and found no weapons they called the Grosse Pointe fire department. Floor boards were torn up in the attic and five revolvers were found underneath. Police are continuing the search of the house, hoping to find the missing barrel of the German Luger revolver.

Joe Catlonetti is a nephew of Sam (Singing-in-the-Night-time) Catlonetti, late leader of a group of hoodlums. Sam died of pneumonia last January. It was his home which was raided today. Police believe the recent series of gang slaying resulted from Joe Catlonetti's attempt to assume his uncle's position of leadership. A dozen gangsters have been slain during the past month here.

Flyers Near End of First Week

ST. LOUIS, July 27. (AP)—Nearing the end of their first week of sustained flight in an effort to regain the refueling endurance record, Forest O'Brine and Dale Jackson kept their monoplane Greater St. Louis whirling over Lambert Field today. At 2:11 p.m. (C.S.T.) They had been up 151 hours.

GREAT LAKES VESSEL REPORTED AGROUND

SAULT STE. MARIE (Mich.) July 27. (AP)—The freighter H. P. McIntosh of the Wilson Transit Company, Cleveland, was reported aground in fog tonight at Lime Island, about forty miles below here. A tug and a lighter put out from here to assist the boats.

GM GENERAL MOTORS RADIO

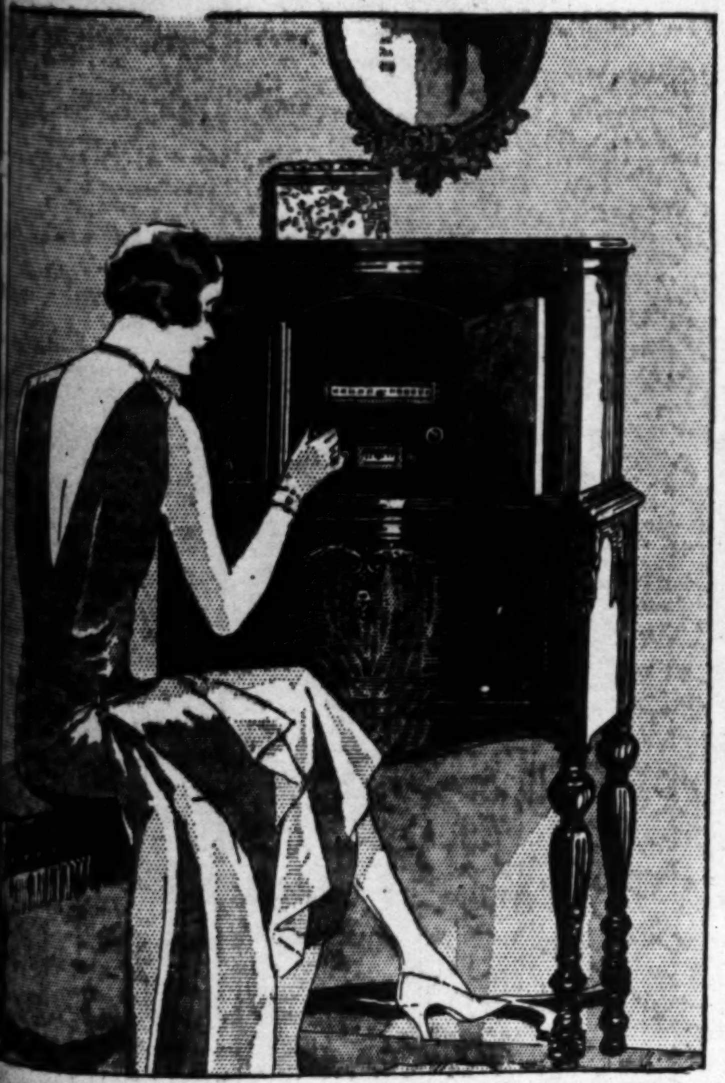
The New

GENERAL MOTORS RADIO

with Tone Selector

There is a significant new name in radio—General Motors! Everything that *Product of General Motors* stands for—advanced design, proved performance, exceptional value—is exemplified in the new radios announced by the General Motors Radio Corporation. And, in addition, the entry of General Motors into the radio field is marked by a remarkable new contribution which gives you actual *mastery of tone*—the Tone Selector!

The Tone Selector, an exclusive feature of the new General Motors Radio, brings you radio reception *as you choose to hear it!* If you enjoy the deep, mellow basses of an orchestra, move the Tone Selector toward "Bass" on the tone-indicator and instantly you hear the tubas, drums and bass viols come out of the background into sharper relief. If you prefer the high-pitched instruments, move the Tone Selector toward "Treble" and the high, sweet voices of the violins stand out, clear and true.



Radio has never before been so thoroughly enjoyable! Now, the exact tone that pleases you most can be found for *every* type of broadcast program.

Come in today for a demonstration of this remarkable new development in radio. You will find the Tone Selector but one feature of outstanding all-round radio performance. The tone quality of the new General Motors Radio is extraordinarily life-like, remarkably faithful, in the reproduction of both instrument and voice over the entire scale of expression. Clear, sharply defined separation of stations and far-reaching range bring you the entertainment you want as you like to hear it. The electro-dynamic speaker, of the most modern design, is very carefully matched with the chassis to assure unblurred, unblemished volume, from a soft whisper to magnitude that will fill an auditorium.

You will be as much impressed by the handsome appearance of the new General Motors Radios as you are by their exceptional performance. The cabinets are made of carefully selected and matched woods, beautifully finished. All five models conform to the traditional lines of fine period furniture. The Hepplewhite Lowboy, with its simple charm—the graceful Sheraton—the rich Italian—the handsome Queen Anne radio-phonograph—and the impressive Georgian radio-phonograph—all will delight you when you see them.

Every model has a totally shielded, eight tube, screen grid chassis, precision-built throughout. Radio models, $136 to $172—radio-phonograph models, $198 and $270—without tubes. Any model may be purchased on the liberal General Motors Acceptance Corporation plan of convenient payment—through which millions of people have bought General Motors products.

By all means see and hear the new General Motors Radio. Let us demonstrate the most important new development in radio reception—the Tone Selector. Come in today.

LEHMAN CONQUERS EVANS TO WIN WESTERN AMATEUR MEDAL

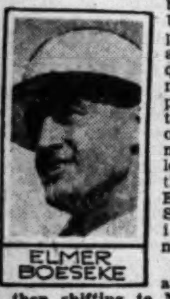
CHICAGO, July 27. (AP)—Johnny Lehman, the new western amateur golf champion, today finished gathering up the spoils of the title tournament by defeating Charles (Chick) Evans, Jr., in the eighteen-hole play-off for medal honors. The young Olympia Fields golfer today made his last trip over the Beverly Country Club course in 38-40—78, while Evans required 41-40—81. They had tied for the medal score in the qualifying round, Lehman taking 74-73—147, and Evans 75-72—147. Neither played his best game today, with Evans getting away to a good start, only to fade out. They halved the first two holes in par, and Evans gained a stroke on the third. He increased his advantage a stroke on the fourth, but Lehman got one back on the fifth.

PEDLEY PLAYS POTENT POLO

Eric Steals Show in Test Matches

BY ORLO ROBERTSON
Associated Press Sports Writer

PORT WASHINGTON (N. Y.) July 27. (AP)—Eric Pedley, hard-riding, sharp-shooting Californian, made a strong bid for the United States polo team today as he led a crack quartet of the nation's best players to victory in the third of the test matches to select the team that will oppose England in the September international matches.



ELMER BOESEKE

Riding first at No. 2 and then shifting to No. 1 on the team captained by Tommy Hitchcock, Jr., Pedley scored eleven goals and set up five others as the "Whites" overwhelmed the "Reds," 21 to 11 at the Sands Point Club. The "Reds" actually made only three goals, being spotted eight by the Hitchcock four.

It was the third straight victory for the "Whites," captained by Hitchcock.

The team of Hitchcock, Pedley, E. J. Boeseke, Jr., and Winston Guest, broke through to score almost at will. Pete Bostwick and E. W. Hopping did not appear to be riding up to standard, but if they had it is doubtful if their team, which also included J. W. Webb and R. E. Strawbridge, Jr., could have stopped the hard-riding Hitchcock team.

Pedley started at No. 2, scoring nine goals. At the start of the sixth period Hitchcock shifted him to No. 1, evidently believing he at last found a man to fit into that important position. The West Coast star added two more goals to his total.

Pedley appeared unaccustomed to playing the new position, however, frequently finding himself vieing with his fellow-Californian, Boeseke, for No. 2 position.

But the shift failed to dim his brilliancy. He scored from every angle, outrode his opponent, first J. W. Webb and then Pete Bostwick, and handled his mallet with a style that bespoke bad news for the English invasion.

Hitchcock scored four goals while Boeseke added the same number and

Hopping and Webb, who are not candidates for the team, scored the three goals for the "Reds."

NES MASTERS HUNTER

Youth Downs Veteran Internationalist to

July 27. (AP)—Ellsworth Vines, Pasadena youngster, cli of brilliant play in the metropolitan turf court tennis today with a title-winning five-set victory over the vet Francis T. Hunter, No. 2 in the national ranking, 6-4, 6-1.

start the shock from the West Coast New Rochelle (N. Y.) veteran in all departments of the game, brought the match to deuce sets and then ran out the last and deciding set in easy fashion.

Somewhat overawed by his opponent's reputation, Vines began somewhat uncertainly. Hunter's heavy cannonading caused the ball frequently in set. The second set but Hunter still dominated the play.

Two sets down and with defeat apparently just ahead of him, Vines elected to gamble. Hunter's terrific forehanders had been winning point after point for him. Vines, in desperation, finally came to the net to volley Hunter's withering shots across the net. From then on, the tide turned. He raced through the third and fourth sets with Hunter vainly seeking to halt the 18-year-old youngster's attack.

In the fifth set, Hunter never had a chance. Vines took the last five games in a row, twice breaking Hunter's service by sensational passes and a varied assortment of shots that kept the Davis Cup veteran guessing.

After his triumph in the singles, Vines paired with Keith Gledhill to win the doubles title from two more Californians, Jack Tidball and Jerry Bartosh, 6-4, 6-2, 6-3.

Stars Bump Indians in Night Game to Tune of 10-0

Gordon Rhodes Allows Foe Four Scattered Hits

Tribe Cops Afternoon Tilt by Score of 9 to 8

SEATTLE, July 27. (AP)—Hollywood squared a 9 to 8 defeat this afternoon by trouncing the Indians in a night game here before a fair sized crowd, 10 to 0.

Gordon Rhodes, a visiting pitcher, held the Seattle club to four scattered hits and fanned nine under the electric lights.

GORDON RHODES.

Hollywood pounded Zahniser out of the box in two innings in the afternoon. Andy House, though wild, managed to finish for the Indians while his mates were pounding three Hollywood twirlers to win after trailing, 7 to 0, midway in the fourth inning.

The Stars won five of the seven games of the series.

SETH'S HOPE ANNEXES HANDICAP

Jockey West Pilots Parson Entry to Win in Spa Hermosa Feature at Agua Caliente After Sizzling Battle on Turf With Ironsides, Sunspero and Edisto

AGUA CALIENTE, July 27.—Thoroughbreds from the stables of James A. Parson carted off the major honors here today, when Seth's Hope, with Jockey Bobby West in the boot, captured the Spa Hermosa handicap, and Lady Seth made it a double for the afternoon by winning the Caliente claiming stakes, feature-money event on the card, with the same rider aboard. The Spa Hermosa resulted in a sizzling battle between the winner, Seth's Hope, C. B. Irwin's Ironsides, the La Brea stable's Sunspero and Edisto, from the Bill Bee stable. A blanket finish saw the Parson runner home first by a neck with Ironsides in second position and Sunspero inches behind in third place. Edisto was a half a length behind for fourth.

Shut off temporarily during the first six furlongs, Lady Seth came up with a rush to outrun George O'Connell's Paragraph and Mrs. Frances Walter's Irfaneh in the stretch and swept under the wire to take the claiming event by length and a half. Jockey West whipped his third winner of the day in the final race of the program, guiding C. A. Weston's Consent home for

PROS QUALIFY TODAY FOR NATIONAL CHAMPIONSHIP

Sectional qualifying rounds for the National P.G.A. championship will be held over thirty-six holes at the Potrero Country Club today.

Southern California has been awarded four places in the national event, which will be held this year over the Fresh Meadows Country Club, Flushing, Long Island, September 8 to 13.

The National P.G.A. was held at Hillcrest last year, Leo Diegel of Agua Caliente winning the championship for the second consecutive year. Fred Morrison of Midwick, Southern California open champion, won the medal.

Local professionals are not expected to fill the allotment, however, as the Southland's "big four," Fred Morrison, Willie Hunter, Olin Dutra, and Mortie Dutra will not be candidates. They received their fill of national tournament competition earlier in the month at Interlachen.

An entry of approximately twenty golfers is anticipated by "Pat" Patterson, who will be in charge at the first tee. Chet Beer of Bakersfield looms as the favorite to top the qualifiers, and he will likely go east this year. Among the entrants are Willie Low of Lakeside, Vic Owen of Royal Palms, Harry Pressler of San Gabriel, Vic Dalberto of Los Angeles, Arthur Clarkson of Rancho, and Tom Stevens of California.

The entry fee of $5 may be paid at the first tee.

BOWEN WINS SPRINTS ABROAD

HELSINGFORS (Finland) July 27. (AP)—Reginald (Pete) Bowen, sprint star from the University of Pittsburgh, won the 100-meters and 400-meters events at an international athletic meet here today. Bowen won the 100 meters in 10 7-10s. with Corts of Germany, second and Jarvinen of Finland third. The Pitt star outran Jarvinen and Wilen in the 400 meters which he won in 48 1-10s.

Tommy Warne of Northwestern won the pole vault, clearing 13ft. 9 6-16in. Reinikka was second with 12ft. 1 3-4in., and Nikander third at 11ft. 6in. The meet will be continued tomorrow.

Old Oaks Are Surprise in Polo Battle

RUMSON (N. J.) July 27. (AP)—A surprise polo victory in the semifinal round of the Herbert Memorial Trophy tournament was posted today by the youthful Old Oaks team, captained by Arthur Borden of the Rumson Country Club, over the Greentree (Long Island) four. The score was 8-5, after an abbreviated game of six periods.

Old Oaks profited by a three-goal handicap over Jock Whitney's team. Raymond Guest, with two goals, led the victors in scoring with Stewart B. Iglehart and A. Charles Schartz tallied four of the five Greentree goals. The Old Oaks' victory placed the team in the finals where, on Tuesday it will be opposed by the newly crowned national junior champions, United States Army.

YACHTSMEN END STAY IN CATALINA WATERS

CATALINA ISTHMUS, July 27.—With the weighing of anchors late this afternoon came to a close what will go down in yachting history as the greatest Corinthian party ever held in Southern California waters. One hundred and six yachts participated in the cruise, which was under the auspices of the California, Los Angeles and Catalina Island yacht clubs.

In the first event, the sailboat race from Los Angeles Harbor to Ship Rock, eleven boats were entered. The event was won by the Jubilo, piloted by Jim Dickson, wife and young son, Bobby. The Wiletie of Bill Watson finished second and the Sinbad of Douglas Radford, third.

The scramble in the treasure hunt took up much of the afternoon and was won by Miss Margaret Young of the Eloise and Bart Siegfried of the Migrator.

An even 300 yachtsmen, their families and guests sat down to the commodores' dinner. Their ovation to Commodore and Mrs. Norman A. Pabst, chairman of the entertainment committee, attested the social

Los Angeles Golfer Puts Up Courageous Battle

Rex Bailes Wins Consolation Round Prize

Coleman, Mrs. Pressler Cop Mixed Foursomes

BY EDWARD LAWRENCE

Stroking the green, hilly fairways of his home club with a confidence born of intimate acquaintance, Al Gruber yesterday won the Palos Verdes invitation tournament with a rousing 3-and-1 victory over Harry (Bud) Eichelberger, Jr., of the Los Angeles Country club in the eighteen-hole finals.

"BUD" EICHELBERGER

Apparently coming through the grueling thirty-six-hole test of Saturday a shade fresher than his rugged opponent, wiry little Gruber flashed into an early lead and steadfastly refused to relinquish his advantage throughout the match.

The medals were not what might be expected of a championship contest, but the match play was tense and interesting with both golfers on the alert to take advantage of every break.

GRUBER IN LEAD

Eichelberger was 2 down before he hardly had time to catch his breath, losing the first hole to a par 4, and the second hole by the same score. The second hole has been toughest to par of any on the course during the tournament. It is a beautiful one shotter, more than 200 yards over a yawning chasm on the carry, and often more than that when the wind blows fresh from the Pacific into the face of the player. It has been one of Gruber's pet holes, as he defeated W. L. (Bill) Jelliffe of Girard, Los Angeles city champion, with a 4 on the twentieth hole yesterday.

The third hole, a tricky par 4, went to Bud when Gruber took a 6. Eichelberger slipped badly on the fourth and fifth holes, dropping both to pars to be 3 down.

They halved six and seven.

The French Romp

ELEVEN years ago Bill Tilden and Bill Johnston brought the Davis Cup back from Australia where it had departed in 1914.

Eleven years later Bill Tilden, now 37, is the only American tennis player strong enough to win one match in an attempted recovery from the French that collapsed with a crash. Which means that in eleven years the United States has been unable to develop any talent on a par with Cochet and Borotra.

HENRI COCHET

Good players may be common enough but champions only happen along in a decade. And for the last four years the French have had the champions. The United States invasion this time slumped away from last year.

The strength of French tennis is shown in the fact that France could still lose the services of a star such as Rene La Coste is, and still romp along to the tune of four matches out of five. The last United States chance cracked apart when Van Ryn and Allison were beaten in the doubles. That settled the show, for Lott had only an outside chance against either Cochet or Borotra—a chance so far outside that it wasn't even on the reservation.

The French are still supreme in tennis and Bill Tilden is still the second best tennis player in the world. But even two Bill Tildens would not have brought the cup home this year.

Another International

What might be called the somewhat cruder side of these international adjustments continues to intrude upon the cup and bowl affairs. One of these takes place in London tonight when another Georgian attempts to copy the Bobby Jones cleaning method. His name is Young Stribling and he intends to take a cut or two at Phil Scott, the tall British champion, who has had somewhat of a stormy time the last year.

Scott still claims that he is twice the world's heavyweight champion over Max Schmeling, on the theory that he was fouled first and fouled twice by the same man that handed the title to the German. If Stribling wins and carries along the same theory, he will then be three times world champion over Schmeling, which may involve some complications.

This, at least, makes the London

won it on service and broke through Borotra for the next at love. Borotra decided to come to the net in the third game and won it, only to lose the next two to the accurate placing and long line drives that the American sent sizzling down the sidelines. Two more games went with service. Then Borotra, again at the net, won the next three. The Basque, to the huge delight of the crowd, seemed to find his old form at this point. He sent unreachable volleys from the net while Lott, seemingly upset by this change in tactics, drove beyond the baseline or netted swift volleys. Lott found himself in the eleventh game, however, with a sure service and certain passing shots and ran out the set easily, 7-5.

The Chicagoan fought bravely for the second set but Borotra, after evening it at three-all, dominated the court to run out at 6-3. He was the old bounding Basque once more, deadly at the net and in on every service, even the soft ones. The crowd sensed that there were a lot of errors and probably much bad tennis, but the battle spirit was abroad and the stands sighed in unison over every netted stroke.

Lott was master again in the third set. He took the first three games, lost two when Borotra broke through his service and then ran out the set at 6-2. The breaks went against him in the fourth set, with games at two-all. A baby started to cry just as Borotra started to serve in the fifth game. It was a little thing and Borotra with his usual foolery, halted his stroke, bowed his head and waited until the child finished its crying spell. The stands tittered in hysterical laughter and Lott seemed thrown off form. He netted, overdrove and utterly failed to find his position. His gallant fight in the last game availed him nothing and Borotra won the set, 6-2.

In the final set, the games went with service until the sixth when Borotra broke through to bring the score to 4-2. Lott evened it up at four-all by taking the seventh and eighth games, but Borotra again had the advantage by winning the long and heart-breaking ninth game which went to deuce twice and finally fell to the Frenchman through a tremendous cross-volley from the very center of the net.

Lott won the tenth game on service and they were all square. The Basque took the eleventh at love and Lott again squared the match after another tremendous battle to

BLUE POLOISTS DEFEAT REDS IN MALLET CLASH

With Snowy Baker playing the star role, the fast-riding Santa Monica Blues galloped to a 9-to-3 victory over the Reds yesterday afternoon at the Uplifters' polo field. The veteran Australian athletic star rode high wide and handsome around the field in leading his team to an easy victory. Baker and Lionel Pedley went into a tailspin during the sixth chukker with the result that brother of the illustrious Eric hit the turf with a thud. Snowy did not go down. Pedley was not hurt by the fall and resumed the game immediately.

Baker scored four of the goals for his team and worked hard in staving off attacks on his own line. Young Will Rogers, Jr., playing his first game as a regular rated player under the United States Polo Association rules, made a nice job of his No. 1 position. The Rogers boy banged across two goals during the afternoon.

Clair Brunson and Lionel Pedley did quite a lot of hard playing for the losing four.

TRIPLE PLAY FEATURE OF REDS' WIN OVER CHICAGO

Giants Drop Twin Bill to Pirates; Tribe Trips Athletics; Solons Trim Sox; Yanks Are Beaten

BROOKLYN, July 27. (AP)—The league-leading Robins gained a game and a half on the Cubs and two full games over the Giants today by twice defeating the Phillies in a double-header. The scores were 10 to 6 and 9 to 6.

Jim Elliott, pitching the first game for the Robins, was knocked out of the box in the ninth but did not surrender his early lead. Sweetland was batted hard. Roy Hansen, recruit Phillie southpaw, held the Robins until the sixth inning of the second game, when Wright's homer with two on dealt the Quakers a finishing blow.

Nine home runs featured the afternoon. Klein's two in the first game brought his total for the year to 29. Wright, Lopez, and Southern also hit two home runs, while Thompson accounted for one. Scores:

CUBS CUFFED

CINCINNATI, July 27. (AP)—A triple play in the sixth, the second they have executed against Chicago this season, enabled the Reds to defeat the Cubs, 6 to 5, here today for their fifth straight triumph over the champions.

With the Reds leading, 2 to 1, the Cubs came to bat in the sixth, English leading off with a triple. He scored on Cuyler's single. Wilson then doubled to score Cuyler and went to third on a wild pitch. Dan Taylor walked and when Grimm hit to Ford, Wilson started for home and was trapped between third and home.

In the meantime Grimm had started for second and was run down between there and first. Taylor tried for third and was nipped on the way, thus ending the Cubs' threat to run up a substantial lead. The Reds came back to score four times in their half of the same frame. Score:

URUGUAY IN SOCCER FINALS

MONTEVIDEO (Uruguay) July 27. (AP)—Uruguay gained the final round of the world's soccer football championship tournament today by defeating Jugo-Slavia, 6-1. The Uruguayans will meet Argentina for the title later this week. Argentina eliminated the United States, 6-1, in the semi-finals yesterday.

GIANTS UPSET

NEW YORK, July 27. (AP)—The Giants dropped both ends of today's double bill to the Pirates by scores of 10 to 8 and 8 to 4, thus ending their home stand against the West with nine victories and eight defeats.

The Pirates early lead in the opening game was too much for the Giants to overcome, their six-run rally in the eighth falling two runs short of a tie. Scores:

TRIBE ON TOP

CLEVELAND, July 27. (AP)—The Cleveland Indians won the final game of the series from the league-leading Philadelphia Athletics here today, 7 to 4. The Athletics had won the first three.

A four-run rally in the fifth inning clinched the victory, which was the sixteenth of the season for Wes Ferrell, Indian pitcher. Only in the sixth could Philadelphia reach him for runs, making four on two hits, two walks and an error. Score:

NATS TRIUMPH

CHICAGO, July 27. (AP)—Fred Marberry permitted the White Sox only three hits today to pitch Washington to a 10-to-1 victory, its only triumph of the four-game series.

Dutch Henry, who started for Chicago, was hit hard, especially in the sixth, when the Senators scored seven times, and was hampered by poor support. Five misplays were charged to the Sox, all of them figuring in the scoring in some manner. Ed Walsh, Jr., finished in good shape for the losing club.

In spite of the intense heat about 17,000 attended the contest. Score:

YANKS LOSE

DETROIT, July 27. (AP)—New York closed its western road trip here today by taking a 7-to-3 beating from Detroit, thus making matters even on the series here and establishing a record of ten wins and nine losses for the trip.

Four Yankee hurlers were used but none could stop the Tigers who made thirteen hits while the best New York could collect off Sorrell was seven.

Detroit was forced to come from behind, for Sorrell wabbled for a brace of walks and three hits that yielded three runs in the fourth inning. With the aid of two snappy plays he held New York well in check thereafter. Score:

BROWNS ANNEX

ST. LOUIS, July 27. (AP)—The St. Louis Browns defeated the Boston Red Sox in both ends of a twin bill here today, 10 to 9, and 9 to 6. The games were featured by nine homers. Webb, Goslin and Kress hit for the circuit in the opener. In the nightcap, Goslin and Todt made two home runs each and Webb and Metzler one each.

An eight-run rally in the eighth inning gave the Browns the first game. The Red Sox tied the score in their half of the ninth of the **second game, but Metzler hit a** homer in the Browns' half with two men on. Scores:

CARDS COP TWO

BOSTON, July 27. (AP)—The Cardinals took a double-header from the Braves, 2 to 0, and 6 to 1, here today, evening the current series at three apiece.

Sylvester Johnson held Boston to three scattered singles in the first game, while St. Louis' two runs both were circuit clouts, hit by George Fisher and Chick Hafey. It was Hafey's fourth home run of the series. Fisher's triple with the bases full in the third inning of the second game was enough to win. Scores:

ERNIE SCHAAF, RISKO TOP BOXING PROGRAM

NEW YORK, July 27. (AP)—Ernie Schaaf's encounter with Johnny Risko at Philadelphia tomorrow night marks the high spots of a dull week among the professional fisticuffers.

JOHNNY RISKO

Schaaf, another Boston contribution to the heavyweight lists, has been coming along fast in the last year, but whether he is capable of beating the rough and ready baker's boy from Cleveland is open to serious question. Risko gets no younger as weeks go by, but he still is one of the toughest of all the heavyweights to beat. The bout is at ten rounds.

The chief supporting attraction will be a ten-rounder between Babe Hunt, Ponca City (Okla.) heavyweight, and Ted Sandwina of Sioux City, Iowa, whose biggest victory was a one-round knockout of Knute Hansen, the melancholy Dane.

The only bout of much interest in the metropolitan sector brings together Tuffy Griffiths, Sioux City (Iowa) slugger, and Tom Heeney, the New Zealand blacksmith, who has never, it seems, got over the lacing he took from Gene Tunney in the heavyweight champion's farewell to the ring. Griffiths and Heeney top the weekly card at the Queensboro Stadium Tuesday night.

At Cleveland on Tuesday, Primo Carnera battles George Cook of Australia, ten rounds or less, probably the latter.

Other bouts on the national schedule include:

Monday—At New York, Dexter Park: Frankie Genaro, New York, vs. Davey Adelman, Philadelphia, flyweights, ten rounds. At Toledo: Ollie Bartlett, Detroit, vs. Louis Carpentero, Toledo, bantamweights, ten rounds, and Richey Mack, Detroit, vs. Johnny Conley, Toledo, lightweights, six rounds.

Tuesday—At Los Angeles: Speedy Dado, Los Angeles, vs. Midget Wolgast, flyweights, ten rounds. At Denver: Phil McGraw, Detroit, vs. Mickey Cohen, Denver, lightweights, ten rounds.

Thursday—At Cincinnati: Henry Falagano, Des Moines, vs. Freddie Miller, Cincinnati, lightweights, ten rounds.

Friday—At San Francisco: George Courtney, Tulsa, vs. Young Firpo, Burke, Idaho, light-heavyweights, ten rounds. At Hollywood: Armand Emanuel, San Francisco, vs. Al Morro, Burbank, heavyweights, ten rounds.

Dr. Claunch High Gunner

Dr. Claunch of Monterey was the high gunner at the Los Angeles Gun Club together with M. C. French. J. B. Wilson of Santa Maria, J. F. Goodrich and J. B. Norton accounted for 94 each.

THE SUPER TIRE OF THE U.S. ROYAL FAMILY
the ROYAL MASTER
WITH GLEAMING CREAM-WHITE SIDE WALLS

Here is a tire whose beauty is designed especially for the most exclusive motor cars.

Frankly, the white side wall tire is a type we recommend chiefly for the chauffeur-driven car, or the car that is cleaned regularly at your super-service station, where they understand the care of white side wall tires. The striking contrast of ivory and jet-black lends the last touch to the fine car...on which fine care is lavished.

Naturally the black side wall tire demands less care. For the owner-driver it is the more practical type. Remember, too, that all the white side wall tires are not of Royal Master quality. The color of the side wall does not necessarily designate the quality of the tire itself. Royal Masters are built to serve you with entire freedom from trouble *as long as you drive your car.*

Trojan Stars in Seabright Tennis Play

SEABRIGHT (N. J.) July 27.—Helen Marlowe and Mary Greef, freshman and junior students' respectively, at the University of Southern California, are here today to participate in the Seabright invitational tournament which opens tomorrow morning. Miss Marlowe arrived from Los Angeles yesterday with her sister Mercedes who will team up with her in the doubles. She is also an entrant in the mixed doubles with Ellsworth Vines of Pasadena. Miss Greef, who has been in the East since her arrival from England where she participated in the Wimbledon championships, played in the Essex Country Club invitational held last week at Manchester, Mass.

TILDEN, LOTT BOTH BEATEN

(Continued from Ninth Page)

deuce. It was too much for his experience and Borotra, sensing his rival's uneasiness, made a supreme effort and ran out set and match in two fiercely contested games. The last stroke was Lott's steaming liner which was out by an inch.

COCHET FIGURES TILDEN

It took Cochet ten games and cost him a set to figure Tilden's game, but from then on he was like a schoolmaster with a child. Tilden today attacked from the first like a tiger. He was the old master once more in the first set although at times coming events cast their shadow before in the way Cochet kept Big Bill running back and forth across the baseline to capture well-placed shots. Tilden won just nine of the twenty-eight games in the three sets that followed.

He drove and served at the top of his speed. He did not let down for the briefest of intervals in the heady play that has distinguished him in eleven years of Davis Cup competition, but Cochet, imperturbable and unannoyed, dominated the rallies. He made errors but only when errors didn't count, and when the winning stroke was needed it flashed from his backhand at the net or he returned a fast service to the safest place in the court. Big Bill got to one-love in the second set, but after that he never led. He fought to the last ditch but could not overcome the Cochet jinx that has followed him ever since 1928.

"I have nothing to say," was Tilden's comment after the match. "I was beaten, that's all."

success of the first get-together party that has been staged, including owners of every type and class of boat. Assurance was given that the commodores' cruise is to be an annual event at the Catalina isthmus, by the Corinthians named yachtsmen's paradise and this year for the first time opened to yachting.

Walter Armstrong of the yacht Edna provided the entertainment program for the commodores' ball, which proved a big success. Miss Mildred Wilson of the yacht Gypsy Girl won the woman's advertising contest.

Sailboat men proved better ball players than motor-boat men, winning the baseball game with a score of 7 to 6, evened up by the tug-of-war won by the motor-boat men. Young Tommy Davis, son of Dr. Arthur Davis of the Wanderlure won the outboard motor boat race.

The miniature golf tournament was entered by 200 contestants with the judges still counting the score cards.

The Gloria Dalton of Vic Dalton won the yacht championship for efficiency with the Migrator of David Baker a close second.

PLESTINA SIGNS FOR GEORGE GO

Jugo-Slav Wrestling Star Will Meet Youthful Mat Giant at Olympic

Marin Plestina, the powerful Jugo-Slav giant, was signed yesterday to meet Don George, newest sensation on the Pacific Coast, in one of the finish feature events of the all-star wrestling program planned for the Olympic August 6.

MARIN PLESTINA

George proved himself a first flight grappler here last week when he decisively defeated Joe Malcewicz, the fast and crafty Utican. The former national amateur mat king displayed more real wrestling ability in disposing of the backward-body-slam artist than he had in any of his previous bouts here.

Plestina was decided upon as a very logical opponent for George at this time to test the youngster's strength, speed and mat knowledge against a wrestler who has been defeated but by three grapplers in the last decade. They have been Malcewicz, Ed Lewis and Gus Sonnenberg, the mat king.

Others in line for matches on this card include Nick Lutze, who defeated Wycoff in a close match; Wycoff, whose rib injury was not as dangerous as first believed and responded quickly to treatment; "Wild Bill" Shaw, now a 225-pounder, and a full-fledged first-rater, according to reports received here from the East; Bob "Bibber" McCoy, former Holy Cross football star; Malcewicz, the mat panther; Pietro Bacini, 218-pound Italian who won the heavyweight title of his country in 1927, and has not been defeated since. Bacini won the Italian title during a tournament held in Milan.

DELANEY HURLS ANGEL VICTORY

Sacramento Gets Only Four Safeties in Opener

Eldred's Homer With Bases Full Settles Finale

Cherubs Capture Odd Clash of Series From Sacs

(Continued from Ninth Page)

seventh against the Sacs and Hoag touched him for a circuit clout to account for the seventh Sacramento run.

One of Buddy Ryan's youthful proteges from the Sacramento Valley, a young right-hander answering to the name of Hamilton, started on the mound for Sacramento in the nightcap. After yielding three runs in the first two rounds, Hamilton pitched shutout ball until lifted for a pinch-hitter in the sixth. Tony Freitas blanked the Cherubs in the last two rounds to preserve the Sacramento lead but Hamilton was credited with the victory.

The opener was a well-played contest with the hitting of Fred Haney being the outstanding feature aside from Delaney's mound work. Haney banged out three doubles and a single in four times at bat. The Seraphs fielded sensationally behind Delaney, Dittmar, Jacobs, Sigafoos and Haney all coming up with some spectacular plays.

The Angels jumped out in front with two runs off Flynn in the second, Haney leading off with one of his doubles. Moore's single to right brought Haney home and Johnny took second on the throw-in. Hannah flied out but Delaney hit to French, whose throw to Backer arrived too late to get Moore at third. Moore scored while Sigafoos was forcing Delaney at second.

The Angels got their other run in the fifth when Sigafoos walked with one away, took third on Statz's hit-and-run single to left and scored on Dittmar's sacrifice fly to Rohwer. Rohwer's throw made it a close play at the plate but Sigafoos slid in safely under Koehler.

SOLONS GET LONE RUN

Sacramento never threatened until the eighth when Delaney showed his only signs of weakening. With one down Koehler slashed a hot one down the third-base line that Haney made a remarkable stop of, but was unable to hang onto the ball. Brown ran for Koehler and rambled to third when Flynn doubled against the bleacher screen. French sent a sacrifice fly to Statz and Brown scored, but Flynn left second base too soon and was ruled out when Haney took Statz's throw-in and tagged the Solon pitcher.

The Angels got two hits off Flynn in both the seventh and eighth innings, but were unable to cash them into runs.

Sacramento nicked Horne for a run in the first inning of the nightcap, a walk to French, Ward's sacrifice and Backer's double doing the damage, out the Angels came right back with one in their half. Sigafoos's double, Dittmar's bunt and Schulmerich's infield hit produced the tally.

Statz's single and Sigafoos's home run over the left-field wall gave the Cherubs two more runs in the second, but that ended their scoring activities for the afternoon.

ELDRED ENDS IT

Horne and Hamilton mowed down the boys until the sixth, when the Solons put on the fireworks that burned up the Angels' hopes. Hoag led off with a single to center and took third when Rohwer doubled down the right-field line. Horne fanned McLaughlin and Wirts was thrown out by Sigafoos, Hoag scoring and Rohwer taking third on the latter's out. At this juncture, though, the Angel right-hander lost control and walked both Steinbacker, who batted for Hamilton, and French to fill the bases. Lelivelt sent in Baecht to stop the rally and Ryan countered by sending Eldred up to bat for Ward. Eldred cracked the first pitch to right field, the ball landing on the foul-line board and bouncing over the screen for a homer. Eldred scored behind Rohwer, Steinbacker and French to put the Sacs in front, 6 to 3.

Hoag got his homer in the seventh to account for the final run. Scores:

Oaks Wallop Seals Twice

SAN FRANCISCO, July 27. (AP)—Oakland came from behind to cop two games and the series today, defeating the San Francisco Seals, 9 to 7, in the first game and hitting freely to take the nightcap, 7 to 2.

Edwards, Oaks pitcher, was credited with the victory in the morning encounter. Vergez, Oak third-baseman, and Sheely, ahead of the first sacker, got homers.

In the afternoon Oakland took a second-inning lead with one tally, added another in the fifth, a third in the seventh and an inspired rally in the eighth yielded four more. The Seals got their two men over in the eighth. Scores:

er seats, caused it to turn over and fall onto the spectators below. Other seats were overturned in the rush for the exits and a panic followed in the section.

Several persons were hurt in jumping over railings into the playing field and many were trampled on in the crowded exits.

The injured were taken to hospitals, where all but three were released after treatment. The remaining three patients were suffering from broken legs and ribs.

Police and ushers quieted the crowd, estimated at 18,000, in twenty minutes and the program was continued.

SHEELY SETS PACE IN COAST LEAGUE

SAN FRANCISCO, July 27. (AP)—Earl Sheely, slugging Seal first-baseman, though he trails Hank Severeid of Hollywood by three decimals, continued to set the pace for Coast League swatters. Sheely, at bat 429 times, figures an average of .408 against .411 for Severeid, who has marched to the plate only 209 times.

GRUBER TRIMS EICHELBERGER

Annexes Palos Verdes Event by 3-and-1 Score

(Continued from Ninth Page)

Eichelberger won the short eighth when Gruber missed the green, and then won nine to shave Al's lead down to a single hole.

USES STRATEGY

Gruber's strategy on the 305-yard tenth hole made him 2 up. Eichelberger hit a terrific drive and laid his pitch shot ten feet from the flag. Gruber decided on an iron, playing his shot to the right, which gave him an advantage in being able to pitch the full length of the green. He laid the shot dead and dropped the putt for a winning birdie 3.

The young Palos Verdes golfer gained an almost unbeatable edge when he went 3 up at the twelfth hole, winning with a 4. Harry birdied thirteen, but they halved the next three holes, and Gruber was dormie 2. The match ended on seventeen when Gruber took the hole with a 4.

The cards:

Par (out)	434	354	534—35
Gruber	446	354	545—40
Eichelberger	554	464	534—40
Par (in)	444	443	544—36—71
Gruber	354	543	44X
Eichelberger	455	343	45X

It is interesting to note that par of 71 successfully rebuffed all attempt to shatter it. Eichelberger won the medal with a 72, and Jack Gaines of Girard and Phil Ayres of Los Angeles were credited with scores of 71 in their first-round match. Scores on the whole, however, were far from perfect figures.

LAWYER TELLS WHY

Don Lawyer, one of Palos Verdes' most popular golfers, had something pertinent to say about scoring at Palos Verdes the other day. "Everytime I go out to play a round," said Don, "I feel that I am going out and burn up the course, but somehow I never do."

That tells the story in a nutshell. Palos Verdes looks easy, but Billy Bell built one of Southern California's most deceptive tests of golf when he laid out the seaside links. The course isn't long, and it is pleasant to play with something new at every turn, yet par is as elusive as a will o' the wisp.

Palos Verdes' invitational, the most successful event ever held by that club, with an entry of 221 players, was brought to a close with a series of interesting foursome events.

Fay Coleman of California, Southern California amateur champion, played with Mrs. Leona Pressler of San Gabriel, holder of every major California championship, to top twenty-four teams in the mixed foursome tournament with a gross score of 75. Phil Carter and Mrs. W. S. Barnette tied with J. T. Evans and Mrs. J. T. Hartson for low net with 71's.

BAILES WINNER

Low gross in the two-ball foursomes was won by Tom Taggert and T. W. Pemberton with a 72. C. J. Clarke and G. L. Messall captured low net, scoring 74-8—66.

The consolation round resulted in a win for Rex Bailes, young Virginia Country Club junior. Bailes was awarded the low gross trophy with an 81. Low net went to Ed Scheumann of Palos Verdes, 79-9—70. Bailes played off a tie with Guy Hanson of California.

Rancho Golf Club officials deserve a cheer for postponing their mixed foursomes tournament scheduled for yesterday in defference to the Palos Verdes event. Rancho will hold its tournament next week.

In meting out the praise to those responsible for the succees of the Palos Verdes tournament, Douglas Palmer, chairman of the tournament committee, somehow missed out. Like most people who labor the hardest, Palmer kept himself well in the background, but most of the credit for the smooth running of the tournament belongs to him.

Following are the results of yesterday's final matches:

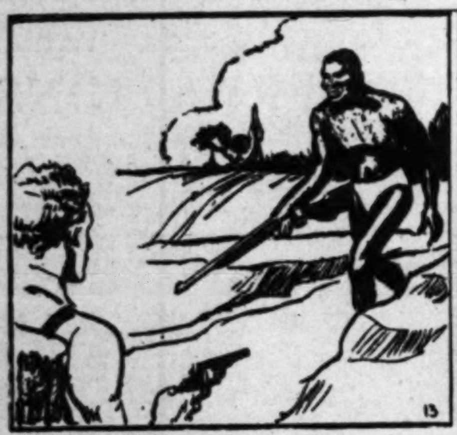
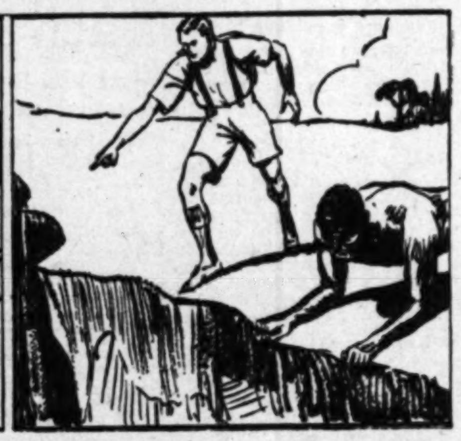
A CHUCKLE FOR EVERYBODY

TARZAN AND THE LOST EMPIRE

By Edgar Rice Burroughs



As von Harben turned to face the thing that he had heard approaching, he saw a negro armed with a rifle coming toward him. "Gabula!" exclaimed the white man. "What are you doing here?" "I could not leave you to die alone at the hands of the spirits who dwell in these mountains," said Gabula. "You may return," said von Harben. "I am going down into that canyon."



Von Harben pointed over the dizzy height. Gabula looked down, surprise and wonder reflected in his wide eyes and parted lips. "But, Bwana, you will be killed," cried the black. Von Harben shrugged his shoulders. "Good-by, Gabula," he said, and extended his hand. "You are a brave man." Gabula did not take the offered hand. "I am going with you," he said.

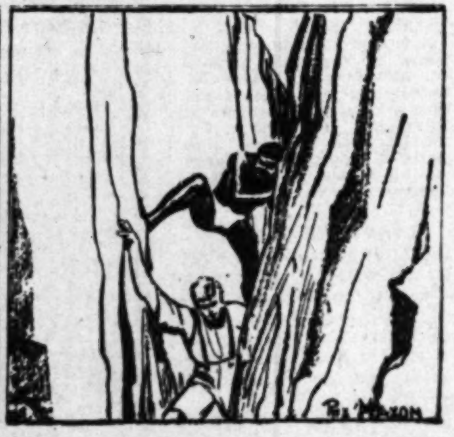
This display of loyal courage filled von Harben's heart with warm admiration for the black's heroism, but he said, simply, "Thank you. I know I will need help before I reach the bottom of the canyon. But we must reach it, Gabula, or die of starvation." "I have brought food," said the black. He unrolled the concentrated food that von Harben carried for emergencies.



The sharp edge of hunger removed, von Harben experienced a feeling of renewed optimism as he commenced his descent into the canyon. Gabula followed him into the fissure of rock, with no outward sign of the terror he felt. When they reached the bottom of the cleft, they found themselves at its outer opening flush with the face of the cliff. There was no way to go ahead—or to turn back.

LARGE MEDICAL LIBRARY URGED

Provision for it at County Hospital Cited

Dr. Zapffe's Report Highly Lauds Institution

Care of Patients Declared to be Excellent

Concentration of medical books and works in Los Angeles county into one library, to be housed in the new General Hospital, is the recommendation of Dr. Fred C. Zapffe, secretary of American Medical College at Chicago, who has just completed a survey of the county institution here at the request of the Bureau of Efficiency. The recommendation is the only important one made by Dr. Zapffe, who has visited some 3000 odd hospitals in the United States. Everything else at the General Hospital is as it should be, the doctor says in his report.

"There is not now in Los Angeles county, or city, a good medical library. The new hospital has provision for as fine a medical library as can be established," Dr. Zapffe says.

OTHERS INADEQUATE

"Why not combine all of the existing libraries in one good library to be housed in the new hospital? The Barlow library is not adequate. It is receiving inadequate support. It is not better located than if it were in the hospital.

"The county society library is in exactly the same position. The library of each of the two medical schools is far from being adequate. Would not a combination of all four with the hospital library, in charge of a wide-awake educational director, be productive of immeasurably greater service than is now the case?

"The librarian now in charge of the hospital library is deserving of high praise for the splendid work she has been doing with so little to do with. The library is inadequate. Too much stress has been placed on textbooks and not enough on journals and service. Internes and others will read textbooks until they are shown how much better it is to read current literature. In fact, their training as clinical clerks in the medical schools has been with journals, not with textbooks. They just naturally fall into the line of least resistance and revert to textbooks, if they read at all."

OPERATION PRAISED

Aside from the library Dr. Zapffe declares in his report:

"I found everything at it should be. In all departments of the hospital there is evidence of excellent organization and good management. Patients are cared for as well, if not better, than they would be as private patients. The medical personnel is well trained, highly competent, operating efficiently and with the speed consistent with safety.

"Every known aid used anywhere in the care of the sick is in use and by trained technicians. Everyone taking part in the care of the sick is well trained, acts expeditiously and with great kindness. Everywhere there is evidence of the existence of a supervising genius to which every worker, professional and nonprofessional, high and low, great and small, is responsible. So far as possible, all actions are timed to insure prompt care of the patients, a factor which does not operate in the private practice of the physician or surgeon. It is done here no doubt to forestall any charge that patients are not cared for adequately and to prevent slackness on the part of the professional personnel because naturally so large a machine would otherwise have some lagging parts. But, there are none here.

NEVER LEFT TO WORRY

"From the time of admission to the hospital every patient receives immediate care, passing from the admitting clerk to the registrar, to the intern, the resident and the attending physician as quickly as is consistent with good care. Always there is some one to take care of him no matter where he may be. He is never left to his own resources or waiting and wondering when it will be his turn to receive the attention he has come to get."

Dr. Zapffe then takes up every department at the big institution, praising the efficiency of each. Particular emphasis is laid upon the drug room, which, he asserts, is an extraordinary hospital pharmacy inasmuch as it contains every drug and medicine needed.

"I asked for several of the newer drugs and at once the bottles were handled to me," the investigator declares.

As to the personnel at the General Hospital, Dr. Zapffe asserts:

"The attending staff of the Los Angeles County General Hospital is well chosen from among the best prepared professional men in the county and city of Los Angeles, men who are willing to give of their time and skill without monetary compensation. The opportunity given them to study and observe large numbers of cases under the best possible circumstances is regarded as adequate compensation for the time and effort given in their service."

Cable to Barge Called Menace

Complaints that a 700-foot cable used in connection with a raft ferry to land passengers alongside the fishing barge Gratia, anchored off Redondo Beach, is a menace to navigation are set forth in a copy of a letter which has been received by the County Board of Supervisors.

The letter, a copy of one sent to the chief of engineers of the War Department at Washington and to Maj. W. E. Lanagan of the Army Corps of Engineers at San Francisco, was written by Lewis E. Whitehead, attorney representing Robert W. Benson, head of the H-10 Water Taxi Company of Redondo.

According to Benson, on June 22, last, one of the boats of his company was endeavoring to make a landing at Redondo Beach when the cable in question fouled the propeller and rudder of the craft, doing damage to the water taxi and endangering the lives of passengers. He asks that something be done to remedy the danger caused by the submerged cable.

DRAMA TO BE GIVEN AT BOWL

Association Formed to Erect Theater and Cultural Center on Hollywood Property and Bring Great Dramatic Art Within Reach of Everyone

Ambitious plans to enlarge the scope of the Hollywood Bowl movement to embrace the fostering of first-rate dramatic production and the development of its allied arts on a scale consonant with the growing importance of Los Angeles as a cultural center were disclosed yesterday with the announcement of the incorporation of the Bowl Theater Association.

It is the plan of the association to erect on the Hollywood Bowl property a building which will not only house a theater but also provide the necessary facilities for the various other cultural activities. Tentative plans also look to the inclusion in the structure of a restaurant and other features of a social nature designed to make a visit to the new art center a thoroughly enjoyable experience.

The sponsors of the theater and art center are in the main the persons who have co-operated in making the Hollywood Bowl movement a success. Among the most active of them are E. N. Martin and Allen C. Balch, and they also include C. E. Toberman, Rev. William Martin, Mrs. Burdette H. Chapman, M. F. Palmer, Dr. Percival Gerson, Lawrence G. McNeil, Samuel Kress, John S. Ward, A. L. Lathrop, Melville Dozier, Jr., E. C. Mitchell and Mrs. Gretchen Hensel Copper.

Popular support will be sought in the same manner as was done in promoting the Hollywood Bowl. Three types of membership in the new association will be sold—active, contributing and sustaining.

The operating company of the new enterprise is to be the Civic Repertory Theater and the present policies of that organization will be carried on in its new home. In this connection the sponsors wish to emphasize the fact that the dramatic productions are to be entirely professional and the enterprise is not to be confused with the work of more familiar theater movements where the development of amateur talent is a main objective. The main objective in this case is the bringing of great drama within the reach of all.

The subscription campaign and financial control of the repertory group will be assumed by the Bowl Theater Association. Offices of the association have been opened in the Imperial Building, 810 West Sixth street.

BOY ORATOR ADDRESSES CHURCHMEN

George Munro, Winner of Presbyterian Prize, Gives Oration at Synod Meeting

George F. Munro, Jr., 15-year-old Santa Ana school-boy who won first prize at the General Assembly of the Presbyterian Church at Cincinnati recently with his oration, "The Citizen's Obligation to the Eighteenth Amendment," repeated his address last night at the meeting of the California and Arizona synods at the Immanuel Presbyterian Church, Wilshire Boulevard.

Munro won in the Pacific Coast preliminaries and was sent to Ohio as a representative of this section.

That the Eighteenth Amendment was not adopted in haste was a point of his talk. He declared that for more than fifty years this amendment had been fought for openly.

"Since the amendment is a law it is the duty of every patriotic American to obey it," he said.

The sermon last night at the joint synodical meeting was given by Dr. J. R. Sizoo, pastor of the New York Avenue Presbyterian Church, Washington, who chose for his subject, "Forces Behind Life." An elaborate musical program by the choir of Immanuel Church under the direction of Franz Hoffman preceded the speaking program.

LAST RITES FOR DR. HULL TOMORROW

Episcopal Minister and Noted Artist Succumbs; Leaves Daughter Here

Funeral services will be conducted tomorrow at 10 a.m. in St. Thomas's Episcopal Church, Hollywood, for Rev. Joseph Arthur Hull, 80 years of age.

Dr. Hull was born in England and at 28 years of age was ordained a minister of the Church of England. Most of his church service was performed abroad in various European countries. His first foreign appointment was as chaplain to Brussels. Other posts in Holland, France, Spain, Italy, Switzerland and Germany followed. During the World War he was driven from Belgium by the German occupation of that country.

Internationally famous as a scholar, Dr. Hull was also a watercolor artist of note. Exhibitions of his sketches have been held in London and in several European cities as well as in Hollywood and Laguna Beach.

He served as chaplain at the Old People's Home at Alhambra for several years following his arrival in this country, later making his home with his daughter, Mrs. Trafford H. Heape of 8673 Melrose avenue. In addition to his daughter, he leaves a sister in England.

Family Flees During Night as Home Burns

Occupants of a dwelling at 1053 North Figueroa street were forced to flee for their lives shortly after midnight yesterday when fire started by defective wiring, spread rapidly through the wooden structure and completely destroyed it. The loss is estimated at $5000.

The house was the home of F. G. Santee and family. Smoke, filling the rooms as the fire broke out along the roof line, aroused Santee, and while he had little time to save any belongings, he succeeded in getting all the members of his family safely to the street.

Wellborn Rites Will be Today

Funeral services for Charles Wellborn, formerly Superior Court judge, who died here Saturday, will be conducted at 10 a.m. today from the family residence, 2 Chester Place. Rev. Omar Bailey of St. John's Episcopal Church will be in charge. The pall bearers will be the business associates of the former jurist. Interment will be in Forest Lawn Memorial Park.

INSANITY TO BE DEFENSE OF KEATON

Two Additional Alienists Will be Chosen Today to Examine Flint Slayer

Two more alienists will examine Frank D. Keaton, slayer of Motley H. Flint, in defense plans for the trial now set for August 18, according to announcement of his attorney, Paul B. D'Orr.

The mental tests will be given Keaton in the psychopathic ward at the General Hospital, and will be in addition to those already given by alienists for the District Attorney and those selected by the court when it appeared that the public defender would direct the defense.

Keaton's defense will be based on insanity, according to D'Orr, and the two alienists will be selected today by the defense attorney and Mrs. Miriam Keaton, wife of the accused.

Identity of the writer of a so-called "threat" letter to Dep. Dist.-Atty. Burgess, who is preparing the prosecution of Keaton, in which he was warned to "keep his mouth shut or receive the same treatment as City Prosecutor Nix" still was being sought yesterday by investigators. The letter was first thought to be the work of a fanatic, but a complete investigation was requested by Burgess, who with Dep. Dist.-Atty. Russell will conduct the prosecution.

DEAD MAN BESIDE ROAD IN DESERT

Vacationist Finds Body on Little Used Trail East of Palmdale

Discovery of the body of an unidentified man, apparently about 50 years of age, lying in a little-used wagon road, five miles east of Palmdale last night started an investigation of possible murder by deputy sheriffs. The body was found by Silas Prewitt, Jr., 1128 Third street, Santa Monica, who said he had made the discovery while on an outing near Palmdale.

Prewitt, who is an employee of the Douglas Aircraft Corporation, said the body was fully clothed and the corpse was that of a man dead about two months. He said he did not disturb the body or seek any identification fearing that he might destroy marks, but said the man had gray hair. Prewitt added that the body was lying at the side of the road with automobile tracks near by, and suggested the possibility that it had been thrown from a motor car.

Deputy Sheriffs Vejar and Gompert left for Palmdale last night to investigate.

Strip at Point for Machine Gun Firing Favored

Use of the unimproved portion of Point Fermin park land stretching toward White's Point for machine-gun practice at targets in the sea, requested by Col. Waller of Fort MacArthur, has been approved by the Park Commission for the remainder of the year.

Use of the fort's reservation for the purpose made it necessary to shoot over the highway to White's Point and Col. Waller seeks to mount the guns on the edge of the cliff as a precaution against accidents.

When the application first came up the Park Commission deferred action to find out the views of Charles T. Wilder, donor of the strip, and still owner of a portion farther west.

The San Pedro Chamber of Commerce informed the commission that Wilder approves the use of the strip for the target practice, which is being held first in connection with the Citizens' Training Camp at the fort.

COST MAP REFERRED

The City Council has referred to the Public Works Committee the assessment district map for the improvement of streets in the Lankershim Boulevard and Tellfair-street district.

SETBACK APPROVED

The City Council has approved plans for the establishment of twenty-five-foot setback lines in Fiftieth street between Western avenue and Gramercy Place.

Health statistics show that the mortality among dentists is lower than the average for all occupied males.

SHIPPING NEWS AND ACTIVITIES AT LOS ANGELES HARBOR

SILK MOVEMENT TO PORT BEGINS

New Japanese Ship Brings Cargo on Record Voyage

Los Angeles Harbor Now Regular Receiving Point

Morrissey Quits Post With Fish Canners' Body

BY WAYNE B. CAVE

Los Angeles Harbor made its debut as a regular silk receiving port last night, when the freight motorship Kinai Maru of the Osaka Shosen Kaisha arrived with 1330 bales from Japan, after a record-breaking maiden voyage. The cargo, valued at more than $1,000,000, was transferred in an hour and a half to Union Pacific cars at Berth 228-E, for a seventy-four-hour dash by special train to New York.

Importance of the event, it was explained, is that the shipment marks the first of what promises a regular movement of silk through this port, a movement long sought by the port, and one enhancing the harbor's prestige as well as its value totals.

The new ship was put to an average of 17.89 knots an hour by Capt. Toru Yamaguchi, covering the 4839 miles from Yokohama in eleven days and twenty-three hours, or more than two days faster than any direct run between Japan and Los Angeles.

UNUSUAL HONORS

Due to the extraordinary importance of the event, the Kinai Maru was accorded unusual honors for a freighter, being received in quarantine by Los Angeles and port civic and municipal officials. Among them were Burt Edwards, port manager, and Col. Frank C. Wiser and Gerald C. Fitzgerald, harbor commissioners; Leslie C. Mott and Roy Beaton, president and secretary, respectively, of the San Pedro Chamber of Commerce; Don Fohl and John Weightman of the Wilmington chamber and Clarence H. Matson and Capt. Paul Chandler of the Los Angeles chamber. Los Angeles fire boat No. 2 also welcomed the new ship to port.

The reception was informal, the exchanges yielding to the rush movement of the silk, but a public reception is planned aboard ship on the Kinai Maru's return from New York.

FIVE NEW MOTOR LINERS

According to S. Mimoto, California representative of the Osaka Shosen Kaisha, the latter will add five more fast new motor liners this year to the Yokohama-New York run, with Los Angeles as the only Pacific Coast port of call. All, it is believed, will carry silk shipments, the next, the Tokai Maru being due September 18 with as large or a larger consignment. Retention of three steamers already on the run will give the service nine vessels, increasing the monthly schedule to a call every two weeks in each direction.

All new vessels are of 8400 to 8700 tons, with limited passenger cabins, silk rooms, deep tanks, refrigerated holds for perishables, and magazine compartments for explosives. Williams, Dimond & Co. are local representatives.

NEW CONNECTION MADE BY CAPITALIST

Resignation of Thomas Morrissey, Los Angeles capitalist, as manager of the newly formed Statewide California Fish Canners' Association was announced on return to the Southland yesterday of members attending the association meeting in San Francisco. Morrissey withdrew to affiliate actively with the Southern California Fish Corporation, in which he long has been interested.

The vacancy will not be filled for some time, according to Bismarck Houssels, president. The organization, however, he said, has been successfully launched and excepting three small northern and one southern cannery, boasts a membership of all fish packing plants in California. Morrissey will serve on the association's board of directors and on its executive committee.

A Scotch seaman was lost overboard, a Japanese fireman slashed in a knife battle, and a seaman broke a leg falling on a wharf at the port yesterday. Capt. Hudson, master of the British tanker Seminole, reported Martin McDonald, able seaman, fell from the staging while painting the ship while at anchor in the outer harbor and disappeared in the waters. An old grudge culminated in a fight aboard the steamer Hague Maru just outside the harbor, sending Nasugo Sujii to San Pedro General Hospital with knife wounds about the body, and lodging Haruo Takasumi in the immigration station. William McEwen, seaman of 309 Harbor Boulevard, San Pedro, broke his leg in a fall through old planking north of Berth 90. He was sent to the County Hospital.

Departing and arriving at this port today will be two of the largest and costliest new liners calling here. The Panama Pacific electric liner Pennsylvania will sail for New York with more than 400 Coast travelers, and the new Nippon Yusen Kaisha motor liner Asama Maru will disembark 150 passengers from the Orient. Panama Mail liner Colombia also will be in and out for New York with more than 100 travelers today, and the Dollar trans-Pacific liner President Cleveland, in yesterday, will sail back for the Orient with fifty passengers at noon today. Among the latter is Miss Corazon Mapa, daughter of the first judge of the Supreme Court at Manila. Travelers on the Colombia include H. W. Kidd, Los Angeles attorney, and Elizabeth Moisant, member of one of the wealthiest Central American families.

Belle Isle, ninety-five-foot four-purpose fish boat just completed at Parke Kibele's yards for John Gabelich, and costing $75,000, yesterday received her trial trip, a daylight cruise to Catalina and back with several dozen friends aboard. Lines resemble those of a yacht despite her heavy construction. She is one of the first local fish boats to be classed A1E by the American Bureau of Shipping. She will fish for French Sardine Company.

News of Ships and Sailings at Pacific Ports

SAN FRANCISCO, July 27. (AP)—Marking an entirely new departure for the Panama Mail Line, direct delivery of cargoes originating at Central American ports and consigned to Oakland was announced today by line officials. Increased commitments of Central American products was given as the reason. The City of San Francisco will discharge 500 tons of sugar from Salvador at an Oakland dock tomorrow.

F. Miles Cantelow, district manager here for the Redwood Line, announced today that Corpus Christi, Tex., has been added as a regular port of call for vessels of the line in the Pacific-Gulf trade.

both east and westbound. The new service will begin with the departure from San Francisco August 8, next, of the steamer Manhattan Island.

SEATTLE, July 27.—Capt. R. S. Patton, Washington, director of the United States Coast and Geodetic Survey, will arrive here Tuesday, the survey office here learned today. He is on a general inspection tour of stations on this coast and will remain in this city three days.

Water-borne freight through the port of Seattle for June, 1930, showed a gain of 11,308 tons over June, 1929, but there was a total loss in value of the cargoes amounting to $14,604,931. The tonnage for June, 1930, was valued at $43,611,763, as compared with $61,216,694.

PORTLAND, July 27. — The training bark Taisei Maru, of the Japanese government merchant marine school, arrived at Portland last night and will remain here for a week.

The bark, under command of Capt. S. Obe, is making its annual cruise and Portland is the only port in the United States she will visit. She left Tokio two months ago, visited a northern island of Japan and then came directly here. She will leave next Sunday for Honolulu and from there she will return to Tokio.

The crew is made up of sixty-eight cadets, who have finished three years' sutdy in the merchant marine school at Tokio. After another year of study they will join vessels of the Japanese merchant marine. The fifteen officers are members of the marine school faculty.

HOUSEWIVES ACCUSED BY DRY RAIDERS

Three Women Jailed on Charges of Liquor Sale and Still Possession

Three housewives were in jail yesterday, two for possession and sale of liquor and the third for possession of a still for manufacturing moonshine whisky.

In a wooden shed at the rear of a dwelling on Independence avenue in Chatsworth Police Sergeant Harrison and a squad of Van Nuys officers reported finding a ten-gallon still and two and one-half gallons of liquor. They also found, they said, an excavation which was to be used to house a large still.

Mrs. Refugia Torres, 39 years of age, who claimed the dwelling as her home, was taken into custody. With her were arrested Pedro Martinez, 19, and Florencino Rodriques, 40.

When they entered the home of Mrs. Yvonne Lyon, 29, at 3828 East Boulevard, Sergt. Rogers and a squad of Central vice officers, reported they found Mrs. Lyon serving beer to several customers. After placing her under arrest the officers searched the house and found, they said, seventy gallons of beer mash, two pints of whisky and sixteen dozen quart bottles of beer.

Mrs. Pablo Macias, 48, sold two pints of "red liquor" to a vice squad officer in her home at 1944 McAllister street, according to the report of Officer Frey, and was promptly arrested. Search of the house revealed five more pints of the same described liquor and forty quarts of beer, Frey reported.

PRODUCING & REFINING

OIL and MINING

IN THE EARTH

HOBBS OIL HUNT TO KEEP ACTIVE

Output Curb Fails to Check Drilling Activity

Eighteen New Holes Located Since Cut Started

Development of Field Will Proceed as Usual

ARTESIA (N. M.) July 27. (Exclusive)—Operating companies in the Hobbs oil field, eastern Lea county, will continue to develop the field, although the daily output of the area has been limited to 35,000 barrels, under a proration agreement. The intention of the oil companies is indicated by the fact that eighteen new locations have been made in the Hobbs area since proration began.

C. G. Staley, State Geologist, will act as umpire of the Hobbs field, assuming his duties August 1. R. L. Halley, State oil and gas well inspector with office quarters at Artesia will act as State geologist until a successor to Mr. Staley is appointed.

Gauging the producing wells has begun in order to determine the potential flow of each and prorate its production. Rules and regulations governing the testing of each well under the proration agreement require all wells to be fitted with three-inch tubing.

When gauged each producer is to be permitted to flow unrestricted through the tubing for three hours, the gauge to be determined on the second and third hour's flow, this amount to be multiplied by twenty-four to ascertain the potential output of the producers.

The Lea district, in the southeastern portion of Lea county, is the only producing field in either Lea or Eddy counties, which is not curtailing. The Texas pipe line, the Lea carrier, is taking all production of that area except that of Cranfill & Reynolds. This company's output is being transported to Wink, Tex., where it is turned over to the Paso-Tex pipe line.

National interest has been focused in the Hobbs field for the past three weeks. There are more than 100 wells in this district either producing, drilling or rigging up. Practically all of the locations staked since proration was effective have spudded in. Locations in wildcat territory have added much interest, especially in the Cap Rock area, although not all of the new wells have been officially announced. It is understood that the Texas Production Company has planned a test 2310 feet from the north and west lines of Sec. 17, 17-34, known as the Bridges No. 1. It is reported that the Penn Oil Company will do the drilling on a test well on Sec. 9, 15-35. Lockhart Brothers are reported to have made a tentative location in southern Eddy county on Sec. 23, 24-29.

The Hobbs field passed the week without registering a single completion. Three wells due to be drilled in early in the week, were forced to recement and this caused a shutdown for a period of five or six days.

MINE MILL AT JEROME OPERATING

Plant of United Verde Extension Running Full Twenty-four Hours

JEROME (Ariz.) July 27. (Exclusive)—United Verde Extension's 300-ton mill has been put into operation and is being run on a twenty-four-hour basis. It is to care for a huge tonnage of low-grade copper ores outlined in operation of the mine and left in place for future consideration. Such ores are reported to carry also lead and zinc.

In the Superior Court at Prescott has just been rendered a decision affirming the position long taken by the Extension's president, James S. Douglas, that the mine has been assessed at too high a figure by the State Tax Commission. Judge Fred W. Fickett of Tucson directed that the assessment be cut from $14,812,440 to $5,510,000, this to be retroactive, possibly resulting in a refund to the company by Yavapai county and the State of several hundred thousand dollars paid last year under protest.

On the basis of last year's June copper quotations the company product was valued at 15 cents a pound. Mr. Douglas for several years has insisted that the mine has a short life, due to the asserted cutting off, by faulting, of what has been one of the most remarkable chalcocite ore bodies ever known, one from which, at a time of high copper prices, was immense production of 25 per cent ore. At the trial was expert testimony that the mine has a probable life, at present production, of about three years. The company has several millions of reserve, in bonds and cash.

Maricopa Flat Well of Union Gets Showings

MARICOPA, July 27. (Exclusive) Union Oil Company has struck the oil formation in its Nicholson-Fried No. 2 well on Sec. 8, 11-24, at Maricopa Flat. The depth is more than 2670 feet. The oil sand was found above 2260 feet.

On Sec. 10, 11-23, where Union is drilling the premier deep test of the district, its Houchin No. 4, more than 7250 feet of hole has been made and drilling ahead continues. The well was rejuvenated from 5555 feet and has been in the brown-shale formation since that depth.

STAMP MILL RUNNING ON LOW GRADE

Sixteen-to-One Making Test as Preliminary to Larger Plant

SACRAMENTO, July 27. (Exclusive)—The small stamp mill operated on low-grade ore by the Sixteen-to-One Company at Alleghany is crushing about eighty tons daily. The company is making a thorough test run on the low-grade product and plans to build a large mill if the experiment proves satisfactory. The rich ores continue to be treated in a pan mill. Development of large areas of virgin territory is proceeding vigorously.

Purchase of the noted Blue Ledge group of copper properties in the north end of Siskiyou county has been announced by officials of the Consolidated Copper Company.

Operations will be under supervision of Col. Frank M. Leland. Construction of a large flotation mill is projected. The Blue Ledge has produced a large tonnage of ore and was formerly operated by the American Smelting and Refining Company.

Discovery of a shoot of rich gold ore in the Golden mine, near Greenville, in Plumas county, is reported. The strike is said to have been made near the end of a 125-foot tunnel, and the shoot is described as displaying specimen ore besides mill product.

OIL EXPORTS FROM PORT SET RECORD

Bulk Movement During Fiscal Year Largest in History of Industry

Bulk petroleum exports from Los Angeles Harbor during the fiscal year ending June 30, last, set the highest mark in the history of the industry, and it is believed that a world's record was established for the movement of oil from any one port.

According to the records of the Marine Bureau, Los Angeles Chamber of Commerce, the shipments during the twelve months totaled 126,355,053 barrels. This is nearly 8,000,000 barrels in excess of the oil exports of 1928, which marked the high spot since 1924, when 117,071,237 barrels of petroleum products were exported from here.

Shipments for June totaled 9,692,198 barrels, while those for May amounted to 9,301,960 barrels. The total movement for the first six months of this year was 58,335,967 barrels, gasoline being in first place with a total of 23,957,247 barrels, while fuel oil was second with 19,886,867 barrels. The movement of crude amounted to only 7,265,701 barrels.

Davis-Dunkirk Operating New Mill Part Time

PRESCOTT (Ariz.) July 27. (Exclusive)—The new 100-ton flotation mill of the Davis-Dunkirk Mining Company is running on part time, handling ore from mine-development work, with concentrates shipped to the Hayden and Clemenceau smelters. There has been determination that a four-foot ore body, recently cut, is one distinct from the vein heretofore followed.

It carries good milling values that have been bettering with exploration. Within the past few months has been installation of very modern surface equipment, operated by electric power secured from the Walker station of the Arizona Power Company. Seattle capital is back of the development.

A new mill is to be erected on the gold property of the Central Arizona Mining Company near Venezia. Control of the company is reported held by Dr. E. Payne Palmer of Phoenix. New ore of value, with a face of four feet, has been cut on the property of the S. W. Mining Company near Dewey.

Ohio Project at McKittrick Down 6600 Feet

McKITTRICK, July 27. (Exclusive)—The Ohio Oil Company has passed 6600 feet in its deep test of the McKittrick district. Its M. & M. No. 1 on Section 32, 20-22, is drilling in shale formation.

H. L. Whiston's former producer on Sec. 30, 30-22, near by, is idling. An uncompleted fishing job faces Whiston when work is resumed. It has been currently reported that the project has been transferred to California Oil Producers, Ltd., newly organized Los Angeles company. This well, with a total depth of 5040 feet, came in several weeks ago, flowing little oil, much gas and some water.

Kern Front Oil Activity Lags

BAKERSFIELD, July 27. (Exclusive)—Standard Oil Company's Fee No. 24, Sec. 15, 28-27, in the Kern Front field is standing recemented with casing set at 2102 feet. Total depth is 2334 feet. Water broke in and caused failure of the first water shut-off job.

There is only one other active operator in the field now. The Chanslor-Canfield-Midway Oil Company has a drilling job, a new location and a rig-building job on Sec. 23, 28-27.

DONALD PLACER OPENING PENDS

Hammon Interests Expected to Develop Ground

Result of Exploratory Work Held Satisfactory

Clifford Gets $2500 Return on Ore Shipment

TONOPAH (Nev.) July 27. (Exclusive)—Development of the extensive Donald gold-bearing placers, below Manhattan, will probably be undertaken shortly by the W. P. Hammon interests of California. A thorough sampling of the auriferous deposits has been completed, and results are said to have been satisfactory.

Twenty-eight holes were drilled to bedrock at depths varying from sixty to 100 feet. The deposits cover more than 1000 acres. The Hammon syndicate is said to be planning installation of powerful dredging equipment.

Thirty tons of gold-silver ore shipped by the Faris-Joseph lease from the Clifford mine, east of Tonopah, returned in excess of $2500. The product was sent to the Millers plant of the Tonopah Mining Company. The leasers state that they will shortly ship to the smelter at Selby, Cal., several sacks of selected gold ore sampling above $2000 per ton. The Clifford is owned by the Western Gold Mines, Inc., of Los Angeles, which controls the Bellehelen property.

With 50,000 tons of ore officially said to be blocked out underground and 6000 tons on the dumps, the Gold Hill Development Company plans to place its new 100-ton mill in commission this week. The plant cost about $70,000 and is expected to be able to handle close to 150 tons daily, when all departments are operating at top capacity. The mine lies some five miles north of Round Mountain.

Development of a new deposit of excellent-grade cinnabar is reported by the B. & B. Quicksilver Company. The product is said to sample ten to thirty pounds of mercury per ton, and appears to be one of the best ore bodies ever opened by the company. The management is steadily raising production, and plans to shortly turn out 200 flasks of quicksilver monthly.

WIDE HUNT DUE IN OIL AREA

Structure Starting at Fox Hills and Running to Huntington Beach Slated for Activity

With three deep tests for oil under way and others planned for already proven areas, the structure that extends from the Fox Hills oil field and runs through Inglewood, Potrero, Athens, Rosecrans, Dominguez, Signal Hill, Seal Beach and Huntington Beach, is scheduled for other searches, which are expected to be a little more thorough than some of those in the past.

Deep tests at Huntington Beach are expected to attract the most attention from operators, since that field has long been suspected of concealing deeper sands. Discovered in 1920 by the Standard Oil Company and with more than 2300 productive acres, a deep test there is expected to excite more than passing interest.

The Barnsdall Oil Company went into the extreme southeastern corner of the Huntington Beach field several months ago and renewed activity on a project drilled to 4350 feet by Featherstone & Preston. This job is just southeast of the flats and near the Standard Oil Company's surf lease in that field. After drilling resumed showings of oil sand were encountered a little above 5600 feet and, testing wet, the company drilled below 6000 feet and then quitclaimed the lease.

Since Barnsdall's failure to find deeper production at Huntington Beach the Superior Oil Company has taken up the search. Its Jones No. 1 is located northwest of the Huntington Beach townsite area and in the southwesterly portion of the entire field. It is making progress below 2570 feet and plans to carry it to 7000 feet if necessary.

By getting nearer the heart of the field in Huntington Beach oil scouts believe that some interesting developments may be expected. The Standard Oil Company is rigging up Jones-Community No. 6 near the central portion of the field, but has denied reports that it is to be a deep test. Lease requirements called for this project, according to Standard. In the older portion of the field Standard is making progress in Thomas No. 13 below 750 feet and has likewise announced that it will not be a deep test.

Standard's Irvine No. 1, in the upper reaches of Newport Bay and eight miles southeast of Huntington Beach, may serve as a marker in the search for deeper production at Huntington Beach, is the belief of some scouts. The Irvine No. 1 is located near a small dome, or probable structure, and within a half-mile of the Coast Highway. It is drilling below 1300 feet.

In the Signal Hill field, Rawco, Inc., is undertaking to discover deeper production than any heretofore obtained in the extreme southeasterly portion of the field. Rawco's project is going down near the corner of Twenty-first street and Junipero avenue and is within a short distance of the productive Painted Hills ten-acre lease developed by the Petroleum Securities Company and near excellent producers brought in by that company, the Plymouth Oil Company, Dabney-Johnston Oil Corporation and a group of independent operators. Rawco is prepared to go at least 8000 feet.

In the Rosecrans field, the Barnsdall Oil Company found deeper production on the Trust lease and is making progress in Trust No. 2. The company's Trust No. 1 is flowing approximately 400 barrels of 37-deg. gravity oil per day from a depth of 5850 feet.

The Potrero town-lot area has provided some interesting activity during the past year. After months of disappointment due to water and sand problems, that area has at various times yielded considerable oil. George F. Getty, Inc., Sunset Pacific Oil Company, Hugh Grant and Thomas Barton succeeded in obtaining a fair amount of production. The Associated Oil Company continues to prospect its leases, while the Richfield Oil Company and several independent operators are considering drilling a deep test northwest of the town-lot district. This will probably go down just east of the Inglewood brickyard, a property which was tested by the Ring Exploration Company more than a year ago, but without results.

RARE MINERALS, METALLURGY, CHEMISTRY

Qualitative analysis will be given in this department of The Times to correspondents on ores and minerals free of charge. Make each sample of an ounce or so in weight. Be sure to write a letter stating what tests are desired and give the approximate locality from which samples were taken. Do not pulverize the specimens. Give your name and address on paper wrapped with samples.

Calcite

LOS ANGELES, July 5.—Question: I am inclosing to you through The Times the accompanying sample of mineral. It is too hard for me, and the chemist I ran across down here called it dolomite and various other things, none of which satisfies me that he is right. A German chemist the other day looked it over and said it was a cerium ore and carried traces of beryllium. The crystallization to me looks something like cerium ore and I am sending it to you for your inspection and report. I shall appreciate your ideas concerning it, as I always do. X.

Answer: You well know that there are such chemical terms as dimorphism and trimorphism. For instance: Calcium carbonate crystallized in the hexagonal system, Sp. Gr. 2, 71, is calcite; and in the orthorhombic system, Sp. Gr. 2, 94, it is argonite. Your sample does not react for cerium, and beryllium is absent.

One Sample

CHLORIDE (Ariz.) July 5.—Q.: I am sending you a sample of a ledge about twenty-seven miles northwest of this place and as I have heard that a certain metal is found in material something like this, which is used in making steel and which adds greatly to the strength of the steel and makes it almost as light as aluminum, I will be pleased if you will advise in your In the Earth column, whether the sample has any commercial value. X.

A.: The sample is simply coarse muscovite granite.

Sulphide Ore

MAZAMITTA, JALISCO (Mex.) July 6.—Q.: Please classify this ore sample. J. S.

A.: It is quartz containing galenite, pyrite, and might carry values by fire assays for gold and silver.

Two Samples

VICKSBURG (Ariz.) July 6.—Q.: Am sending you two ore samples. No. 1, until now, has been classed as lead ore. Recently the owner of an adjoining property made a very good strike and detected the presence of the same mineral in his pannings; he had two tests made and the returns of both samples was scheelite. G.

A.: Sample No. 1 contains no scheelite—it is simply microscopical galenite. Probably you sent the wrong specimen. On No. 2 you are respectfully requested to send us another sample, as we have doubts where to place it among correspondents.

Quartzite

LOS ANGELES, July 7.—Q.: The inclosed samples were taken from an outcrop located on the Lucky Star group near Dos Cabesos Mountains, close to Apache Pass, Cochise county, Arizona. Please classify the specimens. S.

A.: The samples are thinly sprinkled with microscopic sulphides and may carry precious metal values by fire assays. Flake platinum absent.

Dumortierite

YUMA (Ariz.) July 8.—Q.: Will you please tell me what this sample of rock contains and whether it has any commercial value to justify mining it? It occurs in Imperial county, about ten miles from Yuma. S.

A.: Dumortierite belongs to the andalusite group of minerals. It is closely related to cyanite, sillimanite and andalusite. "True dumortierite, when not mixed with quartz, is converted into sillimanite, at a white heat." It carries aluminum silicate, and the color of your specimen is smalt-blue. Commercial values of such mineral are problematical.

Three Samples

LOS ANGELES, July 9.—Q.: I have just returned from a two weeks' trip to the desert, and while I found some very interesting country, do not think I found much of value. Samples 1 and 2 were found about fifteen miles east of Barstow and sample No. 3 (I think may be epidote) was taken from a ledge about ten miles south of 29 Palms. X.

A.: Sample No. 1 is olivine, (dunite rock.) No. 2 is a good grade of baryte—not tested fully or strontium, and No. 3 is pistachio-green epidote, very much resembling willemite—other than the crystallization.

Calcite

CULVER CITY, July 9.—Q.: Am sending under separate cover three samples of mineral found near Daggett, Cal. Please give qualitative analysis on each specimen. I have a fairly large amount of No. 3. C.

A.: No. 1 is lime carbonate. No. 2 calcite, and No. 3 is lime carbonate, giving slight strontium reactions.

Two Samples

KEENE, July 9.—Q.: Sending you two samples. No. 2, black, I think, is hornblende and probably it contains mineral matter of value. No. 1 is a grayish sedimentary mineral, probably from a hot-water spring formation, and to my way of thinking, it is a very peculiar crystal. It is from Mono county, and from a very large deposit. Thanking you for past favors. X.

A.: Sample No. 1 is hornblende containing biotite (black mica of the mining boys in the hills) otherwise it is fake platinum ore. No. 2 is lime carbonate, (travertine.)

Four Samples

ALHAMBRA, July 10.—Q.: Am mailing you today four different samples. Please let me know what elements are present in each sample, also values. I understand that specimen No. 302-1 contains some kind of metal that we are anxious to know about. No. 302-2 same as former number. No. 585 cinnabar ore, and No. 585-2 looks like dumortierite. Will be glad to get your report on these at your earliest convenience. M.

A.: You have not complied with the requirements for analyses called for in the notice found at the heading of this column. No approximate localities of samples are given in qualitative analyses made—unless on important minerals, and no correspondent given rights ahead of others; all must take their turns in dates of communications received. As to the specimen: Sample 302-1 is probably quartz dioryte. No. 2 hornblende. No. 585 is impure gypsum, stained with hematite, and 585-2 is iron silicate, containing hematite.

Slate

WEST HOLLYWOOD, July 10.—Q.: Please analyze the inclosed rock sample—it contains platinum and palladium, probably. The sample comes from a mine in the western part of the State. L.

A.: The rock sample is too small for satisfactory analysis. Palladium is not present in it, and flake platinum is absent.

Not Beryl

ATOLIA, July 11.—Q.: Inclosed you'll find sample of mineral. Please classify it. The sample is from Randsburg mining district. F.

A.: The partly transparent specimen is greasy quartz.

A Mixture

WEIMAR, July 11.—Q.: Am sending you some rocks for classification; they seem to be full of mineral matter. The vein has two walls of slate; it shows small stringers of quartz running through, and is about three feet in width. Please state what the lumps are. H.

A.: The ledge is a fissure vein, and the lumps are composed of altered rock matter including clay, iron magnesium silicate, slickenslides, (of brilliant black luster) polished up by earth movements, and microscopic pyrite is more or less present with some yellow mica known as cat gold. Values problematical.

BARNSDALL DRILLS AHEAD AT MARICOPA

MARICOPA, July 27.—Barnsdall Oil Company is drilling ahead at 3500 feet in its Son-Crail No. 1 on Sec. 8, 11-23, at Maricopa Flats, and going through gray sand formation.

On Sec. 17, 11-23, Hazelton No. 4, Barnsdall's fourth well in that area, remains suspended at 3245 feet.

BALDWIN MINES GROUP TO OPEN

Vulcan Gold to Acquire and Operate Claims

Property Located Near That of Seven Troughs

Nevada Quicksilver Stepping Up Monthly Output

LOVELOCK (Nev.) June 27. (Exclusive)—The Vulcan Gold Mines Company has been incorporated to acquire and operate the Baldwin group of twenty-seven gold claims in the Seven Troughs district. The group lies near the great mines of the Seven Troughs Gold Company and is said to contain several promising ore bodies. A 200-foot tunnel will be first driven to develop a large ledge, and this work is to be followed by comprehensive mining.

The Nevada Quicksilver Company is producing from 140 to 150 flasks of mercury each month from its Antelope Springs properties, with the output being gradually increased. Excellent ore is being mined in both the Juniper and Montgomery areas, and that late work has uncovered rich material in virgin areas of the two properties. The company has a steady market for its output.

The American Development Company has started shipments of barium from its mines at Eagleville, and has taken over the Mahoney barium property on Maggie Creek, north of Carlin. This deposit is said to be exposed for 1500 feet, with the ore of good grade at surface. The American Development plans to handle the surface ores by means of a tramway, and develop the deposits at depth with a tunnel. Shipments from the Eagleville mines are going to the new plant at Oakland, Cal.

The Nevada Gold Dome Company is preparing for a campaign of extensive work on its property at McCoy. It is understood that a new shaft will be sunk, heavier equipment installed, and comprehensive lateral work pressed. Several leasers are shipping steadily, with some consignments of rich gold ore recently sent out.

Scott Fleming and associates of Los Angeles are developing gold-bearing claims in the Tenabo district, south of Battle Mountain, and are reported to have opened good ore. The claims are located near the mines of the Tenabo Consolidated Company.

GOLD KING PROSPECT BRIGHTER

New Find of Mixed Ore Running High in Value Reported at Kingman

KINGMAN (Ariz.) July 27. (Exclusive)—High values in gold, as well as in copper, zinc and silver, have been found in an eighteen-inch vein of the Gold King Coalition Company, twenty feet north of the main shaft, at 200 feet of depth. A station is to be cut at the 300-foot level, soon to be reached, and the shaft is to be continued down to 500 feet. This working in on an incline, following a five-foot vein. P. M. Woods is manager and the mine work is in charge of the well-known Pete Vukoye.

A contract has been awarded for a shaft on the Gold Wing property in the Mohave Mountains, to follow down some remarkably rich surface showings. The operating company, headed by Harry Stimlar, has possession of five claims on which the original strike was made.

Tungsten ore sampling nearly 70 per cent is being shipped by Ed Williams from mines operated by himself and associates in the Aquarius Mountains, sixty miles east of Kingman. In addition, 1500 tons of lower-grade material have been piled on the mill dump.

Oil Securities Well at Edison in Sandy Shale

BAKERSFIELD, July 27. (Exclusive)—Petroleum Securities Company, drilling its Johnson-Moss No. 1 on Section 14, 29-29, in the Edison district near Bakersfield, has reached a depth of 850 feet and is going through sandy shale formation. The well was spudded in on the 7th inst.

In the same district the Osborne-Sayre No. 1 well on Sec. 5, 30-29, has pulled tubing and is cleaning out. Total depth of this former small producer is 4222 feet, with a plugged depth of 4156 feet, and a reported production depth of 3790 feet. The well pumped about fifteen barrels daily from the latter depth some weeks ago.

On Sec. 33, 29-29, the Shell Oil Company is in the sand-and-shale formation at more than 5650 feet.

New Project to Start in Tulare

PORTERVILLE, July 27. (Exclusive)—The Terra Bella Drilling Company, which completed the first producer in the Porterville district of Tulare county, has staked location for another well. The new one is Fee No. 1, 1845 feet north and 150 feet west from the southeast corner of Sec. 34, 22-17.

On Sec. 35, some weeks ago, Terra Bella completed its initial producer doing seventy-five barrels from 910 feet. The flow has dropped to twenty-five barrels daily, on the pump. The oil is valued especially as a lubricant.

TOM REED RESUMES ACTIVITY

Shaft Unwatered Down to 1100 Level and Ore Hoisting Started

OATMAN (Ariz.) July 27. (Exclusive)—With installation of larger pipes, the great pumps in the Tom Read shaft have fully unwatered the 1100-foot level, on which operations have been resumed. Ore being hoisted is reported to run between $30 and $50 in the mill. The stoppage was for ten days. Work is being pushed toward the 950 winze, to secure better ventilation. Then there is expectation that the shaft will be continued down to 1500 feet.

Water also has been drained from the adjoining American 1000 level, in which the eastern drift heading now is about 120 feet advanced, in ore that runs around $23 gold. From a Tom Reid lease near the main street Tom Siders has milled forty tons that returned $43 a ton. This ore comes from a depth of 100 feet, in a 175-foot level.

West of Oatman the Forty-Niner group of placer claims has been taken over by August K. Senn of Milwaukee, on lease from Frank Warning and Dr. J. K. Barrett. Two old stream beds are to be worked, on bedrock that varies from thirty to seventy feet depth. Belief is expressed that one of the channels has about 1,800,000 yards of gravel that will return 25 cents a yard. A carload of machinery is being installed.

Rich Ore Vein Encountered in Copper Prince

BISBEE (Ariz.) July 27. (Exclusive)—On the 200 level of the Copper Prince property of the Altar and Cananea Mining Company has been made a notable discovery, in a new vein that samples 15 per cent copper along twenty feet of drifting.

The shaft is one of a number sunk on the group, which is of 772 acres, owned by an Arizona company, with many Bisbee shareholders. Large copper bodies have been cut elsewhere, though of lower grade. The mines are in the Altar district of Sonora, a few miles south of the international line.

DEEP MARICOPA TEST DRILLS AHEAD AGAIN

MARICOPA, July 27. (Exclusive) The Birch Oil Company once again is drilling ahead in its deep-test project at Maricopa Flats, Maricopa No. 2 on Sec. 7, 11-23, which has attained a depth of more than 5950 feet. Drilling was suspended for about two weeks when the bit reached 5865 feet. Brown shale formation is at bottom.

Hydraulic Miners on Trinity Facing Court Action

Debris Deposited in Rivers Basis of Protests

SACRAMENTO, July 27. (Exclusive)—The Sarita Mining and Power Company of Los Angeles has acquired the Sarita mines and mill at Masonic, and is milling fifty tons of gold ore daily. Forty men are employed, and the company is said to be earning good profits. The Sarita group embraces several good properties and contains extensive reserves of commercial ore.

For the first time in the history of Trinity county the hydraulic miners are threatened with legal action as a result of debris being deposited in the Trinity and Klamath rivers. The Eureka Chamber of Commerce and other Humboldt county interests have entered protests against present hydraulicking and asked the various companies to cease operations until late in September. The protests assert the Trinity and Klamath rivers are so low that fishing is seriously affected. A meeting of forty mine owners was held at Weaverville last week to consider the situation. Mining companies have for eighty years been running debris into the rivers, which are not affected by the California antihydraulic laws.

The Aladdin Gold Mining Company, formerly the Aladdin Ditch, reports that profitable gold-bearing gravel is being worked at the old Rising Hope mine, three miles from Placerville. The property was recently acquired, a washing plant installed, and extraction of gravel started from bench deposits along the main tunnel. The tunnel is being extended and arrangements made to increase the output to [illegible] yards daily. The company is still endeavoring to develop profitable gravel deposits in the Magalia district, near Oroville.

The old Standard and Pilgrim quartz-gold mines near Downieville have been acquired by the American Mining and Milling Company and arrangements made for commencement of work on the Standard. This property is said to show a large vein of mill ore and smaller ledges of higher-grade material. The small mill is to be completed, the property provided with electric power, and deeper mining conducted.

HUNT FOR GOLD TOPS ACTIVITY

Yavapai County Properties Center of Interest

Score Under Development in Cleator District

Copper Concerns Running on Half-Time Basis

MAYER (Ariz.) July 27. (Exclusive)—In the Yavapai county mining districts, special interest now is manifest in gold properties, with most of the copper mines and works running on part time. Activity is notable in Cleator section south of Mayer, with a score of properties under development.

Ore from the Golden Belt property is being shipped with value of $[illegible] a ton. This is from a six-foot vein, half of the ore being set aside for milling. On the same lead, the International Consolidated Mining Company has a sixty-ton mill ready for operation. The Los Felices mine, owned by John Slak, is producing rich surface ores. A mill is being placed on the French Lily property. The Silver Pheasant property has been equipped by eastern interests with a mill and is to be producing soon. The adjoining Thunderbolt mine is being operated by the Black Canyon Silver Mining Company. The Don Nether[illegible] and Great Republic groups have been taken over by a Texas company, for development.

Copper mines are not inactive in the southern sections, though handicapped by the closing of the Humboldt smelter. The De Soto is shipping ore to a southern smelter. The Rainbow group is to be diamond drilled by its owner, J. P. Cleator. A large surface showing of copper ore on the St. John group is to be explored. Some 18 per cent copper ore has come from surface workings on the Copper Dome group, near Cleator. Near Bumble Bee is the well-known property of the Howard Copper Company, with statement made that 1,000,000 tons of remunerative copper, gold and silver ore have been blocked out.

GREAT NEW MINE AREA FORECAST

Section East of Virginia City, Nev., Viewed as Rich in Possibilities

That a great mineralized zone richer than anything that has been discovered there since 1860 lies just east of Virginia City, Nev., is the assertion made by E. C. Meiklejohn, who has just returned to Los Angeles after an inspection of the National Mining Company's property at Como, Nev.

"Just across the valley from the old Comstock Lode," says Mr. Meiklejohn, "is a great mineralized zone apparently capable of furnishing the world great quantities of gold and silver. There are miles of great outcroppings of big quartz veins, which are open for location, and which assay gold and silver anywhere one cares to take a sample."

Mr. Meiklejohn reports that several mining properties in the Como district are taking out excellent ore and preparing to start milling. The old Como mine is planning to install a concentrating plant in the near future. It is reported to have thousands of tons of rich ore blocked out.

RICH GOLD PROPERTY IN SONORA

Angeleno Part Owner of Promising Estate Near Port of Sonoyta

AJO (Ariz.) July 27. (Exclusive) Jose C. Gutierrez of Los Angeles and Ygnacio Quiroz of Sonoyta are owners of property near the latter port in which rich free gold ore has been found in shallow workings. The mine is known as "La Buenaventura de los Dos Hermanos" and has nine paralleling mineralized seams and ledges.

Values are in iron-stained quartz. Samples brought here show gold in large leaves. The owners expect to work the ore in a small mill. Access is by a good road hence forty-five miles to the border.

About forty miles below Sonoyta is the Sierra Pinta gold mine, operated by S. Nixon and A. V. Richards. The mill latterly has not been operating, waiting for machinery repairs secured in Los Angeles. The mine was a heavy producer for many years till the ore body faulted. It now is stated that the fault has been picked up at depth and that the mine has likelihood of repeating its past record.

Oil Search in Tulare County Grows Wider

BAKERSFIELD, July 27. (Exclusive)—Tulare county oil prospecting continues to increase with several new rigs going up, "lease hounds" in action and considerable drilling in progress.

Consolidated Properties, Ltd., has staked location for a well on Sec. [illegible], 23-17. The location is 1855 feet north and 775 feet east from the section's southwest corner.

On the same section the Western Oil and Exploration Company's Gardiner No. 1 is down close to production and is drilling through shale formation. Total depth approaches [illegible] feet.

Maricopa Well on Fishing Job

MARICOPA, July 27. (Exclusive) North American Consolidated Oil Company is fishing for drill pipe in one of its Maricopa Flats project wells and cleaning out its only other active site there.

Kerckhoff No. 2 on Sec. 8, 11-23, has the fishing job. Kerckhoff No. 6 on the same section is being cleaned out to bottom which is 3520 feet.

WILDCATS IDLING IN GOULD HILLS SECTION

BAKERSFIELD, July 27. (Exclusive)—Both of the Gould Hills wildcats are idling. One is owned by Bomke & Ball and has a total depth of 2767 feet. It is Larson No. 1 on Sec. 12, 29-20. The other is Theta No. 1 on Sec. 20, 28-28, with a total depth of 3665 feet.

Both wells were in brown shale when drilling ceased a short time ago.

First Road Oil Shipment Made by Dayton Plant

ARTESIA (N. M.) July 27. (Exclusive)—The first carload of road oil from the plant of the State Oil and Refining Company at Dayton has been shipped to a highway project near Clovis, it has been announced here by Stephen Lanning, manager. Two or three other road-oiling projects of the State Highway Department will be supplied by the Dayton plant as rapidly as the refined oil is available.

Under a temporary arrangement oil from the Getty field in Southeastern Eddy county is being transported to the Dayton plant by trucks and the plant is turning out road oil at the rate of three carloads daily.

Bee Hive Mine Mill Planned

WICKENBURG (Ariz.) July 27. (Exclusive)—A fifty-ton mill is projected for the Bee Hive mine, in Octave district, north of this point. Operation is by the Emerson Mining Company, headed by A. A. Betts, State Corporation Commissioner.

Development now includes a 1600-foot tunnel and several shafts. Power is to be secured at Octave from the Monte Cristo line of the Arizona Power Company. Thirty men are working on a road to the mill site.

Water Jinx at Pixley Project

PIXLEY (Tulare County) July 27. (Exclusive)—Roy White, on Sec. 8, 23-26, in the Pixley district, has found a second recementing job unsuccessful in his 4022-foot well and will try another cement job at the same depth. He intends to drill to 6000 feet or more as soon as he can shut off the water.

The Western Plains Company continues to idle its technically spudded-in No. 1 well on Sec. 29, 20-25. The depth is fifty feet. No work has been reported in this site for several weeks.

MEXICO STATE BARS TALKIES IN ENGLISH

MEXICO CITY, July 27. (Exclusive)—Talkies in English or in other languages other than Spanish have been prohibited in Oaxaca, capital of the State by the same name, by order of the City Council.

The following reasons were given by the Council for the action: "Moving pictures with songs or discourse in English are injurious for those persons who lack culture and for whom moving pictures are the only window through which they gaze upon life and exert a most powerful influence on their problems and on their conception of social morals and, above all, on their patriotic sentiments."

OUTPUT OF MINE MILL CURTAILED

Nevada Consolidated at Santa Rita Operating on Half-Time Basis

LORDSBURG (N. M.) July 27. (Exclusive)—The Chino branch of Nevada Consolidated, at Santa Rita, has been handling 7000 tons a day of low-grade ore, about half the mill capacity. A mine force of 700 men, with 350 at the mill, is employed.

At the Eighty-five mine of Calumet and Arizona, Valedon, N. M., the output, shipped to Douglas, has been at the rate of 270 tons a day, with 285 men employed. A new shaft is nearing a depth of 1750 feet.

New crushing equipment has been added to the Deming mill of the Peru Mining Company, which has closed down its Grant county property and which is concentrating activity on the Pewabic mine, near Hanover. Most of the value is in zinc. P. H. Argall of Deming is in charge.

There is claim that D. B. Smith and M. E. Patterson, in the Stein's Pass section, have a fourteen-foot ledge that samples 11 per cent lead and 4 ounces silver.

From the Bradley mine, twenty miles west of Deming, this year has been shipment of 1000 tons of lead ore that returned also $3 in gold to the ton and 8 ounces silver.

Placer Estate Revival Pends

PARKER (Ariz.) July 27. (Exclusive)—That another effort is to be made to work the old La Paz placers, south of this point, is indicated by a contract let for sinking a number of wells on the property, which is several miles east of the Colorado River.

Sampling of the gravel beds is reported to have returned good values. The main question lies in a sufficient water supply for sluicing. This may have to be pumped from the river.

Kern Project in Coarse Sand

BAKERSFIELD, July 27. (Exclusive)—The Honolulu Oil Company's No. 99 well on Sec. 20, 29-29, in the Round Mountain field of Kern county, is drilling through coarse oil-sand formation at a depth of more than 3000 feet. Top of the Vedder zone was cored at 2274 feet.

This well was spudded in several months ago and signalized Honolulu's active return to drilling in this field, where the company had been inactive for many months.

CONTINENTAL TO START PROJECT

Drilling on Kettleman Hills Permit Scheduled

Derrick Already Up; Boilers Also Installed

Only Short Time Required to Get Hole Under Way

Decision of the Continental Oil Company to drill at least one well on the north dome at Kettleman Hills on its improvement permit, regardless of its inability to place it on production until given permission to do so by Secretary of the Interior Wilbur, is expected to increase activity there.

Continental is prepared to start drilling almost at once in Elliott No. 2-16, which is located on a 480-acre government permit on Sec. 2, 22-17. Derrick is up and boilers are installed. Rotary equipment is all that needs to be moved in and that will require only a few days.

The new well will be a direct offset to the Petroleum Securities Company's Felix No. 1 producer on Sec. 35, 21-17, and the Standard Oil Company's No. 38. To prevent drainage of its lease, the Pacific Western Oil Company is grading location for a project on Sec. 1, 22-17, which may also be offset soon by the Milham Exploration Company on the south.

Milham has not announced what steps it will take to protect its acreage on Sec. 1, 22-17, but in the event it makes a location there it is believed that Standard whose holdings flank two sides of the Milham's lease, will make some offset locations.

Stock Exchange in Mexico City Urged by Paper

MEXICO CITY, July 27. (Exclusive)—Creation of a stock exchange in Mexico to prevent money from leaving the country and "being lost in a Wall street crash" is proposed in a front-page story published by Excelsior. The account states that there is plenty of money in the republic, but it never stays here because of the scarcity of places to invest it.

WYOMING PLANS MORE IRRIGATION

CHEYENNE (Wyo.) July 27. (AP)—With more than 2,500,000 acres now irrigated or ready for irrigation, Wyoming plans development of an additional 3,499,400 irrigated acres within forty years.

INCREASED TRADE TO BE SOUGHT

State Bankers, Packers and Shippers to Meet in San Francisco

SAN FRANCISCO, July 27. (Exclusive)—Stimulation of California's development in foreign trade will bring together exporters, shippers, packers and representatives of banking groups at the meeting of the State-wide foreign trade committee, California State Chamber of Commerce, here Wednesday. R. I. Bentley, San Francisco, will preside as chairman.

Matters to be considered by the committee or projects of work include American extraterritoriality and American protection in China; California trade commissioner for Europe; oleomargarine for foreign markets; west coast trade commissioner to South America; International Pacific Highway; commercial exhibit ship, and other subjects.

Among those to be present are: F. W. Read, Sacramento; Henry F. Grady, Berkeley; H. S. Scott, San Francisco; Percy Mott, San Francisco; I. J. Stromnes, Sacramento; William L. Montgomery, San Francisco; C. B. Lastreto, San Francisco; C. H. Matson, Los Angeles; Wesley O. Ash, San Francisco; James H. Smiley, Los Angeles; J. E. Godley, Napa; J. E. Lundy, Stockton; R. E. Fisher, San Francisco; Frederick J. Koster, San Francisco; F. B. McKevitt, Jr., Vacaville; Edward M. Boland, Fresno; Charles C. Bowen, Sacramento; Charles L. Wheeler, San Francisco.

New Oil Quest in Salt River Valley Slated

PHOENIX, July 27. (Exclusive)—Wildcatting for oil has been started again in the Salt River Valley, with drilling begun with a light rig at a point six miles east of this city on the Tempe road. A heavier rig is to be brought up from Mexico and installed August 1, according to C. L. Fetty, president of the operating concern, the American Union Petroleum Corporation.

About 2500 acres have been leased near the Arizona Packing Company's property. Statement is made that the cost is fully financed to a possible depth of 3000 feet. Survey and favorable report on the location were made by Alfred H. Tinsley.

AMERICAN TRUST COMPANY, San Francisco } (Successor) Trustees

Issuance Authorized by the Railroad Commission of the State of California.

Exempt from all personal property taxes in California. All first and refunding mortgage gold bonds heretofore issued are legal investments for savings banks in California, and application has been made to have these additional bonds so certified. All such bonds heretofore issued have also been legal investments for savings banks in Massachusetts, Maine, New Hampshire, Rhode Island and Vermont, and application will be made to have these additional bonds listed as legal investments in such States and in the States of Connecticut and Michigan.

The Pacific Gas and Electric Company is one of the foremost public service corporations in the United States. The electric business of the company or of its predecessors has been in continuous and successful operation for fifty-one years and the gas business for seventy-six years.

The properties of the combined system, including important acquisitions from the North American Company made on June 12, 1930, constitute one of the largest interconnected electric and gas systems under single management in the United States. Total assets are approximately $650,000,000, and include electric generating stations of 1,472,857 H. P. total capacity and extensive natural gas lines and distribution systems. Service is rendered to 1,223,921 consumers.

First and refunding mortgage bonds ($145,000,000 outstanding, including this issue) are secured by a direct first mortgage on important properties owned by a subsidiary company, by a direct mortgage on all properties of the Pacific Gas and Electric Company, subject to the prior liens of underlying mortgages and by $59,598,000 general and refunding mortgage bonds pledged with the trustees.

EARNINGS

Calendar Years	Gross Earnings	Net Earnings	Interest Charged to Operation
1925	$43,066,897	$19,168,185	$ 7,078,183
1926	51,125,990	21,471,515	7,926,006
1927	58,395,812	27,798,967	10,472,974

1930 (12 mo. to May 31)	63,806,514	33,726,293	9,521,394

NOTE: These earnings are exclusive of those of recently acquired companies, the income from which, on the basis of 1929 results and before making allowance for economies to be effected through consolidation, will add approximately $4,400,000 to the net earnings available for the payment of interest on the company's bonds.

The net earnings for the twelve months ending May 31, 1930, as shown by the foregoing statement, were $33,726,293. Annual interest charges on $231,138,200 bonds of the Pacific Gas and Electric Company and affiliated companies (other than recently acquired companies) to be outstanding, including the present issue, amount to $11,690,458.

On the basis of present market quotations the equity above the funded debt of the company, represented by the outstanding common and preferred stocks, is approximately $420,000,000.

Bonds are offered if, as and when issued to and received by us, subject to the approval of our counsel. It is expected that temporary bonds, exchangeable for definitive engraved bonds when available, will be ready for delivery on or about August 15, 1930.

"TIMES" THEATER GUIDE

MOTION PICTURES

Bard's, Eighth between Broadway and Hill—"True to the Navy." For once Clara Bow has more than she can handle.

Boulevard, Washington at Vermont—"On the Level." A modicum of rough humor for those who enjoy Victor McLaglen.

California, Main near Eighth—"A Lady to Love." A capable, though censored, transcription of "They Knew What They Wanted." Good performances by Vilma Banky and Edward G. Robinson.

Carthay Circle, Carthay Center—"So This is London." Will Rogers goes abroad again and finds London as funny as Paris.

Chinese, 6925 Hollywood—"Hell's Angels." It took Howard Hughes four years and $4,000,000 to produce the colossus of the air; and it was worth it.

Criterion, 642 South Grand—"Romance." Garbo more glamorous than ever in a picture not equal to the play.

Egyptian, Hollywood Boulevard—"The Border Legion." One of the best of westerns is made funny and exciting by Richard Arlen and Jack Holt.

Figueroa, Figueroa at Santa Barbara—"The Cuckoos." Some good stuff and much nonsense by Bert Wheeler and Robert Woolsey.

Filmarte, 1228 North Vine—"Asphalt." A ponderous melodrama of assorted crimes sent over from Germany.

Forum, Pico at Norton—"Only the Brave." Nicely done is this story of the old South. Gary Cooper and Mary Brian.

Loew's State, Broadway at Seventh—"Wild Company." A preachment to parents takes on both the comic and the dramatic aspect. With Frank Albertson.

Million Dollar, Broadway at Third—"The Big Pond." A comedy of gum and love. Maurice Chevalier.

Pantages, Hollywood at Vine—"The Big House." An exciting story of prison life well told. Wallace Beery and Chester Morris.

Paramount, Hill at Sixth — "Queen High." A weak transcription of an old stage success, bolstered by the performances of Charles Ruggles and Frank Morgan.

Ritz, Wilshire at La Brea—"The Big Pond."

R.K.O., Hill at Eighth—"The Runaway Bride." Nicely exciting is this romance between Mary Astor and Lloyd Hughes.

R.K.O., Orpheum, Broadway at Ninth—"Dixiana." Bebe Daniels in a musical something of the South and of very uncertain caliber.

Tower, Broadway at Eighth—"Golden Dawn." More music, but what of it? Vivienne Segal.

United Artists, Bdwy. nr. 9th.—"Raffles." Ronald Coleman is a decided hit in a picture much above par.

Uptown, Western at Tenth—"The Social Lion."

Warners' Downtown, Hill at Seventh—"Three Faces East." Good entertainment furnished by the war and Eric von Stroheim with Constance Bennett.

Warners' Hollywood, Hollywood Blvd. at Wilcox—"The Way of All Men." An effective storm spectacle that just misses its point. With Douglas Fairbanks, Jr.

Westlake, 638 Alvarado—"The Cuckoos."

STAGE

Belasco, Hill at 11th—"Rebound." Ina Claire sparkles in various moods, and the dialogue has bright moments.

El Capitan, Holly'w'd Blvd. nr. Highland—"To the Ladies." The lighter side of domesticity provides amusement such as only Glenn Hunter can offer.

Hollywood Playhouse, 1733 N. Vine—"Fata Morgana." Elsie Ferguson charms anew in this dramatic tale by Ernest Vadja. Tom Douglas comes near to being a sensation as the boy.

Vine Street, Vine nr. Hollywood—"Oh, Judge." A musical melange somewhat enlivened by Bernard Granville.

VARIETIES

Follies, 4th and Main—Burlesque.

WATERWAYS OF COUNTRY SURVEYED

Pacific Coast Rivers to be Studied by Engineers of Army

SAN FRANCISCO, July 27. (Exclusive)—What is generally considered to be the most extensive and comprehensive survey of the nation's waterways, leading to the efficient development of their potential water-power and navigation facilities, is one of the major missions now being executed by the corps of engineers of the United States Army, according to recent information received from the War Department by Maj.-Gen. J. L. Hines's headquarters at San Francisco.

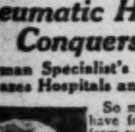
This study amounts to an evaluation of the water resources of the entire United States, excepting the basin of the Colorado River, which is already under investigation by the Bureau of Reclamation in connection with the Boulder Dam project. In the Ninth Corps Area, which comprises the States of California, Oregon, Washington, Idaho, Utah, Montana and Nevada, the project which contemplates four essential points, navigation, power development, flood control and irrigation, will immediately effect such rivers as the Sacramento and San Joaquin in California, the Willamette and Columbia in Oregon, Washington and Idaho, and the Snake in Washington and Idaho, together with many lesser streams in the Ninth Corps Area. Estimated cost of harnessing and training these vast waterways are close to $1,000,000,000, which may be spent in the next twenty-five to fifty years, and would probably result in a gigantic industrial, power and farm expansion on the Pacific Coast.

VETERAN RAILROADER DIES

HELENA (Ark.) July 26. (AP)—Col. John D. Moore, 82 years of age, veteran railroad official, died yesterday in the Army and Navy Hospital at Hot Springs.

Rheumatic Happy; Conquers Torture

German Specialist's Prescription Amazes Hospitals and Physicians



So many thousands have found quick relief from neuralgia, neuritis, sciatica, lumbago and rheumatism thru Nurito that it has now become the standard relief throughout the world. It was discovered by a German Specialist famous for the real speed at which his own prescription banishes pains and aches. He has finally been persuaded to place it at the disposal of the general public through drug stores everywhere. Nurito contains no opiates or narcotics and is absolutely harmless. If the very first three doses of Nurito do not stop the most intense pain even of many years' standing—your money will be instantly refunded.

If you want to feel again the joy of living, banish needless agony, and sleep soundly at night, go to The Owl Drug Co. or Liggett's at once and ask them to let you try Nurito, under this positive money-back Guarantee.—[Advertisement.

Legumes Help Yield of Corn

AUBURN (Ala.) July 27. (AP)—The same field will produce the same yield of corn thirty-four years in succession, provided winter legumes are grown between corn crops, agronomists at Alabama Polytechnic Institute have found.

PLATICAS DE LOS LUNES

POR EL PROF. R. GUERRERO

Encargado de la Sección Española de Este Diario

Al final del primer párrafo del artículo que estamos comentando, dice el señor Spottorno y Topete: ". . . esa feria donde cada caseta es una especie de casa particular, con señores que reciben, atienden y obsequian a sus invitados."

En el pasaje citado usa el escritor con toda propiedad el verbo "obsequiar", cuya significación es, según el diccionario académico, "agasajar a uno con atenciones, servicios o regalos". Significa también "galantear", según puede verse usado en las obras de Bretón, Larra, etc.

En América, además de la acepción castellana de "agasajar", dan a "obsequiar" la de "regalar", "dar", "presentar", poniéndole acusativo de cosa: "Me obsequió mi tío un reloj". Tal uso no es castellano, pero el señor Cuervo no lo condena del todo, y aun apunta la conveniencia de adoptarlo. Véase lo que sobre ello dice en sus "Apuntaciones Críticas": Es neológico el uso que entre nosotros (los bogotanos), lo mismo que en otros puntos de América, se hace de "obsequiar", dándole acusativo de cosa en vez del de persona, que es el régimen propio y natural de este verbo: creemos, pues, que no son castellanas estas frases: "El me obsequió un libro"; "Este anillo me fue obsequiado por don Fulano".

Vamos a copiar unos ejemplos que manifiesten el significado y uso genuinos de nuestro vocablo, y se echará de ver que en los casos puestos sería preferible "dar", "presentar" o "regalar": "Las personas de vuestro mérito, lejos de incomodar, hacen dichoso a cualquiera que las obsequia" (Jovellanos, "El delincuente honrado", acto II, esc. XII); "El conde de Haro, entre varias diversiones que dispuso en Briviesca para obsequiar a aquellas señoras, tuvo fiestas de toros, juegos de cañas, danzas y representaciones teatrales" (Moratín, "Orígenes del teatro español"); "El cristiano los obsequió tres días" (Conde, "Dominación de los árabes en España", pte. I, cap. XV).

No será inoportuno, sigue diciendo el señor Cuervo, mostrar que "obsequio", sustantivo, tiene un valor paralelo al del verbo: "Atendida la calidad del autor, puede creerse que compondría tales dramas en obsequio del rey para privado entretenimiento del palacio" (Moratín, "ubi supra"); "En este mundo, para conservar amigos es preciso tener el valor de aguantar sus obsequios" (Larra, "El castellano viejo"); "Criole con tal pompa y tal regalo, — como si fuera un claro caballero; — Y hasta el momento de morir estuvo — De caricias colmándole y de obsequios" (Angel de Saavedra, "Moro expósito", rom. II).

Está, pues, acorde la práctica de los buenos hablistas con las definiciones académicas, que son a este tenor: "Obsequiar": cortejar, servir, obedecer y dar gusto a alguna persona, que por lo regular es superior. "Obsequio": oficio reverente para servir o contentar a alguno. (Quien escribe estas Pláticas hace notar que ya la Academia, en la última edición de su diccionario, acepta como acepción de "obsequio" la de "regalo", en el sentido de "dádiva").

Podría decirse, termina diciendo el señor Cuervo, que, usando a "obsequiar" y "obsequio" en las acepciones de "dar" y "presentar", "dádiva" y "presente", no se ha hecho más que seguir el mismo trámite por que se ha procedido con respecto a 'regalar' y "regalo"; y añadir que el uso americano añade un matiz de significado nada despreciable. Juzgue el lector.

El día pasado me preguntaba una estimable lectora si debía llevar acento ortográfico sobre la "u" la voz "transeúnte". Le hice observar que en la última edición del diccionario académico aparece acentuada, y que, en mi concepto, está justificada esa determinación, ya que la falta de acento podría inducir a muchos a diptongar las vocales "eu", como en las voces "feudo", "adeudo", "Ceuta", etc. El acento no deja duda de que "transeúnte" es tetrasílabo, como nos lo advierte el señor Cuervo en su obra antes citada: Pronúnciese 'transeúnte" en cuatro sílabas: "Para todo traigo apuntes, — Aunque en baturrillo informe, — En esta cartera enorme — Que asombra a los transeúntes" (Bretón, "Mi dinero y yo", acto I, esc. VIII).

En el segundo párrafo del artículo que estudiamos, dice: "Y gente, mucha gente, más gente que nunca". Con cabal propiedad se ve aquí empleado en singular el colectivo "gente", que con frecuencia se oye usado en plural entre gente de hablar desaliñado, que da a esa voz el valor de "persona", cuando exclusivamente significa "pluralidad de personas", como lo dice la Academia en su diccionario. No debemos, pues, decir, "Han venido a buscarte muchas gentes"; "Esas gentes no tienen sentido común". Hay que usar "gente" en ambos casos. No tiene esta voz más uso plural que en el sentido de "gentiles", en la sola expresión: "el Apóstol de las gentes". También en las locuciones, "derecho de gentes", "don de gentes", "dicho de las gentes".

Consulte el lector, ya con su maestro, ya en el diccionario, el significado de estas locuciones: "bocanada de gente", "ustedes no son gente"; "gente de barrio", "gente de bien", "gente de escalera abajo", "gente de la vida airada", "gente del bronce", "gente de medio pelo", "gente de paz", "gente de pluma", "gente de traza", "gente menuda", "gente non sancta", "Ande yo caliente y ríase la gente", "bullir de gente", "hacer gente".

Two Win Parole; Clara Phillips Plea Postponed

SAN QUENTIN PRISON, July 27. (AP)—The State Board of Prison Directors, concluding a two-day session here today, announced sixty-five cases had been considered.

Two paroles were granted, forty-two future dates set, eight applications for paroles denied and three Mexicans ordered deported. Ten cases were postponed. Among these was the application for a parole of Clara Phillips, Los Angeles hammer killer.

Those paroled were Wesley F. O'Dair, 19 years of age, of Los Angeles, and Fred Miller, 28, Stanislaus county. Both were committed a year ago for second-degree burglary. Both were sentenced to serve three-year terms and were paroled immediately.

METHODISTS OF MEXICO FREED

Church to Be Independent of American Control

Formal Change to Be Made at September Meeting

Emancipation Approved By Both Wesleyan Groups

MEXICO CITY, July 27. (Exclusive)—Establishment of the Methodist church in Mexico as an independent ecclesiastic body, free from the supervision of the American Methodist Mission, which represents jointly the Methodist Episcopal Church, with headquarters in New York City, and the Methodist Episcopal Church, South, with headquarters in Nashville, is announced here by Rev. F. S. Montelongo, one of the principal Mexican elders of the new church.

Formal relinquishment of the American control, and the inauguration of the management by the Mexican clergymen, will become effective at a general conference to be held in September. At this conference organization of the new church and election of the new Mexican bishop will take place.

FRIENDLY RELATIONS

In the opinion of American members of the Methodist Mission, interviewed in Mexico City, a new church will be formed, but it will maintain friendly relations with both the American mother churches, which are responsible for its creation, voted at the last general conference held in the United States. These relations will be maintained through a committee of co-operation to be composed of Mexican clergymen and members of the American missionary boards here, also to be named at the September conference.

Arrangements for the creation of the new church have been made through a commission of unification composed of both American and Mexican Methodists, which conferred here recently.

Bishop F. J. McConnell, New York City, of the Methodist Episcopal Church, and Bishop W. A. Candler, Atlanta, of the Methodist Episcopal Church, South, who to date have been in charge of the Mexican branch, have already turned over the new organization to the Mexican clergymen.

ENTHUSIASTICALLY RECEIVED

Dr. R. E. Diffendorfer, secretary of the board of foreign missions of the Methodist Church, New York, is at present in Mexico City. Dr. Diffendorfer stated harmony prevails among the constituents of the new Mexican church body, and that the new organization has been received enthusiastically throughout Mexico. "The new church marks an epoch in the Protestant church life in Mexico, and a forward movement for evangelism, religious education, Christian literature and prohibition is to be expected," he said.

Mr. Montelongo, who is considered among the principal national Protestant leaders, in making the announcement of the formation of the new church, pointed out that one of the reasons for its creation was that of meeting existing religious laws in Mexico, which prohibit foreign clergymen from officiating except in certain emergency cases where Mexicans are not available. It is held, he further pointed out, that there are now enough Mexicans trained in Methodist work to carry it on without the active participation of Americans. It is also learned that the financial co-operation of the American church will continue.

There are now about 14,000 Methodists in Mexico, and more than 500 congregations, chiefly centered about Mexico City, Puebla, and some of the larger cities in the central part of the republic. There are ten Methodist churches in Mexico City. Methodists operate twelve schools for men and women, four hospitals, one union theological seminary, in Mexico, and represent the strongest Protestant denomination in Catholic Mexico. The denomination has been actively engaged in missionary work in the republic for twenty-eight years.

"What the radio public wants" resolves itself into a gamut through which each artist must be a Capt. Cook, while the air Indians take a crack at him. Instead of a club, it is the telephone, the telegraph or the pen that smacks the artist over or permits him to pass into the Elysian fields of radio popularity.

Radio station managers in surveying public opinion discover the age-old dilemma that the problem is chiefly, "What do the women want?" Scanning the multiplicity of styles in clothes, hats, shoes and husbands, it is verily a tremendous task for the most ambitious program wrangler. In fact, when a uniform style is agreed upon by the ladies of the air there is a slight chance that a survey may show something besides financial and physical effort.

AROUND TODAY'S DIAL

KHJ at 6 o'clock tonight presents Raymond Paige and his symphony orchestra with Pearl Hunter, guest soloist, in thirty minutes of the classic masters. The repertoire will include Mendelssohn's "Fingal's Cave Overture," Saint-Saens's "Danse Macabre," Percy Grainger's "Mock Morris" in symphony and Pearl Hunter sings Bizet's "Michael's Aria" and Beach's "Extase." Lovers of organ music will flock to the dial at 6:30 p.m. for another half-hour, this time with Columbia's premier organist, Jesse Crawford.

At 7 tonight everything from "Old King Cole" by a chorus and strings to "Mah Lindy Lou" and Saraste's "Romanza Andaluzia" will be part of another Raymond Paige concert program. For those warming up to the political fight James Rolph, Jr., speaks from KFRC at 7:30. Blue Monday's Jamboree from KFRC at 8 p.m. threatens to wreck the air. Ranchers with hogs on their premises should muffle the loud speaker or the hogs will come swarming into the front room. KFRC is to hold its second annual hog-calling contest, with entrants from every walk and road of life. KHJ'S publicity shoppe director says there are a number of dark horses included in the twenty-odd entrants. It may turn into a horse-calling contest. However, they are loaded for bear tonight—two hours of everything from hogs to tragedy.

KFI'S OFFERING

KFI features Anna Kristina in a series of Swedish character sketches at 7:30 this evening. The Shell evening program at 8 tonight brings Rudy Seiger and his symphonists featuring special arrangements of several of the standard classics. A host of singers will be guest artists on this chain program. At 9 p.m. Virginia Flohri will be heard in song recital embracing operatic and concert compositions, while 9:30 brings Pryor Moore and concert orchestra with Mildred Laughlin, contralto, as soloist. San Francisco sends its St. Francis dance orchestra down at 11 tonight for an hour of foot demoralization.

KECA on its Family Party at 5:30 p.m. presents David W. Guien, said to be a foremost authority on cowboy and mountaineer music. A cowboy trio will sing. Ray Van Dyne promises at 9 tonight to wield a wicked baton over his orchestra, while Jeanne Dunn sings blues for sentiment and whoopee. And Jean "do sing."

KNX points to 7:08 tonight with wandering Thespians in the opening night of a show they have rehearsed long. At 7:38 tonight Horse Fly and His Wranglers crave your dial, they sing and play as the cows are corralled. At 8 tonight KNX says Georgia Fifield has taken particular pains to make tonight's dramalet a knockout. Two boys in love with a French girl are enough to endanger a dial.

COMIC STRIP OF AIR

KFWB at 12 noon inaugurates a comic strip, "Adventures of Tom and Wash." A blackface act—every day at noon for fifteen minutes except Sundays. "They rely on their inherent naturalness and whimsical Darktown ways," reads the say of it. At 8 tonight France's outstanding woman composer, Cecile Chaminade, is honored with a musical continuity featuring Ray Martinez's concert orchestra. Her "Scarf Dance" will be included in the repertoire. At 9 tonight Tom Brennan is back, opening a new series of his Radio Periscope. The Boswell Sisters and music by Ray Martinez are on the bill.

KMTR wades through superlatives in announcing the "Hollywood Sweepstakes" at 10:30 tonight. Every night except Thursday it will be on the dial—it must be a horse race.

KTM features at 8:30 tonight the drama of one woman's life as it has been set to music, and the woman is Jeanne Du Barry of France.

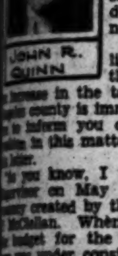
ition Stated in Letter to District Chambers

County Supervisor Quinn of the District announced yesterday that he will vote against any increase in the tax rate of Los Angeles county. In a letter to all the chambers of commerce of his district Mr. Quinn said that "if any revision in prevailing rates is made that revision should be downward and not upward."



JOHN R. QUINN

"I firmly believe that this is no to increase taxes. I am convinced that if any revision in prevailing rates is made that revision should be downward and not upward.

"The county rate last year was per $100 of assessed valuation. The new tax rate will not be until after the primary election. However, as I am a candidate I feel that the people of my are entitled to know my in the matter.

"I am opposed to any increase in Los Angeles county tax rate. I will not only vote against any increase but will work against it officially."

THE GOVERNORSHIP

STRIPPED of nonessentials, the Republican gubernatorial contest now in progress represents the need of California for greater ability, independence and energy in the office of Governor of this State. The need has been demonstrated and is becoming increasingly greater.

A choice must be made by the voters approximately one month hence between the incumbent, C. C. Young of Berkeley, James Rolph, Jr., of San Francisco and Buron Fitts of Los Angeles. There are other candidates, but the likelihood of election for any of them is too remote for conjecture.

Campaign organizations devoted to Fitts, Rolph and Young are working throughout the State, presenting arguments pro and con. It is essential to the interests of the people that the best man be chosen regardless of any other consideration; for the well-being of the people of California, not the political success of Fitts, Rolph or Young, is paramount.

BURON FITTS

On every street corner the casual listener may hear expressions either favorable or unfavorable to any one of the candidates, and opinion differs widely as to which is surest of victory.

The election contest, however, presents no problem that cannot be easily understood and solved by the mass action of California's voters, provided guesswork, sectionalism, misrepresentation and misunderstanding are eliminated in favor of an accurate estimate of the relative abilities and qualities and potentialities of the candidates.

Fitts, Rolph and Young should be judged according to the record—and the ballot box should reflect the conclusions of that judgment.

Mayor Rolph possesses an amiable personality and has a gift for graceful, agreeable and picturesque campaign oratory. He is witty on occasion and ordinarily capable of presenting a pleasing platform appearance. He is a politician of the old school, suave, genial, politic—a typical product of a municipal machine that has run smoothly for many years by following through with routine political methods. He does not possess strong qualities of leadership; he has done nothing to justify the people in elevating him and his municipal machine from the office of Mayor of San Francisco to the Governorship of California.

As a genuinely outstanding administrator and executive Mayor Rolph is largely a myth; a highly colored, pleasant, and at times amusing myth.

C.C. YOUNG

Gov. Young, who resides in Berkeley, is a radically different type of politician from his neighbor across San Francisco Bay. He, too, however, is a machine political product, having been associated for more than two decades with the group of Northern California politicians organized by "Boss" Alex McCabe and Hiram Johnson.

Never at any time in his political career has Mr. Young been the actual leader and spokesman of the clique of politicians with whom he has been identified. His apologists say that he has not been "a bad Governor," but the four-year record of his administration does not in any sense recommend him as a "good" Governor. His administration has been mediocre.

As to Rolph, California does not need the services of an amiable figurehead. As to Young, the State no longer should retain the services of a man who has shown himself under ordinary stress and strain of public responsibility to be hesitant, vacillating and timid.

Fitts is younger than either Rolph or Young; he has shown himself, as Lieutenant-Governor and as District Attorney, to possess exceptional ability as an organizer, as an administrator and as an executive. He is not appearing before the electorate at the end of a long professional political career with little of substantial public service to show for his activities, but comes in the maturity of his young manhood with a strong record already established as a public servant.

During his incumbency as Lieutenant-Governor, Fitts gained valuable insight into the affairs of the State government. Since his election as District Attorney he has administered one of the most important offices in the State with more than ordinary credit to himself. Wholly aside from the fact that the election of Fitts restored to the District Attorney's office the respect and confidence ordinarily due such a public department, it is a matter of record that under Fitts the professional standards of the office have been raised, the efficiency of the office has been markedly increased and the cost of administering the office has been reduced.

JAMES ROLPH JR.

If like methods are applied to the State government through the medium of Fitts as California's next Governor there will be an early and a very material improvement in the condition of State government.

In urging the election of Fitts as a candidate from Southern California on the basis of demonstrated inequalities of government during the long succession of Governors residing in Northern California there is no logical assumption that the election of Fitts will change this condition to the disadvantage of Northern California.

It is true, however, that a change in the system will successfully wreck the machine that placed Young in power, will prevent the Rolph machine from fastening itself upon State affairs, and will send a Governor to Sacramento who owes no allegiance to any machine, north or south, and hence can serve the best interests of all the people without fear or favor.

Fitts has demonstrated his possession of an intelligent, honest, courageous mind. He belongs to the generation of American citizenship that is taking over the helm in business, in economics, in science, in government, in all the constructive agencies of the State and nation.

From all important standpoints, Fitts appears as the logical man for Governor.

RETRENCHMENT PLAN PROPOSED

City Clerk Submits Funds Saving Scheme

Employees to Take Three Days' Pay Cut Per Month

All Departments to Submit Reports by Friday

Due to the tangle in which city finances are enmeshed, all department heads are expected to submit their plans for retrenchment by next Friday, and today City Clerk Dominguez will file his scheme with the City Council. The Civil Service Commission has adopted a resolution setting forth its policy that the retrenchment should take the form of temporary, part-time lay-offs, rather than a general discharge of employees.

Mr. Dominguez proposes that his department, from the chief downward, continue to work day by day, but to accept a three-day pay cut per month. This will save $11,240 for the nine months beginning with September. In addition one emergency position is done away with entirely, amounting to $1760. Thus the total saving in salaries in his department will aggregate $13,000. This plan, Dominguez says, meets with the approval of the City Attorney and has been agreed to by the staff.

LETTER TO COUNCIL

His communication to the Council is as follows:

"Gentlemen:

"It has been unanimously agreed by all the employees of the City Clerk's department that in the matter of personnel or salary reductions in this department, the paramount and outstanding problem is a proper, effective and efficient service to the taxpayer and the general public, and that a wide experience in city government affairs has clearly and definitely demonstrated that such service to which the taxpaying public is justly entitled cannot be rendered with an undermanned or crippled department.

"Having arrived at this self-evident conclusion, the City Clerk in pursuance to the instructions contained in your honorable body's resolution adopted at your meeting of July 8, 1930, has evolved and hereby presents for your consideration a plan which has for its purpose a continued and uninterrupted service to the public, the Council and the administration.

AVOIDS HARDSHIPS

"At the same time the plan reduces the amount of each semi-monthly payroll to an extent which in the course of approximately nine (9) months, commencing with the first of September, 1930, the sum of $13,000, which has been deducted from the salary account of the City Clerk's budget for the fiscal year 1930-1931, will have been made up.

"The plan herewith submitted, which meets with no legal objection from the City Attorney, precludes the necessity of creating extreme hardships on employees and their families by laying them off, permanently, or even for extended periods of time, yet it accomplishes the purpose for which it is intended and maintains an uninterrupted service to the public in the various divisions of the City Clerk's department."

Council Grants More Permits on Venice Drilling

During the past week the City Council has granted fourteen ordinances permitting lot owners to drill for oil in Venice, while thirteen are scheduled to be adopted by the Council today. Eighteen drilling applications were approved by the City Planning Commission during the week and will be considered this afternoon by the City Planning Committee.

Meanwhile, protests against a proposal that the city lease submerged lands of the Venice municipal beach for drilling continue to come to the Council. This matter now is in the hands of the Playground Commission, which has been barred from making the lease, however, by an injunction suit brought by Lewis Stone, the actor. The Beverly Hills Chamber of Commerce and the Southwest Chamber of Commerce have added their voices to the protest against leasing the tidelands.

CROWDED BOAT HITS REEF

Mishap Perils 125 as Craft Crashes Off Catalina; Panic Reigns Until Passengers Are Removed

Tragedy threatened for a time yesterday afternoon to climax the maiden cruise of the new tuna fishing boat Belle Isle when with a party of 125 men, women and children and a crew of six aboard, it ran aground on a reef off Bird Rock on Catalina Island. The panic-stricken rushing of the passengers from side to side almost caused it to turn on its side and cast the passengers into the sea more than a mile offshore.

Private yachts rushed to the scene and succeeded in safely removing all the passengers, but it was not until the forty-three women and children, including the wife and baby of Capt. Gabelich, had been taken off that some semblance of order was restored.

The first yacht on the scene was the thirty-eight-foot power cruiser Betty R, which was about 100 yards away when the Belle Isle struck the reef. Capt. George Ross of the Betty R ran his cruiser right up to the stern of the fishing boat, which had developed a sharp list by the time he reached it, and all the women and children were safely transferred to the comparatively small power cruiser.

Although there was no wind and the sea was fairly calm, it required dexterous handling of the power cruiser and efficient work by the crew of the fishing boat to get the women and children safely over the side onto the deck of the rescue boat.

By the time the women and children had been removed from the Belle Isle other private yachts began arriving. The Betty R took its quota of rescued passengers to a larger yacht, the Faith, and that ship took them ashore at Avalon. The male passengers then were taken off by the Nirvana and other yachts and also landed at Avalon, where arrangements were made to take them all back to San Pedro, where their cruise had started, by water taxis.

The Belle Isle, which is owned by Capt. John Gabelich of Wilmington, is ninety-six feet over all and was only recently completed at a cost of $75,000. Its maiden trip yesterday was not a commercial fishing cruise, but an inaugural excursion for friends of the owner.

It was 2:30 p.m. when the boat went on the reef and it was almost an hour before all the passengers had been taken off. Capt. Gabelich and his crew of five remained on board hoping to be able to get the ship off the reef with the turn of the tide. A first attempt was made to pull it off by another fishing boat, the Old Timer, but it was fruitless.

Shortly afterward, however, the Coast Guard cutter Algonquin, under the command of Capt. Hayes, appeared and got a line aboard the Belle Isle and at 5 p.m. the cutter succeeded in getting the boat to slide off the reef. Although the hull was somewhat damaged, the captain and his crew succeeded in getting the ship safely back to its dock at San Pedro.

HIGH BRIDGE CLAIMS ONE MORE LIFE

Despondent Man Plunges to Death From Colorado Boulevard Structure

The Colorado Boulevard bridge in Pasadena last night claimed its thirty-first suicide victim, when John M. Strang, 76 years of age, 60 South Euclid avenue, Pasadena, mounted the railing of the high span and plunged 130 feet to the jagged rocks of the Arroyo Seco.

Strang's leap was witnessed by a passing motorist, E. G. Isaac of 3145 Glenhurst avenue, Los Angeles. Isaac told Pasadena police he was driving over the bridge when he saw the man climb the railing, but could not stop his car in time to prevent the leap. Pasadena Emergency Hospital attendants found the crushed body on the rocks and said that Strang had met instant death.

A sister of the dead man, Mrs. M. E. Mavor of 360 South Madison avenue, said last night that her brother had been grieving over the death of his wife a year ago and had been in ill health for some time, and as a result of his despondency had frequently threatened suicide. Mrs. Mavor said that Strang left her home Saturday with a threat to kill himself, boarded a bus, but before he could reach the bridge she was able to stop the vehicle after pursuing it in her own automobile. Strang was taken to his home and placed under the care of a nurse, but yesterday when the nurse was off duty he seized the opportunity to slip away.

The body was taken to the Ives & Warren mortuary in Pasadena.

THRONG HAILS DERBY RACERS

Gehlbach Holds Lead as He Dashes in First

Weddell Second in Flight From Douglas, Ariz.

Twelve Left in Contest Will Head East Wednesday

While more than 10,000 throats roared a typical Los Angeles welcome, Lee Gehlbach, of Little Rock, Ark., yesterday set down at Metropolitan Airport his specially constructed, supercharged Cirrus monoplane, following a swift flight from Douglas, Ariz., and thus continued to maintain a safe lead in the all-American air derby which got under way at Detroit on the 21st inst.

Gehlbach made the hop here from Douglas in 4h. 16m. 47s., increasing his total elapsed flying time since the original take-off to 26h. 17m. 25s.

Within ten minutes after Gehlbach landed at the airport, J. R. Weddell of New Orleans, flying Plane No. 17, hove in sight and glided to earth, receiving another ovation. He was followed by Herman Hamer, La Salle, Ill., in Plane No. 5.

Then, at varying intervals during the afternoon, the nine remaining entrants of the twenty-five original starters breezed in from the East and shared in the reception. They arrived in the following order: Lowell Bayless, Cleveland; Joe Mehan, Ironton, O.; Charles Meyers, Cleveland; Harry Ogden, Inglewood, Cal.; Bill Cahill, Cleveland; Cecil Coffrin, Brooklyn; Larry Brown, Los Angeles; Stanley Stanton, Blackwell, Okla., and H. W. Holladay, Los Angeles.

PRIZE MONEY WON

By beating his competitors to the Coast, Gehlbach earned the major share of the $1000 prize money divided among those who finish first, second and third at each control point on the 7000-mile reliability test tour. The landing was accomplished exactly at 12:18 p.m. and rewarded the surging crowds of welcomers for their long wait, they having begun to assemble at the airport early in the morning.

Completion of the first half of the round-the-country derby was the occasion for a gala air carnival given by officials of the airport under direction of Waldo Waterman, general manager. The program included a series of twenty-five-mile races for both men and women flyers, and exhibitions of stunting by Lieut. W. I. Woodring and Lieut. J. Hopkins of the Army Air Corps. Among the interested witnesses on the ground were the four Hunter brothers, who recently established a new world's refueling endurance record of 553 hours at Sky Harbor Airport, Ill., and now are here making personal appearances at a Hollywood theater.

HINCHEY WINS RACE

Flying a Monocoupe, John Hinchey crossed the line first in the men's race conducted as part of the incidental program. His time for the distance was 20m., 14s. In his wake flew Roy Minor to second place. Dixie Davis Hosier finished third. Among the other contestants were Douglas Shearer, brother of Norma Shearer, screen star, and Loren Mendell, who with John Reinhardt established one of the former refueling endurance records at Culver City last year.

The women's race proved an easy victory for Bobby Trout. She flew her Monocoupe home 45 seconds ahead of Melba Garby in a St. Louis Cardinal. Yolanda Spirito was third. Maxine Dunlap was another starter but was forced down by a broken gasoline line north of the airport.

SCHOENHAIR ARRIVES

The derby contestants were preceded into Los Angeles by Lee Schoenhair, official referee of the derby, who is accompanying the planes on the tour as appointee of the American Cirrus Engines Corporation.

WOMAN KILLED IN TRAFFIC

Four Men Near Death After Series of Accidents; Two Drivers Taken in Custody

Traffic accidents yesterday cost the life of a woman and sent four men to the hospital with injuries which in two cases may prove fatal, according to police reports.

Mrs. Anna Reed, 53 years of age, 309 South Westlake avenue, died in St. Vincent's Hospital shortly after being hurled through the windshield of her husband's car when it crashed into a telephone pole at Valley and Ocean View streets. The husband, Harry L. Reed, told Detective Lieutenant Hickey the steering apparatus failed to work as he attempted to turn a corner. He escaped unhurt.

K. N. Gitt, 60, 406 South Avenue 56, received probably fatal injuries when a truck knocked him down as he alighted from a street car at Avalon Boulevard and Merrill street. He has a skull fracture, broken left leg and is suffering from shock. The truck was driven by Raymond Lovell, 16, 2116 Loma Vista Place. Police held him pending investigation.

Another pedestrian not expected to live, according to surgeons, is Louis Spencer, 41, 945 East Forty-first street. He stepped from a street car at San Pedro and Twenty-fourth streets and brushed against the side of a taxicab driven, police say, by Albert Webb, 310 Branch street. Spencer's skull is fractured.

Mike C. Peralta, 27, 302 North Eastman avenue, suffered a possible skull fracture when his car collided with a street car at Slauson avenue and Avalon Boulevard. Louis Romera, 29, 837 Bunker Hill street, a

THE perfect target score made by the West Virginia will be read with interest in foreign navies. Our ships have been polished to a high state of efficiency.

We will never be caught again as we were in the Spanish-American War—which was the low-water mark for both the Army and Navy. It is doubtful if any nation in any war ever made such a pitiful spectacle of itself.

That time when Dewey stopped the Battle of Manila to serve breakfast was a tip-top newspaper story; but the truth was the ships were not hitting anything and Dewey stopped the farce to find out why.

THE TRAPPERS

The trappers were the first pioneers; they are the last.

It is still a profitable job in Alaska.

In 1928 (the last reckoning) there were 335,960 skins shipped out of Alaska in a single year. Among these were 197,957 muskrat skins; 26,907 red fox; 708 silver fox; 32,353 mink; 10,253 weasel (known commercially as ermine.)

The most valuable skins were silver fox, $121; blue fox, $68.52; polar bear, $62; the ermine (weasel) was only $2.04, and the cheapest fur shipped was the squirrel at 17 cents per pelt.

GUESS THE CLOTHES

These tumultuous changes in women's fashions are tough on movie stars.

It is not only necessary that their clothes be the very last word in fashions; but they have to determine by some seventh sense of prophecy what the height of fashion will be five or six months ahead when the picture is released.

THE PROCESS OF EATING

Among the other mysteries of life and death is why people "dice" vegetables. My lowest abomination is a "course dinner"—with a little trickle of soup and a little dab of salad and a little patch of vegetables which look as though somebody had been chewing on them; and a little piece of meat and a little piece of pie.

If I want soup, I want a lot of soup and bread and nothing else. And when the inspiration comes to eat vegetables, I want to eat as the Indians do with squash roasted in half-squashes and have nothing else but corn; the two have always gone together.

ENDURANCE CONTESTS

Now that endurance contests are the rage, I have one to suggest.

After they have sat in the trees and on the backs of ponies and so established new world records, how would it be to see who can get a good worth-while job and hold it the longest?

FIRE WHEN YOU'RE READY

I seem to have all but started another World War by meekly suggesting a list of some books that I like to read.

In the circumstances I might as well bring down all the wrath that is left on my head by saying that the book I have read and reread more than any other is Willa Cather's "My Antonia." I like that and "Growth of the Soil" and "Great Pasture" the best of any novels I have read.

BROTHERS HELD AFTER BATTLE

Accused of Beating Man in Domestic Tangle

Asserted to have aided his brother, Charles Brown, in administering a beating to Harry R. Tipton of Garnet when they discovered Tipton visiting Mrs. Charles Brown in her home at 2630 South Hobart Boulevard shortly after midnight yesterday, William J. Brown, 37 years of age, an attorney of 2717 La Salle avenue, was arrested on suspicion of assault with a deadly weapon. The husband is in jail on the same charge.

The report of Officer Robinson of the University division stated that Mrs. Nellie Brown, recently separated from her husband, was seated in the living-room of her home with Tipton when her husband and his brother appeared at the front door. Despite her protests they forced their way in, the officer's report said, and in an ensuing argument Brown obtained a revolver from a bedroom bureau and fired one shot at his wife as she fled to the kitchen. The shot went wild and Tipton sprang upon Brown.

Tussling about the house Tipton succeeded in wresting the weapon from the enraged husband. He then was set upon by the Browns, Robinson said, and beaten severely. In the meantime, neighbors hearing the sound of the shot and the noise of the fight, telephoned to police. When Robinson and a squad arrived they took the Brown brothers into custody.

The Browns, contrary to the story told by Mrs. Brown and Tipton, declare that Tipton obtained the revolver and fired a shot at them as they struggled for possession of the weapon. Detective Lieutenant Stone is investigating.

Changes Urged in Psychopathic Parole Work

After extended study, the special committee of the County Public Welfare Commission yesterday announced in a report that, while there is no serious defect in the present system of caring for patients in the psychopathic hospital, there is opportunity for important improvements in psychopathic parole work.

"The first and most substantial of these," the report sets forth, "is the appointment on salary of Dr. Victor Parkin as consultant and psychiatrist of the psychopathic parole department."

The committee a is of the belief it should be continued to carry further its study of the needs of the psychopathic parole system.

JULY'S ROBBERY TOTAL MOUNTS

Victim Shot Twice When He Dodges Behind Car

Auto Theft Suspect Felled by Irate Victim

Four Drug Stores Included in Places Visited

Swelling the total number of robberies to date this month to 104, an increase of twenty-four over last month and thirty-one over the same period last year, bandits shot one victim twice, held up sixteen other citizens and obtained more than $600 in cash and $1000 in jewelry in a series of week-end robberies.

Coincidence played a heavy part in the tribulations of Jack Neelon, 21-year-old auto-theft suspect who was lodged in the Hollywood jail early yesterday following his wounding and capture by the owner of the automobile he is charged with stealing, and his identification by a citizen as the driver of a machine figuring in an early-morning hit-and-run accident.

While the youth was being booked on auto theft charges, Sidney Martin of 1408 North Normandie avenue arrived at the station to report that his car had been damaged by a hit-run driver and promptly pointed out Neelon as that driver.

WOUNDED IN HIP

Neelon was wounded in the right hip by two shots from a revolver in the hands of Russel Shearman of 1300 North Sycamore avenue. Shearman told police that when he missed his car from in front of his residence shortly after midnight, he got into his wife's machine and began a search of Hollywood's streets to find the thief. Near Gower and Salem streets he saw Neelon. Running his quarry into the curb, he attempted to arrest the youth, who fled on foot but was felled by two bullets.

Sherman then bundled his prisoner into his car and drove to the police station. Neelon was removed to the prison ward at General Hospital. His condition is not considered serious, police surgeons said.

Lawrence H. Patregren of 4015 Baywood avenue was the victim of a lone bandit's bullets. He was shot in the left hand and leg. The attempted robbery occurred at Brunswick avenue and Chevy Chase Drive.

Patregren was riding in an automobile with Joe Hernandez of 4006 Baywood avenue. With them were Miss Jennie and Miss Tilor Hernandez, and Miss Catherine Garcia and Miss Susie Negretel of 7651 Havenhurst avenue. At the above intersection, as Hernandez slowed his car, a man described as a swarthy Mexican stepped on the running board. In each hand he held a .45 calibered revolver.

GIRLS WALK AWAY

"Give me your money," he demanded. Hernandez and the girls had no valuables and the bandit made them get out of the car and walk down the street.

Patregren, with only a small amount of change in his pockets replied that he had no money and, observing a threatening gesture on the part of the bandit, attempted to dodge behind the car. Both of the desperado's weapons roared at one time and Patregren fell to the street. The bandit then pocketed his guns and fled on foot. Patregren was taken to the Glendale Receiving Hospital.

BARBER ROBBED

J. Jecker, proprietor of a barber shop at 1882 West Washington street, was the heaviest loser in the other robberies. Two bandits held him up in his shop and robbed him of $10 in cash and jewelry valued at $1000.

A lone bandit held up C. H. Warnack in his pharmacy at 4130 West Jefferson street and robbed him of $20.

V. M. Ortiz, in another drug store at 1193 North Normandie avenue, was the victim of a bandit who robbed him of $70.

Within a few minutes after he alighted from a street car at Avalon Boulevard and Forty-eighth street, Frank M. Rubin of 501½ East Forty-eighth street, reported he was stopped by two auto bandits and robbed of $30.

A solitary pedestrian bandit walked up behind James Bernon of 326¼ South Spring street at Fourth and Los Angeles streets, thrust a gun against his back, and plundered his pockets of $12.

Forced in to the curb at Normandie avenue and Sunset Boulevard, F. L. Clark of 2231 Hyperion avenue reported he was robbed of $80 by another lone bandit.

MALT STORE ROBBED

Silver coins amounting to $132 were taken from C. Simms in his malt store at 3543 Glenhurst avenue by a pair of bandits operating in an automobile.

Two gasoline service station robberies also were reported. J. L. Dory in a Van Fleet and Durkee station at 201 East Washington street lost $20, and Ray Wheaton at 7201 South San Pedro street lost $25.

Believed to be the same bandit who held up the other two drug stores, a youth flourished a revolver at Max Lebstein in the Havenhurst Pharmacy at 5200 Santa Monica Boulevard and robbed him of $150.

Two Negro bandits entered a fourth drug store, the Rose Pharmacy at 5100 Hollywood Boulevard, and obtained $70.

"SHOOT TO KILL" ORDER GIVEN

War Declared Against Alien Bird Pest

Fruit Destroyer Slain

Miss Jean Cuba and Asiatic Mina killed in County Agricultural Bureau's campaign of extermination.

IF YOU happen to see a Tech Acridotheres anywhere in your strolls about Los Angeles, you, as a good citizen, are expected to do one of two things, viz., either shoot it on the spot, or rush to the nearest telephone and notify County Agricultural Commissioner Harold J. Ryan.

The Tech Acridotheres, also known as the Asiatic Mina, is a bird, but an undesirable alien nevertheless. It has many vices and few virtues, according to ornithologists, and its worst fault is its tendency to destroy fruits. It also has a weakness for ousting other birds from their nests and otherwise making itself obnoxious to man, birds and beasts.

Thus far six specimens have been found in Los Angeles and all were quickly exterminated by agents of the County Agricultural Bureau. The Asiatic Mina exists in great numbers in the Hawaiian Islands, but is said to be extremely rare in the United States. Originally it was native to India, but in recent years it has spread to all parts of Europe and Asia.

It is slightly smaller than the crow and its head, neck and upper breast are black, except for a small, bare yellowish area around its eyes. The rest of its body is Quaker brown, with a broad white wing bar which is especially noticeable in flight. Its beak looks as if it might have been dipped in mustard and its call is a cross between that of the mocking bird and the meadow lark.

The presence of the bird in Los Angeles was first reported to Dr. Loye Miller, professor of biology at the University of California at Los Angeles, by a student. Dr. Miller made a personal investigation and notified the agricultural commissioner, urging its extermination.

SOUTHLAND ADJOURNS TO BEACHES

Record Crowds Reported at Many Places, With Traffic at Year's Peak

Los Angeles and Southern California moved en masse to the beaches yesterday. The Pacific strand from Malibou to Dana Point saw the largest crowds of the year, according to officials. Traffic also was reported as being the heaviest of the year.

With temperature reaching a maximum of 84 deg. at 12:30 p.m., the Weather Bureau here predicts a repetition of the same brand of weather again today with possibly decreasing humidity.

Seal Beach, Huntington Beach, Balboa, Laguna, San Clemente and Dana Point reported the largest crowds of the season, not excepting the huge turnouts of July 4. At Redondo, Hermosa, Manhattan and Santa Monica as well as Venice beaches, big crowds were present but not in record-breaking numbers, according to reports.

Thousands of people made the occasion one of a two days' outing and the roads near Newport Beach were jammed with a stream of cars commencing early Saturday morning and continuing most of the day. Campers thronged the municipal camp grounds and filled every available portion with pitched tents.

TRAFFIC SMASH KILLS WOMAN

passenger in the machine, received cuts.

Victim of a hit-and-run driver, Frank Scheiber, 54, of 923 East Ninety-seventh street, was taken to the Receiving Hospital suffering from shock and a fractured left leg. The accident occurred at Twelfth street and Central avenue.

Two motorists with numerous prior arrests for reckless driving, according to the investigating officers, were arrested early yesterday morning. They are Roscoe E. Hooton, 34, of 1540 South Hoover street, and Arthur R. Wilson, 43, of 711 Euclid avenue.

Hooton was taken in custody at Pico street and Bonnie Brae avenue by Officers Cullens and Spencer for being drunk in an automobile. A companion, Roy Roberts, 29, was held for common intoxication.

Hooton, the officers say, was first arrested as a hit-and-run driver May 17, 1928, and was given three years' probation. On December 13 of the same year he was arrested for being drunk in an automobile and again on May 18 this year on the same charge. In the latter case he received a fifteen-day sentence. On June 25 he was arrested again on the same charge and paid a fine of $40, according to the officers.

Wilson was arrested at Washington Boulevard and Figueroa street for suspicion of driving while intoxicated by Officers Hardley and Matthews. The latter reported that Wilson had twenty-one prior arrests for traffic violations.

Martha Sherwood, 16, 343 Isabel street, Glendale, is in a serious condition in the Redondo-Hermosa Hospital as the result of injuries sustained yesterday afternoon at Twenty-sixth street and Hermosa avenue, in Hermosa, when she was struck by a car driven by Margaret Rendzik, 6609 South Figueroa street, Los Angeles. The injured girl received a broken back.

Milk Fee Asked for Inspection

An ordinance levying an annual fee of $3 on all dairies and milk producers, who ship milk into Los Angeles will be proposed to the City Council today in a report from the Health and Sanitation Committee, according to Councilman Williams, chairman.

This method, says Williams, will produce an annual revenue of $7000, and will cover the expenses of milk inspection, without cost to the city, and, he feels, without raising the price of milk.

JULIAN TRIO LIKELY TO BE DELAYED

Fraud Case Appearance Scheduled for Today But They're Not Expected

Three men, all convicted and serving prison sentences, were supposed to appear today before United States District Judge James to have their case, in which they are accused of using the mails in a scheme to defraud, set for trial. It is not expected they will appear, however.

The three are S. C. Lewis, former president of the Julian Petroleum Corporation, now serving a term of seven years at McNeil Island Federal prison; E. H. Rosenberg, serving a term in San Quentin prison on a bribery charge, and Jacob Berman, serving a term at McNeil Island, but now in the Los Angeles County Jail in connection with other cases involving him.

It was stated by Asst. U. S. Atty. Redwine that the case probably will not be set for trial today, as the government can take it to trial at any time. Berman was convicted on a State charge last Friday. He is awaiting sentence on that charge.

sponsor of the flight. He was welcomed officially by Waterman, Joe Nikrent, timer, Earl Ovington, pioneer air-mail pilot, and Larry Thirkelson chairman of the contest board of the National Aeronautical Association. The latter will serve as local referee and aid to Schoenhair during the racers' stay here, and Ovington will act as official starter when they resume the flight.

Metropolitan Airport now will remain the focal point of the derby until Wednesday, the pilots resting up and sight-seeing in the interim while their planes are being subjected to complete overhauling. Wednesday they will hop off again on the return to Detroit by way of Ogden, Omaha, Lincoln and Chicago. The ultimate winner will receive $15,000, with prizes of $7000 and $3000 going respectively to the runner-up and third place. Lap prizes throughout the tour total $16,000, of which yesterday's $1000 was contributed by the local airport.

Until take-off time at Douglas yesterday the derby survivors numbered thirteen, the list being reduced when Stub Quinby of Moline, Ill., was eliminated a moment after crossing the starting line. His plane struck a shallow ditch, caused by recent rains, and turned over. The plane was wrecked, but Quinby escaped injury.

Another who for a while faced forced retirement at Douglas is Stanton. His plane developed engine trouble five minutes after the take-off and he was compelled to return to Douglas for repairs. Mechanics quickly conditioned his machine and he made a fresh start, the precious minutes lost being added to his elapsed time.

MISSING FLYER GAVE UP AND STARTED HOME

OAK PARK (Ill.) July 27. (AP)—Edgar Todd, missing Pueblo (Colo.) flyer, was located today at the residence of Mrs. Grace Findiesen, widow of his former flying partner. Todd explained frequent delays had made him lose so much time in the all-American Air Derby, in which he was an entrant, that he gave it up and started home.

Ban on Begging Urged of Council

An ordinance prohibiting street begging in Main, Spring, Broadway and Hill streets between Third and Eighth streets is suggested by the Downtown Business Men's Association in a communication filed with the City Council.

The Council referred the matter to the Police and Fire Committee.

MAP SUBMITTED

The assessment district map for the improvement of La Mirada avenue from Cahuenga Boulevard to Seward street has been submitted to the City Council by the City Engineer and referred to the Public Works Committee.

PROPERTY SALE URGED

The Fire Commission has recommended to the City Council that the fire department's property at 1218 North Vine street be offered for sale. The matter was referred to the Finance Committee.

STATE COUNCIL TO MEET HERE

Sessions Tomorrow and Wednesday Scheduled

Department Directors Will Receive Citizens

Reports to be Presented to Governor

Gov. Young and the directors of the thirteen State departments will hold their third semiannual Southern California session of the Governor's Council in the Assembly Room on the first floor of the City Hall tomorrow and Wednesday.

Directors will present their reports Tuesday morning and afternoon and Wednesday afternoon. Wednesday morning has been set aside for conferences between directors and citizens interested in any department. The conferences will be held in the Associated Realty Building, at Sixth and Olive streets.

CONFERENCE ROOMS

Directors, their departments and the rooms in which they will be available for interviews Wednesday morning, beginning at 9 a.m., are as follows:

Director Hecke, agriculture, Room [illegible]; Kersey, education, 1127; King, finance, 1017; French, industrial relations, 911; Jensen, institutions, [illegible]; Wood, investment, 1002; Bixby, military affairs, 1121; Stevenot, natural resources, 1119; Johnston, penology, 1127; Collins, professional standards, 422; Dickie, public health, 821; Meek, public works, [illegible], and Mrs. Saylor, social welfare, 1106.

OTHER REPORTS

Directors Meek, Saylor, Hecke, Kersey and King are scheduled to make their reports tomorrow morning.

Tomorrow afternoon Directors French, Jensen, Wood and Bixby are to report. The concluding session on Wednesday afternoon will bring reports by Directors Stevenot, Johnston, Collins and Dickie.

The Governor's Council is required by law to meet with the Governor once each month to report upon the work and progress of the respective departments during the preceding month. The sessions are public.

CLUBWOMAN DISCOVERED IN HOSPITAL

Missing Moneta Resident Found to Have Suffered Stroke on Way to Market

Mystery enveloping the disappearance of Mrs. Lucille Stephenson, 40 years of age, reputedly wealthy Moneta clubwoman, was cleared yesterday when deputy sheriffs announced they had located her in the Torrance Memorial Hospital. She was received there Friday, they learned, suffering a paralytic stroke with which she was stricken after visiting a neighborhood grocery store.

Circumstances under which Mrs. Stephenson was removed to the institution were kept secret at the hospital, information being refused by a woman attendant. From the Sheriff's office report, however, it is believed she felt the attack seizing her and brought her automobile to a stop before becoming helpless. Then, it is understood, pedestrians went to her assistance and took her to the nearest hospital.

Whether Mrs. Stephenson's condition is regarded as serious was not announced. The woman attendant at the hospital stated merely it was "unchanged."

Mrs. Stephenson had been seen last Friday morning when she drove away from her home at 1632 Market street, Moneta, to do a market errand. When she failed to return an all-night search was conducted by police and family friends without success until a check-up of all hospitals revealed her whereabouts late Saturday. She is the wife of Lawrence Stephenson, general manager of the Moneta Water Company, and former president of the Commercial National Bank of Moneta.

FIREBREAK FUNDS RESTORATION ASKED

The Board of Fire Commissioners has asked the City Council to restore to the budget a deduction of $50,000 for the construction of firebreaks, so that that work can go ahead at once. The Council sent the communication to its Finance Committee.

★ SUCCESS YEARS

★ Man's most productive years are 40—50. Yet the health curve begins to drop at 40 with the average man. Read how this health curve can be prolonged to 50 and over. Protect your 10 "success years".

Why a prevalent "after 40 ailment" robs 6 out of 10 of success and health. Many needlessly so.

THE average man's most productive years are between 40 and 50. During this span he "cashes in" on the preparation years preceeding. Chart the income curve of the man who has properly prepared in earlier years, and its biggest upward curve begins at 40.

But...statistics prove this life's most tragic paradox. Over half of those equipped to achieve success, fail because of health breakdown. *The ten most productive years lost!*

Doctors trace the cause, in many cases, to the most prevalent after 40 ailment...*kidney breakdown*. 6 out of 10 men and women are affected. Caused, they say, by overwork of these vital organs. To eliminate 75% of poisons is their daily task. Constant wear and tear begins to show at 40. Delicate kidney cells wear out. Then comes improper functioning, gradually undermining health.

Eminent medical authority now prescribes 6 glasses of Puritas Water (mineral-free) each day. It acts to dilute poisonous waste, absorb and carry it off, without leaving congestion-forming mineral deposits. Thus it eases the burden of kidneys and protects their normal functioning.

Puritas is scientifically distilled and aerated. All impurities and minerals are removed, the purest water obtainable. Though its taste seems *different* at first, each drink you'll enjoy increasingly.

Telephone WEstmore 0381 today for immediate Puritas delivery, anywhere in Southern California. An iceless cooler furnished free.

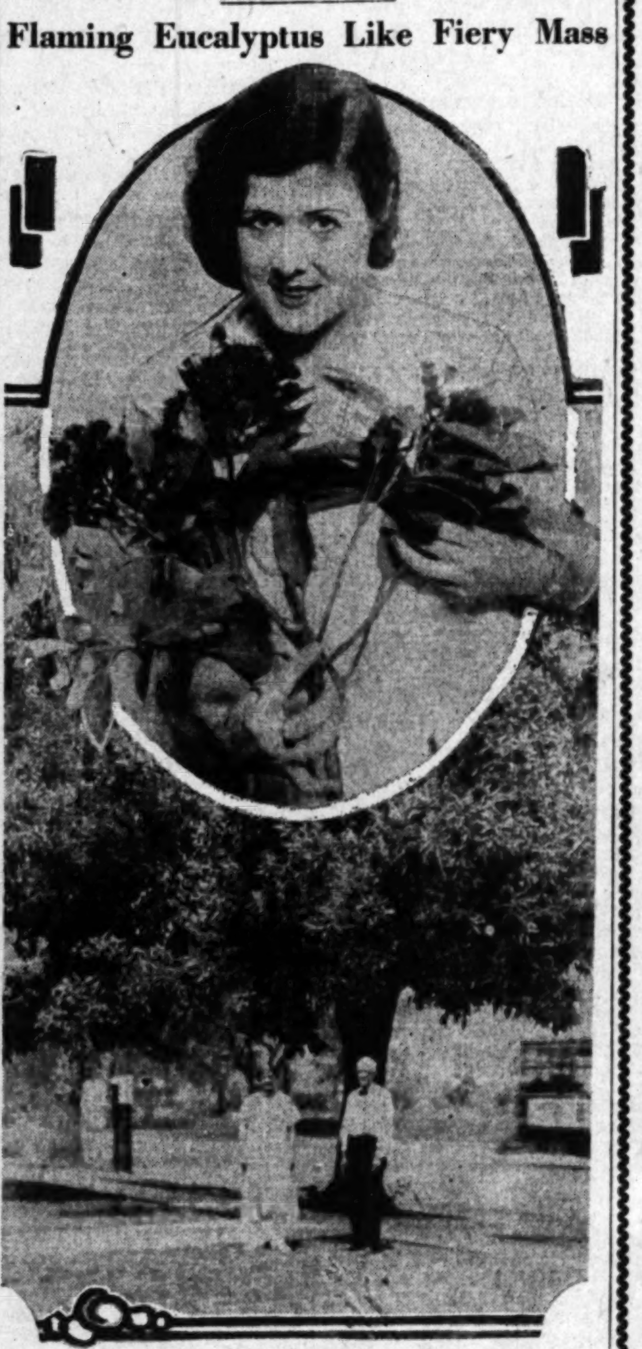
TREE "ABLAZE" WITH BLOOMS

Flaming Eucalyptus Like Fiery Mass



Exotic Growth Gets Much Attention

Mr. and Mrs. Charles F. Fisher standing beneath colorful tree in front of their home at 6004 Franklin avenue and (inset) Miss Gertrude Cudworth with cluster of flame-colored blooms.

A FLAMING eucalyptus tree, ablaze with gorgeous red blossoms, stands in front of the home of Mr. and Mrs. Charles F. Fisher, 6004 Franklin avenue. It is one of the largest trees of its kind in Hollywood and is attracting considerable attention not only from visitors, to whom the tree is strange and exotic, but from neighbors as well.

This is the month of the most gorgeous blooms, although the tree has been in flower for several weeks and will bear blossoms until December.

Record-Holders Visit Colleague

Just as one endurance man to another, Salvator Scarpita, Jr., 11 years of age, 2684 North Beachwood Drive, who has been sitting in a tree for 264 hours, at 3 o'clock yesterday, assured the four Hunter brothers, endurance flyers, who visited him, that their record of 553 hours in the air is not going to be broken by him.

The two record-holding Hunter boys climbed up the tree and visited him on his perch. The attendant pair refueled him, sending up a couple of oranges and an all-day sucker.

TROLLEY-BUS JOINT FARES PROCLAIMED

Motor Transit Purchase by Pacific Electric to Result in Interchange

A joint ticket arrangement between the Pacific Electric Railway and Motor Transit will become effective August 1, D. W. Pontius, president of the railway company, announced yesterday. Under the new plan purchasers of round-trip tickets from seventeen cities of Southern California may travel one way to Los Angeles via the cars of the Pacific Electric and return by Motor Transit coaches or vice versa.

The interchange of tickets applies to the following towns: Rosemead, El Monte, Pomona, Etiwanda, Rialto, San Bernardino, Redlands, Colton, Riverside, Yorba Linda, Orange, Santa Ana, Glendale, Long Beach, Huntington Beach, Corona and Arlington.

Mr. Pontius states this new ticket arrangement is made possible through the recent purchase of interest in Motor Transit Company by the Pacific Electric. An intensive study is now being made of service rendered by the two companies in order that other advantages may be passed on to the rider.

Woman Doctor Here From China

Chinese women are turning rapidly to the practice of medicine and now number many scores of doctors in the republic, according to Dr. Yuk Yi Leung, one of them. Dr. Leung arrived on the Dollar liner President Cleveland yesterday.

She was graduated last year from Hackett Medical College at Canton, founded by the late Dr. Mary Futon of Los Angeles, and after a week's visit with Dr. and Mrs. W. A. Coleman, 1427 Norton avenue, will take two years' post-graduate work in gynecology and obstetrics at the University of Pittsburgh.

"Obstetrics is the crying need of China today, and many of us women are specializing in it," she explained.

THOMPSON FUNERAL TODAY

Funeral services for Dr. Charles E. Thompson, Los Angeles physician and a pioneer resident of California, who died Wednesday at his home, 601 West Fifty-second Place, will be conducted at 10 a.m. today at the L. F. Utter chapel, 4254 South Broadway. Interment will be in Forest Lawn Memorial Park.

Today's Bible Text

And let the peace of God rule in your hearts, to that which also ye are called in one body and be ye thankful.—Col. iii, 15.

OFT MARRIED

A New Jersey woman has married the same man four times within the span of six months. She must think she likes him. Anyhow, he must have winning ways.

ARMS AND THE WOMAN

In the recent tournament for the King's cup it was found that the best rifle shot in England is a woman. She had a score of 280, which was one point better than any mere male could show. The man who weds this lady takes desperate chances.

THE MARKET BASKET

It is whispered that the price of beef to the consumer is due for a drop. The stocks on hand with the packers are said to be heavy and a lot of folks are declared to be shy on their accustomed beef ration. It must be remembered that the beef men have a great deal at steak.

MANY MEASURES

During the full sessions of the last Congress a total of 19,284 different bills were offered for passage. Of this huge number 927 were actually passed. Seven were vetoed. It is well for the rest of us that comparatively few of the measures submitted by our legislators ever become laws. We have more laws than we need as it is.

THE HIGHEST EVER

Al Smith is at the head of the company putting up the Empire State Building in New York and the tower of it will rise to a height of 1222 feet. This should give a fine view of all Manhattan. On top of this comes the announcement that Chicago proposes to run up a Lindbergh tower 1320 feet high. That would be the greatest human effort to reach the golden city at the hands of the architects. Some of these modern operations would make the Tower of Babel look like a hole in the ground.

MUCH READING MATTER

The Congressional Library at Washington now contains over 4,000,000 volumes and is possibly not surpassed by even the great libraries of London and Paris. Counting pamphlets, papers and other items there are more than 6,600,000 numbers on the list. The library receives nearly 800 newspapers every day and most of these are subsequently bound. No wonder it is necessary to build a vast addition to the institution. There are lots of Congressmen who haven't read half the books in the library.

TREE SITTING

Although the tree-sitting craze has not struck this Coast very hard, only sporadic instances of it having been reported, it is much in evidence in the East and Midwest, where boys and girls are now perched on the limbs of trees, some of them as high as they can climb conveniently and others nearer ground. Indiana has an epidemic of tree sitting and it is getting worse daily. The Indianapolis News says that for every contestant reported down two have gone up. The tall sycamores along the Wabash are dotted with ambitious youths anxious to make endurance records. One Indianapolis boy has been perched up in a high eyrie for 125 days. A girl of 15 in the neighborhood is out to wear the crown of national limb rooster and has been up in another tree 122 days.

The surgeon-general of Indiana has issued a warning to parents not to permit their offspring to try for tree-sitting records. He says they may do themselves great injury by remaining still on limbs for long periods. The accident-prevention bureaus of different Midwestern cities are sending out officers to demand that the children descend from their perches. This is because in a few instances boys and girls have gone to sleep in their arboreal roosts and have had rude awakening on solid ground.

Children mimic their elders. Tree sitting is simply a variation of the pole-sitting nonsense. It is difficult to make small boys and girls see how silly and dangerous it is to roost day after day in trees when older people mount tall poles to demonstrate what complete and perfect morons they are.

JACK BENNETT CONVICTED

Jacob Berman, alias Jack Bennett, "bright boy" of Spring street and one of the two principal wreckers of the Julian Petroleum Corporation, has been convicted by Superior Judge Schauer of three counts of forgery of Julian stock certificates and so will, if his conviction is upheld, taste at least a part of the penalty California law provides for such offenses as his. He may, if the court so decides, be required to serve one to fourteen years on each count, after his term is up at the McNeil Island Federal Penitentiary.

For some of his other offenses in connection with the wrecking of this company and the losses thereby caused to 40,000 stockholders, Bennett has atoned in part by turning over his knowledge to the State, and his aid in the conviction of jury bribers and of a recreant District Attorney has been invaluable. It must have been with great regret that Dist.-Atty. Fitts, with the consent of the courts, obtained immunity for him in most of these cases, but it seemed, and probably was, true that these convictions could have been obtained in no other way. At San Quentin, Bennett will have plenty of company sent there through his testimony and through the information he furnished.

It happens that this first conviction registered against him in the courts of California is on the first indictment that any grand jury found against him here. Included with the forgery charges was a charge of embezzlement, on which Judge Schauer found Bennett not guilty, proof being lacking that Bennett had converted the particular sum in question to his own use. The indictment hung fire all through the Keyes regime and was one of those on which the former prosecutor was accused of inaction for a consideration. There is a sort of poetic justice, as well as legal justice, therefore, in Bennett's conviction upon it.

Dist.-Atty. Fitts promised the courts and the public that he would cause Bennett to be prosecuted on at least one major charge, at the time he took steps to bring him back from Federal prison, and his promise has now been kept. In all probability, it is the only charge on which either of the principals in a gigantic fraud will ever serve time, S. C. Lewis, who was president of the collapsed corporation and nominal, if not actual, director of Berman or Bennett's activities, having been acquitted of the charge of jury bribery on which he faced trial recently, and having been acquitted during the Keyes regime of the actual wrecking. All the other charges against Berman or Bennett have now been dismissed, as a reward for his assistance to the prosecution. Both Bennett and Lewis were convicted and are serving Federal penitentiary sentences on mail-fraud convictions covering their operations in another company.

In spite of this assistance, for which the State of California has paid a good price, there will be general public satisfaction at the outcome of this case. For one thing, it proves that pursuit of the Julian wreckers was actually not diligent under Asa Keyes, and removes the Keyes contention that there was not enough evidence on which to proceed. It also means that somebody is going to be punished for a conscienceless and nefarious scheme, which succeeded in large part through its very boldness. These forgeries were part of the tremendous overissue of shares which broke the market, negatived the support given by pools and involved the corporation in difficulties from which it could not be extricated. They were the crux of the real Julian crime, the very heart of the fraud, and that they should go unpunished would rightly have been regarded a reproach and a disgrace. Finally, it disposes of the silly talk that Fitts has done more for Bennett than the minimum which the latter's turning of State's evidence required.

Dep. Dist.-Atty. McCartney, who conducted the prosecution, is entitled to congratulations upon his success.

EFFECT OF DIET CHANGE

America is going in for "greens." It is all due to the repeated urgings of dietetians that we consume less meat and more vegetables, more vitamins and fewer calories. Many of us who were never addicted to the spinach habit in former years lately have acquired it.

A great change has been made in the family menu in the last few years. In order to ascertain the extent of it and its bearing upon national economics the Department of Agriculture detailed an expert named Dr. O. E. Baker some months ago to inquire into the matter. His report, just issued, shows that since 1916 the shipments of vegetables have increased 140 per cent, though the population has increased only about 15 per cent.

Dr. Baker's estimate does not include the local movements of vegetables by trucks or other vehicles, nor does it include the product of kitchen gardens. What it shows is that we are now consuming vegetables in a much greater proportion than formerly and that, due to modern refrigeration on the railroads, the country beyond the Rockies is getting them throughout the year in ever-increasing shipments.

In 1916 only 4700 carloads of lettuce were transported by rail, but of late years 50,000 to 55,000 have been moving annually. Last year 35,673 cars of lettuce were shipped out of California. This State now produces practically all the canning asparagus used in this country and about 45 per cent of the asparagus used fresh.

The fourteen southern counties of the State produce 35 per cent of the carload lot shipments of lettuce in the United States, 55 per cent of the cauliflower, 32 per cent of the carrots, 18 per cent of the cantaloupes and 11 per cent of the dry beans.

California is a great consumer of its own vegetable products. Perhaps it is because it is so near the source of this supply that Los Angeles is reported as among the leading consuming markets of vegetables, being exceeded only by New York and Chicago. So it is seen that, proportionately speaking, we are going in for "greens" at as lively a rate as any of 'em.

MODERN MIRACLES

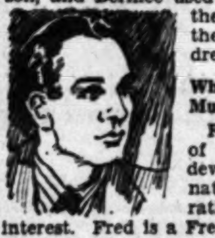
"Bishop Cannon Weds Quietly," headline informs us. The lull in the battle, as it were.

The LEE SIDE O' L.A.
BY Lee Shippey

THOUGH motion pictures have brought stars from all over the world to Los Angeles, the native sons and daughters are more than holding their own, and interesting parlors of what our eastern friends like to call Native Sons of the Golden West might be organized here. Nearly everyone knows that Lawrence Tibbett was born in Bakersfield, but many of us do not know that Lina Basquette was born in San Mateo, that Betty Blythe is a Los Angeles girl, that Lucile Webster Gleason first saw the light in Pasadena, Edmund Lowe in San Jose, Carmel Myers in San Francisco, Al St. John in Santa Ana, and Vera Steadman in Monterey. Others born in California include Russell Gleason, Hugh Allen, William Bakewell, Betty Caldwell, Aileen Carlyle, Bernice Claire, Jackie Condon, Harry Crocker, Roy D'Arcy, Jean Darling, Vondell Darr, Diane Ellis, Minna Ferry, Freddie Burke, Dale Fuller, Maud George, Sumner Getchel, Lawrence Gray, Mary Ann Jackson, Roscoe Karns, Edgar Kennedy, Mary Kornman, Jane Laverne, David Lee, Dorothy Lee, Barbara Leonard, Wilkie Mahoney, Inez Marion, Duke Martin, Mary McAllister, Joel McCrea, Phil McCullough, Jack McDonald, Buddy Messinger, Charles Morton, Joe Murphy, George O'Brien, Tom O'Brien, Spec O'Donnell, Nelso Olsen, Aileen Pringle, Dorothy Revier, Arthur Santell, Louis Sargent, Scott Seaton, Russell Simpson, Harry Spear, Landers Stevens, Youcca Troubetzskoy, Helen Ware, Blue Washington and Robert Woolsey.

NATIVE SONS OF THE GOLDEN WEST

Bernice Claire grew up in Oakland, where her father was identified with a theater owned by the father and mother of James (Jimmie) Gleason. Russell Gleason, Jimmie's talented son, and Bernice used to play about the theater when they were children.



What Good Music May Do

Fred Scott, one of Pathe's latest developments, is a native son of rather unusual interest. Fred is a Fresno boy whose family bought a phonograph when he was about 7 years old, and a lot of Caruso records. Hearing that great voice inspired the youngster with ambition to be a great singer, and though as a young man he had to work at changing automobile tires and such unmusical jobs, he kept music books handy and filled in the time between jobs by studying, so that one day his boss was astounded to see him with a score in one hand, lustily singing opera, while his other hand gesticulated to express the action of the scene. The Fresno Musical Club first recognized his talents, and after that he came to Los Angeles and studied with Alberti. The Oratorio Society and the A Capella Choir also aided in his instruction. He started in pictures as an extra, more because he needed money to pursue his musical studies than because he wanted to be a screen artist, but worked up till he was featured with Helen Twelvetrees in "The Grand Parade" and "Swing High."

How to Become an Expert

R. L. Prather of La Mesa, who frequently contribs to this column, has an article in Sunset Magazine on "Birds in My Garden." We assume that Dick has an apricot tree in his garden, and so has had plenty of opportunities to study birds.

Birds in Ours, Too

The little birds know more of fruits
Than many gardeners do, by heck!

They shun all frivolous pursuits
To gather knowledge—by the peck.
—Tennyson Mable.

The Ways of Gangsters

There just isn't anything you can't find in Hollywood. Walter Lang, a director with Jimmie Cruze, was directing a gangland story recently and wasn't satisfied with the way the gangsters acted. "I'd like to know a few gangsters," he exclaimed.

A little later an extra caught him by the sleeve and drew him aside. "Say," he whispered, "I know a couple of sure-nuff gangsters. If you wish I'll fix it up for you to get chummy with them."

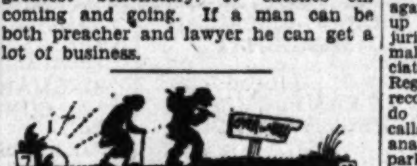
Anything goes for art's sake. Walter was invited to a house and introduced as a regular guy. The men he met were very quiet-voiced, unexcitable and apparently rather shy. It was not till he had met them several times that they grew conversational. Then his eager interest seemed to please their simple souls, however, and they related many anecdotes of gang activities and gradually grew boastful. "They had no sense of shame in connection with their misdeeds," he says, "unless they had blundered. In every neatly turned job they took great pride. But what they told me of gangsters in general convinced me that most gangsters are rank cowards who wouldn't dare go far unless they felt protected. Many of them have to take 'big shots' of heroin or other drugs before setting out on a job. They assured me they were here on vacation and weren't doing any work."

PARLOR BOLSHEVISM

President Angell of Yale University views with alarm the frequent publication of atheistic propaganda in standard magazines and the shouting of it from lecture platforms. But he believes that out of the confusion of thought, due to the highly plastic conditions of the times, intelligent youth will find its own way to combat the effort to undermine religious fealty. The failure of Communism to make even a dent in this country indicates that the propaganda is being read, discussed and cast aside as lacking any incentive toward a useful life.

MANY MARRIAGES

Reno is not only a divorce capital but a Gretna Green. Over the Fourth of July over 100 California couples visited Reno and were married there. They would marry in haste that they may repent at leisure. The California law requiring a three-day notice in obtaining a marriage license is quite a boon to the border States. Reno appears to be the greatest beneficiary. It catches 'em coming and going. If a man can be both preacher and lawyer he can get a lot of business.



THE HAPPY DAYS

By James J. Montague

Chill penury's remorseless hand
Or need's cold clammy touch
Did not, of old, I understand,
Distress our grandsires much.
They made but very few complaints
Amidst their toil and strife,
But bore like patient, placid saints
A dull and dreary life.

So, if the market goes to pot,
We never should deplore
The loss of everything we've got
And often rather more,
But calmly grasp the hand of fate,
Be bold and self-controlled
And show that we can emulate
The pioneers of old.

But those old lads had lucky stars,
To mitigate their woes;
They did not have to hock their cars
Or mortgage bungalows
Or sell their brand new radio sets
And Junior's motor boat,
To pay installments on their debts
And keep themselves afloat.

They bore with fortitude their cares,
But—granting them their dues—
We think our griefs are worse than theirs,
For we have more to lose.
For when their opulence took wings—
Though it was tough, no doubt—
They didn't have so many things
To get along without.

WHAT OTHERS THINK ABOUT IT

CLEAR SKIES AHEAD

[The Mirror—Mount Holly, N. J.]

Good news is that from Camden—that the Victor plant there will immediately put 7000 additional employees on the pay roll and that the roster will contain at least 20,000 names before August 1. It is figured that this huge number of employees will be required to produce the daily output of 9000 complete radio sets which will be on the production schedule by that time.

Such signs of confidence on the part of big business can hardly fail to reassure the little fellows, those who have been nursing their blues until they are almost a total loss. Often in the past it has happened that when everything was at low ebb, when unemployment was rampant and business men were in despair over the dreary outlook, the depression was dragging bottom and the upward march on the return to national prosperity speedily started.

THE BILLBOARD SHOULD GO

[Chicago Tribune]

Director Cleaveland of the State department of public works has taken a step against the billboard nuisance by clearing up a stretch on Sheridan road under State jurisdiction. At the same time President Cermak of the county board has asked the Association of Commerce, City Club and Chicago Regional Planning Commission to make recommendations for a zoning ordinance to do away with these eyesores. Mr. Cermak calls attention to a recent decision in Indiana upholding a zoning ordinance of a park board which prohibits billboards within 500 feet of any park or boulevard. He will act at once to free county property where the board has now authority and will support an ordinance on the lines of the Indiana regulation which will extend protection as widely as possible.

We in America are a nation of tourists, and the prevalence of billboards along our highways and amid our most beautiful scenery is unpleasant to increasing millions of our people. Several States have had the good sense and good taste to prohibit them, and all the States should do so. A long and discouraging fight has been carried on by a few individuals and organizations, but the public has not awakened to its own interest in relief. It has been accepted as a necessary evil, which it is not. Now that touring is a national recreation we hope an enlightened opinion will compel the removal of blots on the landscape.

CANDIDATE CORN

[New York Herald-Tribune.]

Because it is as graceful and decorative as it is valuable and sustaining, the campaign to make corn our national plant emblem has been renewed. Certainly there is no more beautiful American vista than a field of corn out in topgallant, as it is these July days, its gold-green leaves rippling and its tassels nodding to the lightest breeze or serving as the haunt of countless fireflies by night. In autumn, at harvest home, it becomes an even more familiar native landscape theme, though of late its once inseparable companion, pumpkins, are not so often seen glowing between the shocks as in "fond recollection." A plant candidate which is so anciently of America that its original form has now disappeared, and which is so much a part of today that it helps to make both ships and silky garments, does present a powerful appeal for national honors.

PROPER ROOM FOR PROTEST

[Terre Haute Star]

It is about time some British and Japanese experts lodged a protest against America's rapidly expanding fleet of cup defenders.

THE WASHINGTON WASH

BY STRICKLAND GILLILAN.

The tumult, as Kipling said, and the shouting "has" died (the grammar is Ruddie's, not mine.) It is to be hoped that by the time this sees the light of print, the captains and the kings, also the knaves and the two-spots, will have departed. But there is no question but that the ancient sacrifice—the interests of the American people when placed at the mercy of the Senate, will stand.

The ancient sacrifice (that is, you and me and other patsies and come-ons) seem to stand always—stand for almost anything. I am only afraid the hottest weather in Washington may not come before the Senate adjourns. I'd certainly like to see a few blisters raised on assorted portions of certain uncertain Senators' anatomies.

And hot in Washington? I say it yet, this is a hot town in the summer. The District Chamber of Commerce has given me a unanimous vote of suspicion for what I have already fomented on this subject, but I stick to my guns—this is a hot summer resort. Why, just the other day, after they had spangled the cross walks with those little metal sequins showing the path of safety for pedestrians, some stranger asked what those things were for, and a local resident explained that they were buttons put on to keep the streets from coming apart with the heat's expansion.

Bill McCracken, who has or has had something to do with the air service, told me the low-down about that message from the Long Beach air club to little Charles Lindbergh III. He said the baby showed himself a true child of his long-hopping father by refusing to make any comment for publication. If that boy grows up with the ability to keep silent eloquently in as many languages as his father can, and if he refuses to make an ass of himself in half as many ways as his father has refused the same stunt, he will be a whiz. I know Bill McCracken will pardon me if I have misquoted him.

The agricultural sections of the country whence the hue (it seems to me I have seen the word "cry" also used in this connection) is supposed to come regarding the marketing conditions, are in about the position a patient would be who was throwing all the doctor's medicine out of the window and otherwise disregarding his advice, and then complaining that the doctor didn't know his materia medica or hygiene. . . .

By the way, every day I see what a serious mistake I made in leaving the farm. Had I stayed there I would have lots more fun and publicity. I would have the government forces directed toward me all the time in genuine solicitude. I would be coddled and the price of my commodity kept up even if the government had to buy up the whole crop at a good price. The man who sells peanuts and the man who runs a garage has to fend for himself, but the agriculturist vote seems to be worth more per capita than any other except the veteran ballot. There is a fine loyalty in this and there are also huge hunks of hokum.

• • •

I was visiting with a Senator the other day who had this to say about his weathervane colleague, William Edgar Borah, otherwise known by his Indian sobriquet, Big Chief I'm Alone:

"I really believe that if Senator Borah were to propose something on the floor of the Senate and seven or eight other Senators were to get up and enthusiastically support the idea, he would leave the room and return in a few minutes opposed to the measure. And also I have a theory regarding his ferninstness: He would like to see the administration fail so that the Republican party would be split up and a new party formed, of which he, Idaho's solon, would be the head."

I have a list of tariff commissioners to suggest to the President, to take the place of the present board:

Will Rogers, Al Jolson, Ed Wynn, Eddie Cantor, Buster Keaton and Charlie Chaplin. These men know nothing whatever about the tariff and would, therefore, be unbiased; also they are fellow-comedians whom the Senate would probably confirm at once by a viva voce vote, in the line of recognizing the profession. No doubt they could manage to divide equally in political affiliation.

They have at last hung the Harding portrait in the White House. It isn't good. No painter on earth has ever caught the sweetness of the Harding countenance when warmed by the kindly smile and the human affection in the wonderful Harding eyes. The picture looks somber—it is more of the heart-broken Harding after the betrayal and spiritual crucifixion, than the Harding we who knew him personally so loved. Only a snapshot ever caught that marvelous capacity for human sympathy and affection. It is a chart of his face—this new portrait—rather than a portrayal of the man.

The weather in Washington of late has been so unusually usual as to be really unusual. As usual.

The rumor now hath it that George Moses, the New Hampshire end of the associated trouble-makers in the Senate, will be the companion of Claudius Huston when, as and if that indiscreet son of Tennessee embarks for Oblivion; Moses being a good name for a guide through any sort of wilderness, Claudius couldn't leave under safer conduct.

• • •

The wisdom of the fathers who framed our Constitution shows itself brilliantly just now—the increase in population in a State may give it additional representation in the "lower" branch of Congress, but the number of Senators will not be increased unless Jack Garner gets his Texans to apply for a division of the Lone Star State. Our interests were certainly safeguarded in that particular.

How peaceful is the city since the Senate's gone away!
The naval pact is ratified, the President holds sway;
The ones who asked, "Has he a spine? Will he never fight?"
Are begging now for mercy—he's a terror for the right!
They did his will and liked it, fearing else to wander back
And face the Hoover rooters who approve his every whack.
Why, even Georgie Norris had the grace to holler, Yea—
But Washington's so peaceful, with the Senate all away.

They lined up, in the balloting, despite their filibuster,
With Hoover's trusty "boy scouts"—nine was all that they could muster
Against the Chief's suggestion that they ratify the pact.
They fear the voters' verdict; that's the cold and dreadful fact.
Embittered and embattled Hi, from the Pacific Coast,
Stood pat—he would not down at all, like good old Banquo's ghost.
The campaign sun is shining, so they've got to make their hay—
Gosh, Washington is lovely, with the Senate gone away!

POLITICS ON THE AIR

BY EUGENE BROWN

This business of getting your politics out of the air is great stuff, if you want to pluck your politics out of the air. But—

Some folks are not so crazy about it.

Yet there it is and if you are clever enough you can take it or leave it.

Perhaps you are listening to a one-lunged soprano gargling her throat on the notes of "Mighty Lak a Rose," when all of a sudden the theme changes. You hear the rugged voice of Gov. Young telling the world about the economies of his administration. He is explaining how he saved $39 here and $132 there and also how he put $9 back in the treasury by abolishing toothpicks at the executive mansion. He will explain how much he loves the people and interests of Southern California and how if he is elected for another term he will see that they get all they have coming to them if he has to lay concrete with his own hands.

Maybe you try to shut him off by turning to another station.

Aha! This is different.

This is going to be good.

You suddenly butt in upon the persuasive voice of Buron Fitts, who seeks to dispossess the Governor of his job. Buron is giving him Fitts. He is addressing the Lucy Stone League, but the irrepressible mike is dangling in front of him and the air is filled with his pronouncements. You can get an earful without the asking. He is telling how the Governor's professions of economy are a hollow mockery and that, in fact, he is the most prolific and extravagant spender the State has ever known. He is asserting that the Governor's protestations of love and affection for Southern California are political bunk and if he is returned to office once more he will pursue the same high-handed course and give his interest and attention to the northern crowd. Nothing like this could happen if the people are wise enough to elect Fitts.

And so on.

If your ears are still good you will hear the wholesome voice of Jim Rolph, the florid Mayor of San Francisco. He is talking to the Amalgamated Plumbers of Oakland, but the inevitable mike hangs conveniently by and the world may listen. He is explaining his ambition to become Governor of the majestic State of California. It is purely for the good of the people. His long experience as executive of the wonder city of San Francisco has made him familiar with all the problems of high office and he is qualified to make the best Governor the State ever had.

He admits it himself.

So there you are.

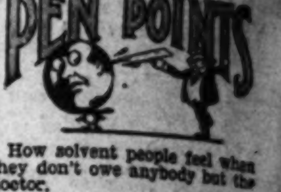
If you are not careful another Young will run in on you. This is Milton Young, the Democratic candidate for Governor, who will impressively demonstrate to you why it is of vital importance that the State be freed from the Republican domination which has made it the most extravagantly governed State in the whole dog-gone Union and left the taxpayers standing broke on the side lines. Put Milton into the executive mansion and see what happens.

And there are others.

If I want politics I can get a whole campaign-full without moving my rocking chair.

A "JUMPER" ON BUS

Throughout the State of Ohio a very large number of the school children in the rural districts are covered to and from the school by busses and it has happened too frequently that these vehicles have met with accidents at the grade crossings. In order to avoid such a contingency several of the school boards have adopted the idea of having employed "jumpers" or lookouts on the busses. Some bright boy is generally picked out from the scholars and he is regularly paid for the service. At each crossing it is his duty to alight and make an investigation of the situation. If the line is clear he signals the chauffeur and the bus proceeds. In this manner the chauffeur's attention is not diverted from the operation of the machine and the presence of the jumper acts as a double check on his carefulness.



How solvent people feel when they don't owe anybody but the doctor.

Blessed are the poor. Their dogs stay under the house.

Times like these have advantages. Shoppers don't sniff and ask to see something a little more expensive.

Those people who have been telling the Senate where to go would be satisfied if they knew how hot Washington has been.

All the modern woman wants is a man's job with the hard parts removed in consideration of her sex.

An impolite old grouch is a man who doesn't seem glad to see you when you are impolite enough to butt in when he is busy.

Marriage modifies a man's characteristics; but whatever a girl is, marriage makes her more so.

A quiet resort is a place where female morons sit under your bedroom window to practice useless talk.

THE ENDLESS FIGHT

I had a handsome cherry tree, all healthy, trunk and root; and it was full as it could be of most delicious fruit. The cherries gratified my eyes, the harvest I would can, and have about a million pies when wintry days began. And I'd have some to give away to moral girls and boys. I watched them ripen day by day, and they increased my joys. Then came about ten million birds, all eager for a feast; they swiped my cherries and my words would shock the parish priest. All day I had to stand on guard, with clubs and guns to burn, to drive the robbers from the yard, and they would soon return. I bought a mile of cheese cloth then, to cover up the tree; but oriole and jay and wren just came and mocked at me. I toiled until I thought I'd drop from weariness and pain; the birds, they got my cherry crop, and all my toil was vain. I have to scrap the whole year round to hold what I possess; and oft I raise a doleful sound of anguish and distress. It has been bruited here and there I've money put away, a little bundle, saved with care, against the rainy day. It isn't much—a plutocrat would laugh my roll to scorn, when he surveys the package fat that does his vault adorn. But I must always be on guard with pike and gat and rod, for busy robbers struggle hard to bear away my wad. Each day a gaudy stranger comes, he has a brilliant scheme, to gather in such gorgeous sums as men see in a dream. And I may share in all this gold, if I will take the coin that's now the village banker's hold, and with the stranger join. Each day I'm tempted to withdraw my kopecks from the brine; then I awake, and clamp my jaw, and mutter, "Not in mine!"

How solvent people feel when they don't owe anybody but the doctor.

Blessed are the poor. Their dogs stay under the house.

Times like these have advantages. Shoppers don't sniff and ask to see something a little more expensive.

He observed that the restrictions evidenced an intention to establish a scheme for the benefit of the entire group of lots owned by Mrs. Klitten.

"We cannot, despite the change, quiet title against the restrictions," the judge held. "This, because we cannot relieve a person of an obligation which he has assumed. However, we can refuse our aid to the enforcement of restrictions, where conditions have so changed as to make it inequitable to do so. Here it is evident that there has been such a change of conditions. The restrictions no longer serve a useful purpose.

"We shall not aid in retarding natural development. Therefore, the parties here are entitled to a declaration that by building business structures upon the property they would not subject themselves to the penalty of forfeiture."

In deciding the case, Judge Yankwich cited a previous decision of his when he refused to enjoin violation of a restriction at Sixth street and Vermont avenue. In the application of the principles involved, he said it has been held that where there has been a change in the uses to which property in a neighborhood have been put, it would be oppressive and inequitable to give effect to restrictions where the changed conditions have resulted from other causes than their breach.

OLD ICE CREAM DIPPER TO LOSE PARKING PLACE

The time-honored crock where the ice cream dipper spends its idle moments soon will be no more.

It has long been the custom for soda-dispensers to park the dipper in a crock of doubtful appearance filled with water when not in use, but Dr. J. L. Pomeroy, county health officer, announces that such a practice is dangerous to public health.

"Discovery of millions of bacteria in the murky solutions of water in which fountain ice cream dippers are kept has resulted from this campaign of the county health department for greater cleanliness of eating places," the official bulletin states. "Investigation by county sanitary inspectors, initiated by Dr. Pomeroy, who first observed the practice, disclose that in many samples of this water bacilli were found in addition to the high bacterial count. This indicates that the water has been polluted with human infections and is dangerous to health to have in contact with the ice cream. Cases of food-poisoning often may be traced to this infection."

Although the ice cream is kept at freezing temperature, it is pointed out by the health officer that the fluid in which the dipper is kept becomes a fertile breeding-ground for bacteria at room temperature.

The new order issued by Dr. Pomeroy requires both dipper and the solution in which it is kept to be absolutely clean and sanitary. Dippers must be scalded frequently during the day and may be moistened with pure water only, the order concludes.

Guilds Return After Long Tour

Completing a ten months' trip around the world, Dr. and Mrs. Lewis Thurber Guild, both known in Methodist Episcopal Church circles, returned to Los Angeles yesterday. They left here last October, circling the globe by way of the Orient and visiting many Methodist missions en route. They were accompanied on their arrival by their daughter, Miss Ruth Guild of the Belmont High School faculty, who had joined them at Cairo.

Before embarking on the tour Dr. Guild had rounded out a term as Los Angeles district superintendent of the Methodist Episcopal Church.

WOMEN TO OFFER GOLD MINE PLEAS

Three Will Appear Today in Fight on Claims Said to be Worth $10,000,000

Three women will appear today before United States District Judge McCormick and contend they have a right to complete the assessment work on ninety gold mining claims in Inyo county, said to be valued at $10,000,000.

The case will come up in an order to show cause why an injunction should not be issued against Don Clair, a deputy sheriff of Inyo county, W. D. Clair, his father, and several others, who are said to have prevented the women from completing the assessment work on the mining claims, which are located in the Panamint Mountain range, near Ballarat. The action is brought by the Ballarat Mining Corporation, with Mrs. Orpha Hart as president, Mrs. Mary Thompson as vice-president and Mrs. Harriet Thompson as secretary.

It is charged in the complaint of the women that the defendants resorted to gun play to prevent their workmen from completing the assessment work before the 31st inst., in order that the defendants might "jump" their claims.

CITY CLERK ASKS SPACE

City Clerk Dominguez has asked the City Council to set aside space in the ninth floor of the City Hall for his election division, as this work, at certain periods, requires between 200 and 500 people. The Public Works Committee will handle the matter.

OFFICER'S WIFE KILLS SELF

Woman Locks Husband Out of Room After Row Over Her Friends and Fires Bullet

Tragically ending a marital argument, Mrs. Claire Sanderson, 34 years of age, wife of Policeman Carl S. Sanderson slammed her bedroom door in the face of her husband, locked it, and then shot herself in the head with a .32-calibered automatic pistol in their home at 2151 Malcolm avenue, West Los Angeles, yesterday morning.

When the husband crashed in the door he found his wife lying on the floor dead. He called detectives. To Inspector Davidson, Capt. Curtis and Detective Lieutenant Baggot he told a brief story of how, when he returned from his vacation yesterday, he and his wife quarreled over her friends.

"It was just one of those family arguments a wife and husband sometimes have," he said, brokenly. "It could have been settled. But she suddenly became hysterical and before I could prevent her rushed into her bedroom and locked the door. Even then I never dreamed that she would end it so. Then I heard the shot."

The bullet entered the woman's head behind the right ear, pierced the brain, and came out the left side, killing her instantly.

The couple had no children. Sanderson is a uniformed officer detailed out of the West Los Angeles division.

Cigarette Gifts Charged to Pair

On February 14, last, William and Ivey Barton, operating a grocery at 318 West First street, gave his three children, Charles, 14 years of age; Matilda, 13, and Barbara, 12, cigarettes, Deputy Sheriff Earl Bell complained to the City Prosecutor's office. Since then, he said, they have given the children cigarettes on numerous occasions. A complaint was issued charging both Barton and his wife with violating Sec. 308 of the Penal Code, which makes it a misdemeanor to give cigarettes to minor children.

In Municipal Judge McCoy's court the Bartons pleaded guilty. They were released without bail pending trial, which was set for next Thursday.

MOTHER OF PRODIGY FACES JUDGE TODAY

Mrs. Violet Barry, mother of Jack Barry, 9-year-old prodigy, is scheduled to appear today before United States District Judge James to have her case set for trial. She is accused of sending improper letters through the mails. The letters, it is charged, were sent to Dist.-Atty. Fitts and Municipal Judge Thompson.

POST AS GUARDIAN SOUGHT

Dr. W. S. Worden, retired missionary to Japan, has petitioned for appointment as guardian of the estate of his sister, Mrs. Mary C. Wilcox, according to the records of Superior Judge Haslett's court yesterday. Dr. Worden asserts his sister is too old to properly manage her $50,000 estate.

Traffic Ticket Dodger Given Jail Sentence

Sam Gordon, 2737 Blanchard street, succeeded in dodging police warrant officers for more than a year, they reported in Municipal Judge Valentine's traffic court after they had arrested him. Originally charged with parking overtime on April 13, 1929, Gordon received six more traffic tags afterward on which he did not appear in court or post bail, the records showed.

When he pleaded guilty to all seven Judge Valentine imposed a two-day jail sentence on each, giving Gordon a total of two weeks in the City Jail.

Death Penalty to be Discussed

Abolition of the death penalty in this State will be the keynote of a public meeting to be held at 8 p.m. next Monday, in the Old Unitarian Church, formerly Theosophy Hall, 925 South Flower street, under auspices of the California branch, American League to Abolish Capital Punishment.

Among the speakers will be Dr. Miriam Van Waters, referee of the Los Angeles Juvenile Court and consultant on juvenile delinquency problems for President Hoover's Law Enforcement Committee, Jack Black, ex-convict, and Vivian Pierce, national executive secretary of the league.

The meeting next Monday is one of three planned for this State, others being scheduled for San Diego and San Francisco.

MORE LEVEE TO GO IN AT LONG BEACH

Low Cost of Rip Rap Work Leaves $35,000 for Use in Additional Building

Because of the low cost of the riprap being built along the Los Angeles River near Long Beach, approximately $35,000 is left from the county fund set aside for the work, which will be used to build 2000 additional feet of levee, E. C. Eaton, chief engineer of the County Flood Control District, has announced. Bids for the additional work will be advertised within the next few weeks.

The channel provided by the new levees will straighten out the curve in the river opposite the Virginia Country Club, throwing the river bed about one-half mile west of its old course at that point.

The Board of Supervisors originally appropriated $150,000 to build levees and riprapping on the west bank of the river from Artesia street in Long Beach south to a point opposite Louise street.

The new work will extend from Louise street south to a point on the river opposite Fifty-second street, formerly known as Produce street.

The expenditure will exhaust the county's appropriation for work this year. However, $300,000 will be available to complete the work during 1931 and 1932.

STREET JOB ABANDONED

The general ordinance abandoning proceedings for the improvement of streets in the New Hampshire-avenue and Fifth-street district has been adopted by the City Council.

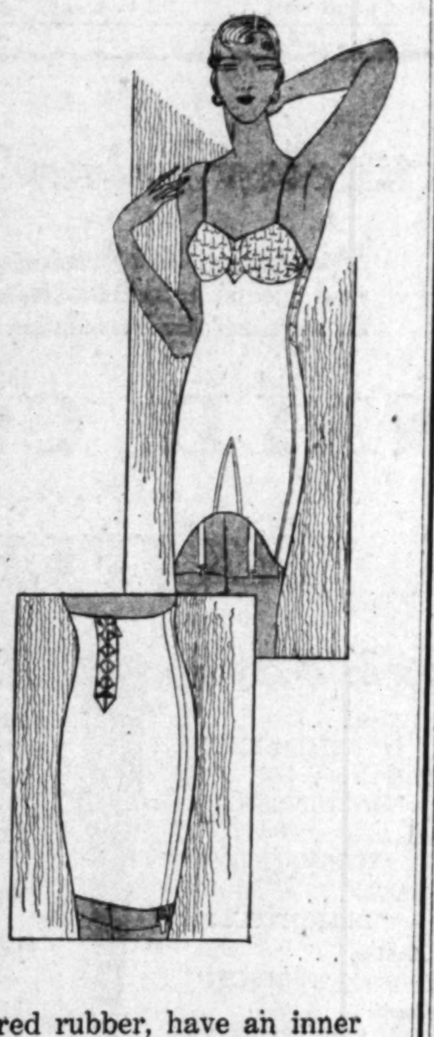
GOSSARD
Reducing Garments—
Corsettes
Girdles
Brassieres

Sensational garments that instantly slenderize and tend to reduce — garments that launder perfectly and that give excellent service.

Miss Marion Wilby
(Gossard Representative)

Will be in Coulter's Fourth Floor Corset Section all this week to explain to interested women the merits of these revolutionary garments.

Mannequins will display the various types daily.



Corsettes of lustrous silk-covered rubber, have an inner surface of absorbent stockinette—they reduce the diaphragm, waist, hips and thighs—and the uplift top of dainty lace moulds the bust to youthful roundness!

The Brassiere—is of silk covered rubber (absorbent stockinette lined) with bust sections of lace.

The Stepin Girdle—a high-waisted garment that slenderizes waist, hips and thighs—changing your silhouette to fashionable slenderness. The inner surface is of absorbent stockinette—for complete comfort.

Demonstrations are of course without charge.

Of Interest to Women

Society

by JUANA NEAL LEVY

Every locality has its "characters," and because Montparnasse is a world rendezvous of geniuses and near-geniuses it probably has more than its share. For not infrequently a "character" is one of these two.

Carl Sandberg saw poetry in the sticking of pigs; Baudelaire traced it to the patient worm; Warakov of Montparnasse pokes for beauty in noisome garbage cans. Seeing him between the hours of midnight and morning, his squat, rheumatic figure buried almost to the ears in an old overcoat, rummaging about in the cans with his stick, one would think him a member of the second-hand army who sell their finds for a few sous to live. But, no, Warakov is a painter—a painter of still life—and his discoveries, an old shoe, a safety pin, a bit of broken glass, a rusty spoon, or what have you, are taken home, washed and finally appear on canvas as things of beauty.

Then there is May Valentine, who was a model. May was born with an aenemic appeal that invariably crumples the weak cynicism of the hard-boiled male. Whenever May was broke she used to sit on the terrace of the Dome and look unhappy. Before long some butter-and-egg quarterite with about sixteen francs in his pocket would see her, suppress his rising emotion and invite her out to dinner. May was consistent. She loved to talk about futility and the wisdom of committing suicide. She said she had tried three times. When May disappeared recently her friends thought that the fourth time had been a success, but, no, May has returned an unconventional bride and a lady. And her "Hollywood" look is gone.

Sonia Lewitska's temperament is futuristic. She prefers motion and rhythm and the propelling, mystic secret to ordinary beauty. In fact, she is a devotee of the "cult of ugliness." In all her work as a painter she stresses the dream and its significance, and dreams sometimes are terrifying. Sonia is so eccentric that often she has been considered quite mad by her neighbors, for she is in the habit of appearing at the market with her face covered with ink, her hair scraggly and her eyes fixed. In her studio there is an old organ. Sometimes she plays this all night while her neighbors rage. She neither smokes nor drinks and often works fifty to sixty hours without resting.

And then there's Raymond Duncan, brother of the late Isadora, who has a "weavery" on the Boulevard Saint-Germain. Raymond wears cord sandals, long, straight hair and a linen kimono. "My anguish is that people don't understand me," Raymond says.

Mr. and Mrs. C. A. Ducommun, traveling in Germany, were recent arrivals in Wiesbaden, where they registered at the Grand Hotel Kaiser.

Mr. and Mrs. Webster B. Mabie have been visiting in Dresden, Germany, guests of the Europa Hof.

Mr. and Mrs. Carl Shilling of Beverly Hills have been stopping at the Hotel Bellevue in Baden-Baden, Germany.

Mr. and Mrs. William W. Mein have arrived in Paris from London and are stopping at the Hotel De Peace De Galles.

E. A. Hawkins is a guest of the Palast Hotel in Wiesbaden, Germany.

Mrs. Leonore Thomas of Santa Barbara, who has been traveling in Southern France, was a recent guest of the Hotel Savoia Majestic in Genoa, Italy. Louis Fox of Hollywood, has been staying at the same hotel.

Mrs. C. F. Jensen of Los Angeles with her daughter, Mrs. Eugene M. Fitzgerald, and her granddaughter, Anabel and Detroit, arrived recently in Europe aboard the liner Europa and plan to make an extended trip through the European countries. They will meet Mr. Fitzgerald and Chester H. Johnson and family in Paris, where they will make an extended stay at the Hotel Ambassador.

Mrs. Hally-Smith and her brother and sister-in-law, Mr. and Mrs. Crockett Perrin of Pasadena, with their daughter, have been making a three weeks' motor trip through the Pyrenees and Spain, but are expected back in Paris this week.

Mr. and Mrs. Claude Fisher have been stopping at the Savoy Hotel in London.

Mr. and Mrs. E. A. Hawkins and Mr. and Mrs. J. Chester Hoag of Los Angeles have been in Venice for the season, stopping at the Grand Hotel. Dr. and Mrs. P. B. Swart and Mrs. H. B. Johnson of Beverly Hills also are at that hotel.

Mr. and Mrs. J. C. Barber and the Royal Hotel in Lausanne-Ouchy, Switzerland.

Mrs. Bertrand Smith have crossed to Europe aboard the Red Star liner Belgenland.

Frederick A. Mathews, who is at the Hotel Adlon in Berlin, has had quite a bit of steamer traveling since leaving home. He went by ship through the Panama Canal to New York, where he boarded the liner Bremen for Southampton, then by steamer from London to Gibraltar; since then he has traveled through Spain, South France, Italy, Vienna and Munich, also seeing the Passion Play at Oberammergau. He plans to be on the continent until September, visiting Holland, Belgium, France and Switzerland.

Mrs. Helen Anderson of Hollywood, is in Le Touquet, France, for the fashionable summer season there, staying at the Royal Picardy.

While in Paris, Capt. Paul Perigord, head of the French department of the University of Southern California, has been making the best of his sabbatical year. He has just presented a series of statistics to French institutions which prove that French is the most thoroughly studied language in America. His figures reveal that more than 300,000 students in the United States study French. German and Spanish are the runners-up in languages taken in the universities.

Your Baby and Mine

by MYRTLE MEYER ELDRED

Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope forwarded to this office will bring a personal reply.

This department offers leaflets on weaning and feeding the child from 6 weeks to 6 years, prenatal care and diet for the nursing mother, constipation, eczema, outfits for the new baby, sleeping, walking, teething, thumb sucking, ammoniacal urine, bed wetting, training in cleanly habits, periods of nursing, cod liver oil, orange juice, hives, worms, vomiting, refractory children, prune juice, lime water, rupture, styes and boils and cradle cap. Before asking a personal question about one of these subjects, it is better to send a self-addressed stamped envelope for the leaflet you need. If your particular problem is not covered in the above list, Mrs. Eldred will be glad to give you a personal reply.

TWO BATHS DAILY WON'T WEAKEN CHILD

The bugaboo that baths are weakening has been used so often to frighten young mothers. A too hot bath is undesirable, but a daily cleansing bath in the morning and a cool sponge at night are refreshing and necessary for even the small baby during the warm weather.

Use tepid water for the night sponge, washing first the face, then the arms, the legs, the back and stomach, and patting each part dry. No soap need be used. The baby will have a better appetite for his night meal, and will go to bed in a mood to sleep. Be sure that his night clothes are fresh and unwrinkled; his day clothes these days consist of a diaper, so wrinkles except in his own fat body aren't much of a problem.

AN "ELDRED" BABY

Mrs. B. C. T. writes: "I must tell you that my 14-month-old boy has been reared by your advice and is certainly a good advertisement for your department. He is the best natured little chap, though as mischievous and full of fun as any healthy child should be.

"I had him vaccinated twice this spring and it did not take either time. Does this mean that he is immune? The neighbors say it does, the doctor says not. We would like to know what you think.

"I imagine you are bored to tears by schedules but I have found an ideal one for hot weather. My boy hasn't had prickly heat once. He wears a diaper and sandals all day long. At 11:30 o'clock I put out a dishpan full of water and he splashes in that for half an hour, thus getting cleaned up from his morning's play and being ready for his lunch and nap. He sleeps three hours in the afternoon and goes to bed at 8 o'clock and sleeps until 8. I give him another cleansing bath at bedtime and I have been told this is too much. Will you settle this argument, too?

"We have a young mother in the neighborhood who does not keep her baby on schedule and at 1 year of age he is still being nursed. She says she can't wean him in hot weather—but why did she nurse him until this time? He is so thin and pale it is pitiful."

MOTHER MUST SEEK ADVICE

One of the lessons we should learn is that we have to let people go their own way however misguided we think they are, until they ask for help. We can't all do alike, or think alike, and it doesn't pay to be upset by this condition, since it can't be altered. It is too bad and I feel sorriest for babies who are the victims of their mother's ignorance . . . but no one can help until the mother thinks she needs help.

Perhaps you would enjoy the leaflet we have on "Various Types of Baths" which any reader may have for a self-addressed and stamped envelope. It is helpful in summer for babies who aren't fortunate enough to escape prickly heat.

I think you're safe in believing the doctor and not the neighbors. The virus used may not have been active, which is a more plausible reason for this than the child's immunity.

Mrs. W.: Thank you so much for the clipping. It sounded immensely interesting and very logical. At least it is worth a trial, because, as the clipping says, goat's milk is a most excellent milk for infants.

How nice of you to want me to speak over the radio. Perhaps some day it can be managed.

Health and Diet Advice

By DR. FRANK McCOY

Author of "The Fast Way to Health"

HEALTHFUL COOKING

The preparation of food has a far-reaching effect upon the health. Food that is well prepared leads to good health, good digestion and a sense of inner satisfaction and cheerfulness, for one who has just dined on a well-arranged meal surveys the world with contentment. On the other hand, poor cooking leads to indigestion, the "blues" and a vague discontent which is often transferred to a craving for stimulants.

Cooking is used to make food taste better, to make it more digestible and to kill dangerous organisms. A housewife who knows how to cook wholesome dishes increases the nutritive elements of almost every kind of food by breaking up the tougher particles with heat and dissolving the cellular portions so that they may be more readily acted upon by the chemicals within the digestive tract.

To cook properly and healthfully it is necessary to understand the various methods of cooking, which include boiling, simmering, frying, stewing, baking, braising, grilling and steaming.

BOILING AND SIMMERING

Boiling is, no doubt, the most popular and the most abused of all methods of cooking. Many cooks fail to get the most tenderness and flavor out of foods because they boil them in the wrong way. When preparing meat by this method it is advisable that the water never be allowed to remain boiling. The temperature should be just sufficient to change the coloring matter of the blood, soften the red fiber and dissolve the connective tissues, which may be accomplished with water much below the boiling point. If one keeps meat in water that is actually boiling for any length of time it results in overcoagulating the proteins, dissolving the mineral matter and lowering the food value.

In boiling meat first coagulate the interior by plunging the meat into rapidly boiling, unsalted water for three or four minutes. This envelops the meat in a waterproof casing of coagulated albumin and prevents the escape of juices from the interior of the cut into the water. The fire should then be turned down so that the temperature of less than 180 deg. is maintained for about twenty minutes for each pound of beef. If this is performed carefully, the meat will be tender and easily digested, whereas, if the boiling point is too long-continued the meat will be tough and stringy. Any water added during the boiling should be hot. The meat should not be salted until ready for serving.

Boiling is often used for vegetables and the quantity of water used depends upon whether the vegetables are to be served whole or in the form of soup. If they are to be served whole, as little water as possible should be used with a closely covered pot. Whereas, if it is desired that some of the food elements enter the water it is better to use a process of simmering, in which case the soup or stew should be started with cold water and kept on a slow fire until cooked. In boiling beef for soup, even the tougher cuts may be used, and the long, slow simmering will make it so tender that it will fall away under the fork.

By learning how to cook foods at the simmering point the housewife may use many pieces which are economical and yet of the same food value as the higher priced cuts.

Don't cater entirely to the likes and dislikes of the family in planning meals, or the essential foods are apt to be forgotten. Include vegetables, milk and fruits in your menus persistently if you wish health in the home.

MODES OF THE MOMENT

by Honore Booth

FASHION EXPERT OF HARPER'S BAZAAR

NEW YORK, July 27. (Exclusive) The trend of autumn fashions, as far as I have been able to observe it, would seem to show that the change in colors is greater than the change in the silhouette. Therefore, I have compiled my notes on color for you, to be an aid in planning your fall wardrobe and its accessories. Black continues. But with a difference. It is seriously challenged for primary position by colors, notably brown and green. These are in the subdued and exceedingly dark tones. The best of the new greens are far less vivid than even hunter's green. Belly lynx is often used as a trimming on tweed coats in these shades. An interesting variation is Robin Hood green, rather yellow, almost chartreuse, in fact, but even richer. This I have seen in tweed and velvet.

The browns tend to be more grayish than reddish. But if you have a yearning for red, there are plenty of them, and very smart they are, especially in rust and orange versions.

Heavy tweeds are daring in these colors. I also have seen the soft, crushed raspberry, for the afternoon. This is extremely flattering and should be most becoming to the gray-haired woman. Blue for the street is often in the powder and cadet range, never in hard tones, although there are some purple blues such as royal. [illegible] is firmly entrenched and [illegible] maintain its position.

Evening

Blue, as far as I am able [illegible] judge, is the leading pastel [illegible] with yellow and lettuce green [illegible] evidence. Gray, for the distinguished woman, is decidedly a [illegible] fashion. In velvet, trimmed with silver fox, it is most beautiful. Obviously it will never enjoy [illegible] general popularity as it is adapted only to a very special type. It is an outstanding background for jewels, second only to black.

White and off-white, the [illegible] shells, creams and ivories are particularly successful for the [illegible] heavy and crepe-backed [illegible] which will be so good in the [illegible] fall and midwinter. Ermine continues as a startlingly effective [illegible] of contrast on black wraps. The palest of pink I saw in a [illegible] chiffon evening dress and in a velvet coatee by Worth, not trimmed by any fur, with lovely shirring [illegible] draping. The very dark shades formerly associated only with [illegible] wear Paris tells us are being [illegible] at restaurants and night clubs [illegible] the evenings. Colored gloves [illegible] stressed in Paris also; as an example, brown with lettuce green. The opening of the autumn [illegible] will tell just how much American women will indorse this very French idea.

Chef Wyman's RECIPES

GRAPE CATSUP

Ten pounds of Concord grapes, five pounds of sugar, one quart of vinegar, two tablespoonfuls each of pepper, allspice, and cinnamon, one tablespoonful of salt. Wash and stem the grapes, place them in a kettle with a half cupful of water, and cook slowly until soft, then crush them through a fine sieve to remove the skin and seeds, return to the kettle, add the vinegar, sugar and spices, and cook until thick as catsup. Seal while hot.

CORN SALAD WITH SALTED ALMONDS

One and a half cupfuls of cooked corn, chopped fine, one and a half cupfuls of rich milk that has been scalded in the double boiler and pour it over two well beaten eggs, return the milk and eggs to the double boiler and cook slowly until slightly thickened, then add a half teaspoonful of salt, one-half teaspoonful of sugar, and one-half teaspoonful of paprika. Combine the corn with the mixture, chill thoroughly, and when half frozen remove from the mold and add a half cupful of finely chopped salted almonds. Return to the mold and finish the freezing. Turn out on lettuce-covered plates, and garnish with mayonnaise.

APRICOT SOUFFLE

Line the bottom and sides of a large mold with split lady fingers, first buttering the mold, beat a [illegible] cupful of butter to a cream, [illegible] into it half a cupful of [illegible] beat until smooth, add the [illegible] of four eggs, one yolk at a [illegible] and continue the beating, add [illegible] thirds of a cupful of [illegible] two-thirds of a cupful of fresh apricot pulp that has been [illegible] through a sieve, mix well, add the stiffly beaten whites of the [illegible] eggs, combine the two mixtures [illegible] pour one-quarter of the mixture [illegible] the prepared mold, cover with a layer of the split lady fingers, [illegible] another quarter of the mixture [illegible] continue this process until [illegible] been used. WHEN THE SANDMAN COMES

A Bedtime Story

by THORNTON W. BURGESS

WHAT HAPPENED TO THE WASH

When all is said and all is done,
Mischief never can be fun.
—Mother Brown.

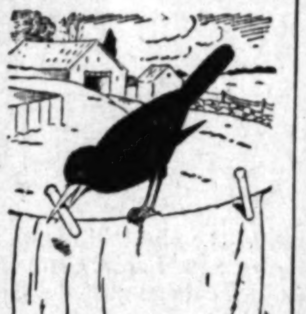
It was Monday morning. Monday morning, in the country at least, is wash day. It was Mother Brown's wash day. Farmer Brown and Farmer Brown's Boy were at work down in the cornfield while Mother Brown was doing the washing. Jim Crow, the young crow that Farmer Brown's Boy had made a pet of, had gone down to the cornfield riding on his master's shoulder. That was his favorite perch.

By and by the washing was finished and hung out to dry. It was a beautiful morning and Mother Brown rejoiced as she hung out the wash, for she knew that it would dry quickly. "I shall be able to get a large part of my ironing done before dinner," said Mother Brown, "and that will be a big help. It is certainly lucky that the sun is out today, for I have a lot of cleaning to do and I want to get the wash out of the way."

Mother Brown went back into the house and she went about her work singing. She didn't once look out, as there was nothing in particular to look out for. Had she looked out, this story might never have been. Jim Crow had remained down in the cornfield only a little while. Some imp of mischief prompted him to fly back home. Ordinarily, he would have remained down there in the cornfield. Perhaps it was the fact that just as he left the farmyard on Farmer Brown's Boy's shoulder, he had seen Mother Brown come out of the house with a basket of snowy white clothes and it had stirred his curiosity. Anyway, he flew back and perched first on the roof of the barn.

From this point Jim Crow could view the whole of the farmyard. He saw at once the clotheslines with their snowy white burden. He cocked his head on one side and studied the wash. He cocked his head on the other side and again studied that wash. His eyes twinkled. It was a twinkle of mischief. You see Jim Crow had discovered those clothespins that held the wash on the lines. He looked over toward the back door. He looked to the kitchen door. He saw nothing of Mother Brown. Then he flew down to one end of one of the lines. He reached out and took hold of the nearest clothespin. It moved! Jim Crow gave a sharp tug. The clothespin came free.

Jim Crow chuckled. He flew away with that clothespin. In a few minutes he was back and pulled the next clothespin. A towel dropped on the ground. Away went Jim Crow with that clothespin. He wasn't gone long. He pulled another clothespin. Another towel dropped. Jim Crow chuckled again. This was no end of fun. All the time Jim Crow kept a watchful eye on the back door. He knew he was in mischief. Yes, sir, he knew he was in mischief.



He went down the length of that first line and pulled every clothespin

He worked fast, did Jim Crow. He worked very fast. He went down the length of that first line and pulled every clothespin. All the things that had been hanging on that line were now on the ground. Then he started in on the next line. By the time he had pulled the last clothespin and carried it away, the only things left on the clothes line were the sheets. These were so big that, of course, they were folded over the lines and had not dropped when the clothes pins were pulled. When Jim Crow flew away with the last clothespin, he didn't return; he flew down to the cornfield and talked to his master while the latter worked.

Perhaps you can guess the dismay of Mother Brown when she went out to bring in the clothes to iron them and discovered all but the sheets on the ground. At first she couldn't think what had happened, but when she looked for the clothespins and couldn't find them, she became suspicious. You see, Jim Crow had taken other things. She looked all around for him, but of course he was nowhere to be seen. I am afraid that Mother Brown lost her temper. Could you blame her? You see, she had that big wash to do over again.

CRITERION BOOKS NEW FILM FARE

"Our Blushing Brides" to Start Run Friday; Norma Shearer Vehicle Listed

DOROTHY SEBASTIAN

Forthcoming film attractions at the Criterion Theater give promise of some unusual entertainment, according to the management. Starting Friday, the theater will screen "Our Blushing Brides," starring Joan Crawford, and with Anita Page, Dorothy Sebastian, Robert Montgomery, Raymond Hackett and others in support.

Following "Blushing Brides" comes "Let Us Be Gay," a Metro-Goldwyn-Mayer film starring Norma Shearer. This picture has recently been completed at the studios. It will be the fifth consecutive M.-G.-M. production to play the Criterion.

A popular engagement of "All Quiet on the Western Front" has also been arranged. The completion of this program will carry the house into the middle of October.

Current fare at the Criterion brings Greta Garbo in "Romance," directed by Clarence Brown.

FILMS FOR BOULEVARD ANNOUNCED

"Big House" Will Follow "On the Level" Thursday; Others Booked

Anticipating Greater Talkie Season, the Boulevard Theater management announces its selection of coming attractions.

Following "On the Level," featuring Victor McLaglen and Fifi Dorsay, "The Big House" will move in Thursday. The popularity of the dynamic prison production has warranted a week's showing at the Boulevard, it is said.

The second week in August brings Don Jose Mojica, grand-opera lyric tenor, in "One Mad Kiss." Mona Maris has the feminine lead. Greta Garbo's "Romance" is scheduled to open Greater Talkie Season in the middle of August. It will be followed by "Women Everywhere," in which J. Harold Murray and Fifi Dorsay enact the principal roles.

'Rebound' Will Start Second Week Tonight

The second week of the engagement of the popular comedienne, Ina Claire, in "Rebound" at the Belasco Theater starts tonight. According to the theater, indications are that the second week will top the summer record established by the first.

"Rebound" is from the pen of Donald Ogden Stewart and includes Robert Williams and others of the New York cast in its roster of players here. Miss Claire's engagement at the Belasco is to be limited, the theater reports.

It is understood that Miss Claire will enact the "Rebound" leading role on the screen for Paramount, the film to go into production after the "Royal Family" is completed.

Players Take Bows Tonight

SHARON LYNN

H. B. Warner and Sharon Lynn, both of whom play prominent roles in "Wild Company," Fox picture now showing at Loew's State, will be seen on the stage in personal appearances tonight.

Louis Armstrong, recording artist, is drawing the spotlight in the current Fanchon and Marco stage revue, "Wild and Woolly," with his unique song and trumpet renditions. The colored star appeared in "Hot Chocolates" and other New York colored shows, besides being a featured entertainer at "Connies," Harlem resort.

Swickard Will Talk on Drama

Josef Swickard, the eminent character actor of the screen, will be the guest star at the Tuesday drama hour in Barker Brothers' Auditorium under the direction of Sherman Hill.

Mr. Swickard will present his philosophy of laughter as it is interpreted in everyday life, illustrating his points with humorous and dramatic poems. He will be assisted by Rene Shryock, singer. Virginia Cunningham will be at the organ.

Vajda Play Dramatically Unfolded

Elsie Ferguson
Lends her sterling talents to the leading role of "Fata Morgana," which is attracting Hollywood citizens and celebrities to the Hollywood Playhouse.

PLAYLETS PLEASE AT THEATER MART

"Mata-Hari," by Alice Barney, Feature of Varied Offerings

BY KATHERINE T. VON BLON

Four admirably contrasted playlets, piquant in inflection, kept the first-night audience at Theater Mart in properly exuberant mood.

A dynamic vehicle couched with dramatic fervor, "Mata-Hari," by Alice Pike Barney, was easily the feature of the evening. Based upon the life of that passion flower, Mata-Hari, the spy, the play moved with inevitability to its violent climax.

Picturing the last moments of the unbridled creature, Mrs. Barney has contrived moments of realism. Elemental in the resistance to death, indomitable will and faith in her star of fate enable her to meet death in triumphant mood. Through the movements of the dance of death, which she performs to the beat of the marching feet of the firing squad, one feels the fetid breath of a Salome, colored by the terror of a woman, whose soul cringes, yet whose animal courage is able to obliterate fear. Luz Alba, an actress of fine physical proportion, with the Latin beauty of Mexico and a volcanic temperament, gave an interesting interpretation of this woman of many moods. Her portrayal was perhaps slightly exaggerated, but in the main natural and her dance was accomplished with a grace and gesture compelling in its swift necessity. Edward Bock as one of the lovers of Mata-Hari, gave good support. Francis Josef Hickson directed and staged the play.

As shimmering and fragile as its name, "Venetian Glass," by De Witt Bodeen, brought a degree of light and airily contrived persiflage. A charming mondaine longing for the stimulation of romantic philandering finds herself involved in a delicate situation. To the role of the enigmatic Clementine, Mary Worth brought sparkling insouciance. Allen Wardelle was engagingly naive.

"Pierette Buys a Hat," by Howard F. Palmer, was dainty trifle concerned mainly with silver moonbeams and star dust. Blanche Hedlund and De Witt Bodeen captured the mood and danced with fairy tread. Tiny Mary Jane La Verne delivered her lines with poise and dignity and Charles Ridgeway's musical accompaniment was graceful.

"The Land of Manana," by Jimmy Mac satirized the movie extra with convincing and comic precision. It was a lively and precocious bit, in which Henry McCann, Helen Gillan, Vivian Emory, Maury Gilbert and Eleanor Weber took principal parts.

Hungarian Tenor Will Sing Here

In keeping with its policy of showing headline artists when the opportunity presents itself, the Million Dollar Theater announces that it has secured the personal appearance of the Hungarian tenor, Joseph Diskay, starting Thursday when the current fare will be changed.

The showing of the Zane Grey tale, "The Border Legion," starring Richard Arlen, Fay Wray and Jack Holt, will be included on the new program. "The Big Pond" is the current picture.

ACTRESS HONORED

Honoring Sue Carol, popular young film actress, as special guest, a midsummer frolic of Hollywood celebrities will be staged in the Blossom Room of the Roosevelt Hotel tonight, with a number of film players attending and participating on the program. Among those who will appear is Lina Basquette.

VARIETY PREVIEW PLANNED

Tonight the R.-K.-O. Theater introduces something new in the form of a special vaudeville preview, the first of a series of such presentations to be held at the theater each Monday night.

Professional acts which have from time to time played the R.-K.-O. circuit, will offer new material for public approval; other acts appearing on the stage will be those which have played minor circuits and which are being previewed by booking officials of the R.-K.-O.

This new type of professional stage vaudeville preview is entirely different from the try-outs, amateur nights or opportunity contests of the past, the theater reports. It will enable the house to offer its patrons eight vaudeville acts, four preview acts in addition to the regular acts on the bill as well as the regular screen program.

Heading the regular R.-K.-O. bill this week is Harry Carroll with his 1930 Revuette, and Eddie Bruce.

STAR WILL CELEBRATE DUAL EVENT

Ann Harding Makes Debut in "Holiday" at Circle on Natal Day

Thursday, August 7, will be an important day in the life of Ann Harding. It will mark her birthday, and the opening of her new starring picture, "Holiday," at the Carthay Circle Theater.

Harold B. Franklin of Fox Coast Theaters and Pathe studio officials are formulating plans to celebrate Miss Harding's natal day in a spectacular manner, it is announced. The gala premiere will be turned into a tribute to the girl who, it is said, has reached new motion-picture heights.

The cast of "Holiday" includes such notables as Mary Astor, Edward Everett Horton, Robert Ames, William Holden, Hedda Hopper, Monroe Owsley, Hallam Cooley and Mabel Forrest. The picture was directed by Edward H. Griffith.

Will Rogers in "So This is London" will continue at the Carthay Circle until August 6.

Egyptian Books 'Journey's End'

"Journey's End," talking picture adaptation of the stage play of the same name, will be the next attraction on the screen at Grauman's Egyptian Theater in Hollywood. The film will have a one-week engagement starting Thursday.

The picture has as its leading player Colin Clive, who likewise played the stellar role in the stage version. It was directed by James Whale, who also discharged the same duties in the stage production. The production is from Tiffany.

On the stage at the Egyptian, the new attraction will be the "Hollywood Collegians," a unique group of youthful stage musicians.

SACRIFICE THEME OF PICTURE

Elsie Ferguson, Marian Nixon Play Chief Roles in "Scarlet Pages"

"Scarlet Pages," the drama of a mother's sacrifice for her daughter, is announced as the next attraction at Warner Brothers' Downtown Theater, starting Friday. The film is adapted to the screen from the play by Samuel Shipman and John B. Hymer.

Elsie Ferguson, Marian Nixon and Grant Withers enact the featured roles in this First National production. Miss Ferguson is seen as the mother who, as a prominent criminal lawyer, defends her daughter for murder. Miss Nixon portrays the daughter, and Withers her sweetheart.

The supporting cast includes such well-known stage and screen players as John Halliday, Helen Ferguson, De Witt Jennings, Charlotte Walker and Wilbur Mack. In addition to "Scarlet Pages" there will be a new Ceballos revue.

Scenarist Airs Views on Youth of Present Day

While modern society suffers from the reputation of living under looser moral standards than prevailed a generation ago, the integrity of its members is as sound as was that of their parents and grandparents, declares Bradley King, writer of the picture version and dialogue for "Wild Company." This is the Fox production showing at Loew's State, directed by Leo McCarey.

Miss King recently returned to the city, after a two months' tour through California, Washington and Canada, in order to attend the opening performance of this picture, which is based on an original idea conceived and written by her in collaboration with John Stone.

The scenarist further declares that the younger generation of today is no different from that of yesterday. This hectic age, she feels, makes it appear that the transgressions now committed are more foolhardy, while in reality they are no more serious than when grandpa "borrowed" a horse or "visited" the grocery store to get a handful of forbidden candy.

While in Canada, Miss King found that country's archives open to her, thanks to letters of introduction given her to prominent Dominion executives. It is understood that she plans on writing a story based on the early life of the English settlers, which will be filmed.

English Player of Note Essays Role in Drama

Jessamine Newcombe, who plays the role of the humorous shrew Rosalie in "Fata Morgana," is an English actress of note. Her versatile characterizations have attracted attention not only in America but in England and Australia as well, it is reported.

In the course of her career she has played Jennifer in "The Doctor's Dilemma," by George Bernard Shaw, one of the three leads in "The Cradle Snatchers" and other leading parts in representative plays.

Her favorite playwrights are George Bernard Shaw, Noel Coward and Ernest Vajda, author of "Fata Morgana," which is drawing crowds to the Hollywood Playhouse.

STYLES DEPICTED

The latest autumn styles in Parisian creations for feminine wear will be shown on the screen worn by prominent film stars, in the August release of Fashion News, according to Meredith E. Fulton, production manager and director of Fashion Features.

BOND TEST CASE TO BE PREPARED

Ruling Sought on Flood Control Issue

Three Dams Instead of One Now Proposed

Suit Will Decide Legality of Revised Program

That the final solution of the problem of flood control on the upper portion of San Gabriel River is a considerable distance ahead was seen when it was learned last night that a test case will be presented to the Supreme Court, possibly in September, to determine whether the county can legally use the remaining $21,000,000 of the $25,000,000 bond issue voted for a high-dam project in the canyon.

Following plans presented by E. C. Eaton, chief engineer of the Los Angeles County Flood Control District, for the building of three dams and a spreading basin to take the place of the high dam, the Board of Supervisors hesitated to spend the balance of the bond issue for the work until it is definitely settled whether money can be legally used.

Despite favorable rulings from the County Counsel's office and attorneys representing companies who are to sell the bonds, members of the board are of the opinion that it will be better for taxpayers and all concerned if a test case is begun and a decision from the Supreme Court obtained. This will be done probably in September, it was asserted.

If the Supreme Court holds that the balance of the bond issue, voted exclusively for one dam in San Gabriel Canyon, can be used for flood control along the San Gabriel River, then the plan to build the three dams and a spreading ground will be carried out. The three structures will be about five miles apart and do all, if not more, for flood-control purposes in the canyon than the one big dam, according to engineers.

NEW RIVER OUTLET SURVEY COMPLETED

After working a week, engineers for the county last night finished their preliminary work of checking winds, tides and movement of sand at Alamitos Bay preparatory to the construction of the new outlet for the San Gabriel River into the ocean. The new improvement is to cost $661,000.

"The purpose of the tests we are making is to prevent what the Pacific Coast Club asserts to have occurred on the central beach at Long Beach by the construction of the Rainbow Pier and the Auditorium fill," said Chief Engineer Eaton of the County Flood Control District.

The engineer also related details of a conference with Seal Beach City Councilmen last week wherein it was explicitly understood that the county will not build jetties or breakwaters into the Pacific Ocean at Alamitos Bay until it is absolutely proven by research that the surrounding beaches will not be damaged.

Eaton further explained that the jetties to be built by the county may extend out into the ocean for a distance of 2400 feet at the mouth of the bay, but will be arranged in such a way as not to interfere with the regular sand movement on the beach.

COURT CALLS ON SCIENCE TO AID PATERNITY VERDICT

The wisdom of Solomon is expected of Superior Judge Hardy, who today is scheduled to make a decision concerning the paternity of a 2-months-old boy.

Judge Hardy, however, declines to accept full responsibility for the decision, demanding that a blood test of the child and its asserted father be made and a scientific report submitted before judgment is rendered.

Therefore, at 2 p.m. today, Dr. Lawrence Parsons, instructor in pathology at the University of Southern California, and Dr. Frank Gompert, pathological expert for Sheriff Traeger, will take blood samples from the child and its asserted father to determine the boy's paternity.

The matter arose out of the trial of Jack Mabel, grocer, who was tried before Superior Judge Hardy charged with having criminally assaulted Miss Adeline Cordoza.

Mabel denied the charge and insisted upon further investigation. Upon hearing Mabel's evidence Judge Hardy took the matter under submission with the announcement that he will make his own inquiries this week. Final decision will be made August 1.

The child at present is being cared for by its mother at 214 South Eastlake avenue.

CITY ASKED TO CURB SMELLS OF PLANT

The State Health Department has asked the City Council to take action to lessen disagreeable odors from the Hyperion plant, stating that numerous complaints have been filed concerning the matter. The Council transmitted the protest to the City Engineer and the Health and Sanitation Committee.

STITIONS TOLD UR CHRISTIANITY

things that people under- the Bible cause them more than the things they don't said Dr. Bruce Brown yesterday at South Christian Church. "The modern religion is that we have carried over into it many heathen superstitions," said Dr. Brown. "We still seem to think that an angry god can be appeased by sacrifices and gifts on the side, that sin is an arbitrary matter like the hours of parking, that its penalty depends on the will of the Judge, that a whole lifetime of evil can be atoned for by a moment's contrition and that moral laws can be suspended by a Divine fiat. It would help a lot to remember that the New Testament expressly declares that sacrifices never had and never could take away sin. One's whole attitude and viewpoint can be changed by the apprehension of the simple truth that nothing is wrong because it is condemned in the Bible, but that it is condemned in the Bible because it is wrong. The value of any document depends on its revelation of facts. The value of the New Testament is demonstrated by the fact that everything it denounces as sin brings wreckage and suffering."

COMING OF ETERNAL MORNING PREDICTED

Adjt. Frank Howells preached at Salvation Army Temple yesterday on "The Days of Life." He spoke in part as follows:

"When we stop to review our lives, the oldest of us realize they have extended only over a brief span. But they are filled with days of varied interests, which make life interesting and profitable. There is a precious day in our lives. It may have no meaning to some, but to others it has a great meaning. Then there is the cloudy day. Bereavement, sorrow, adversity, these bring clouds. But as thy days are, so shall thy strength be, we are told. A day of wisdom, also, is ours. These all are followed by the day of salvation, the day of damnation, the day of mercy, and last of all by the time when the eternal day shall break and eternal night shall fall."

DR. DORN DISCUSSES SPIRITUAL SURGERY

"Our age has lost the consciousness of sin," declared Dr. J. George Dorn in a sermon on "Spiritual Surgery," preached yesterday at Hollywood Lutheran Church. Dr. Dorn spoke in part as follows:

"'If thine eye offend thee, pluck it out,' says the inspired writer. This implies a knowledge and an honest diagnosis of self. We cannot resort to self-surgery by chance. The target is never hit by him who shoots at random. Evil is never driven out without a battle. No victory is ever won if we are unconscious of the enemy. Jesus emphasizes the human part in ridding the life of sin. We ourselves are to be the operators in this surgery. We are to suppress capacities and abandon pursuits when we find that they are damaging our spiritual life. This surgery must be thorough. No matter how much we have removed of the infection, if it is not removed completely it will be fatal in the end. Failure is either removed or not. The sin that is not conquered becomes a conqueror."

LESSON-SERMON HAS "TRUTH" FOR SUBJECT

"Truth" was the subject of the lesson-sermon yesterday in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston.

One of the Scripture citations included Paul's exhortations to the Romans: "I beseech you therefore, brethren, by the mercies of God, that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service. And be not conformed to this world: but be ye transformed by the renewing of your mind, that ye may prove what is that good, and acceptable, and perfect, will of God."

A correlative passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, presented the following statements: "One's aim, a point beyond faith, should be to find the footsteps of Truth, the way to health and holiness. We should strive to reach the Horeb height where God is revealed; and the corner-stone of all spiritual building is purity."

MAP SUBMITTED

The City Engineer has submitted to the City Council the assessment district map for the improvement of the Vineland-avenue and Calvert-street district. It was referred to the Public Works Committee.

WOMEN'S CLUBS BACKING FITTS

Strong Groups Organized Throughout Southland

Similar Headway Being Made in Northern Section

Program of Radio Speeches Will be Opened Today

More than a score of women's "Fitts for Governor" clubs have been formed throughout the southern part of the State by the women's division of the Fitts campaign, with Mrs. Charles W. Decker, chairman, and Mrs. William T. Hearst, vice-chairman.

"We are making great headway," says Mrs. Decker, "and within ten days we will have a woman's "Fitts for Governor" club in practically every city of importance throughout the southern part of the State, representing 5000 women voters who are giving their whole-hearted support and time to further the interests of the popular southern candidate. In the north we are gaining headway with Eliza Land Shepard of San Francisco in charge of activities."

Strong organizations are already working in San Pedro with Mrs. B. B. Mann, chairman; Pasadena, Mrs. Thomas C. Austin, chairman; Ventura, Mrs. J. Hyde Chaffee, chairman; Glendale, Miss Gladys Dawes, chairman; Torrance, Mrs. E. K. Budd, chairman; San Marino, Mrs. W. W. Nash, chairman. Hollywood has a large club with a representative group of prominent women in charge. New clubs are forming in San Diego, Santa Ana, Fullerton, Orange and many other cities of importance.

In Los Angeles, the colored women voters have formed a "Fitts for Governor" club under the leadership of Mrs. Charlotte Bass, with Betty Hill as assistant. They report a strong group covering the entire East Side.

Beginning today there will be noon broadcasts three times weekly on Mondays, Wednesdays and Fridays over KMPC by remote control from the Griffith Studios at 1106 Hacienda Place, Hollywood. Mrs. Decker will open this campaign on the air and will speak from 11:45 to 12 noon today. Mrs. Cora Deal Lewis, prominent civic worker for many years in Los Angeles, will speak at the same time on Wednesday. On Friday, Mrs. Hattie Doughty, president of the Los Angeles federation of the Women's Christian Temperance Union, will be the speaker.

"Women have always stood solidly behind the candidate for public office who represents high ideals and principles," said Mrs. Decker, "and the women of the State are giving their undivided support to Buron Fitts because they believe he represents those qualities that are necessary to equip him to handle the affairs of the State.

"The soundness of his program has made a strong appeal throughout the State and his past performance as Lieutenant-Governor of California and as District Attorney of Los Angeles county assures the public of action and strength in carrying out the pledges he has made."

Mix to Miss Day in Court

Tom Mix, wealthy cowboy film star and circus performer, will not have to appear in United States District Court today as was scheduled. His case was set for today, but several weeks ago he walked into court, paid the government more than $170,000 in back taxes and $1000 on each of three misdemeanor charges of failure to make a proper income-tax return.

TOM MIX

Mix was also accused with Miss J. Marjorie Berger, and others, in three felony complaints, all of which were dismissed.

GREEK THEATER POST ASKED BY MISSOURIAN

A request by David E. Russell, manager of the Municipal Theater Association of St. Louis, for consideration as manager of the Greek Theater now nearing completion in Griffith Park, because he is desirous of living in Los Angeles, has been placed on file. Members of the board expressed the view that the addition of one family to Los Angeles is insufficient grounds for granting the application. Numerous other applications for use of the theater, which will be completed by the middle of August, have been received by the commission. All have been filed pending the opening, which is to be conducted under auspices of the Security Bank and Trust Company, trustee of the estate of the late Griffith J. Griffith, who donated the park and most of the money for the theater.

WILBUR TO DESCRIBE DAM

Nearly 800 Reservations for Tomorrow's Luncheon Show Public Interest in Boulder Project

With nearly 800 reservations made for the Southern California get-together luncheon at the Biltmore tomorrow, at which Secretary of the Interior Wilbur will appear as the principal speaker, public and civic officials yesterday agreed that the promised attendance at the affair shows that the Southland is thoroughly interested in plans for obtaining for this section an adequate and lasting water supply.

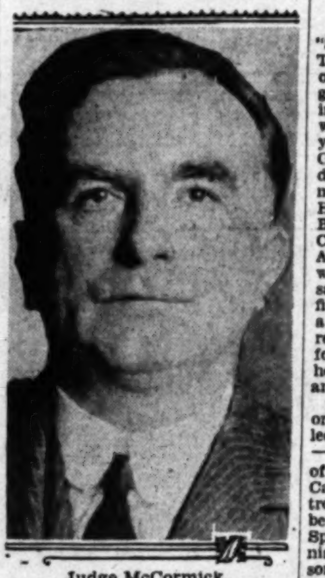
The reservation list made through the offices of the Chamber of Commerce, which is jointly sponsoring the luncheon with Mayor Porter, contains names of men and women prominent in civic and business affairs of practically every community in this section of the State. The speaker's table will likewise be filled with men who have taken leading parts in the campaign for Boulder Dam, the formation of the Metropolitan Water District, and the development of the Los Angeles water supply system.

Secretary Wilbur is coming to Los Angeles to disclose the detailed plans of the Federal government for carrying on the foundation work for the erection of Boulder Dam, now actually under way.

With $10,000,000 already voted toward the project, which will likely cost fully six times that amount, the Department of the Interior's reclamation service is now on the ground and starting work preliminary to major projects that will follow in a short time.

The relation of the Boulder Dam project to the building of the Colorado River aqueduct by the Metropolitan Water District has resulted in members of the latter board being called upon to take part in tomorrow's luncheon program, and it is expected that an important statement will be released at this time by W. P. Whitsett, chairman of the board.

RESUMES BENCH TO CELEBRATE EVENT



Judge McCormick

United States District Judge McCormick today will occupy the bench in the United States District Court here. It will be the twentieth anniversary of his coming to the bench.

Twenty years ago today Judge McCormick was appointed Superior Court judge by Gov. Gillette. In 1924 he was appointed to the Federal bench by President Coolidge. He had previously served as a deputy District Attorney and now is a member of President Hoover's crime commission.

Educators of Note to Attend Tea Tomorrow

With a list of honor guests which includes some of the most famous educators in the West, the Progressive School of Los Angeles will sponsor a garden tea at the home of Colleen Moore, 345 St. Pierre Road, Bel-Air, at 3 o'clock tomorrow afternoon.

Dr. Frederick Wellner, professor of education at the University of California at Los Angeles, will introduce the speakers. Addresses will be made by President Robert G. Sproul of the University of California, Dr. Benjamin Lehman, professor of English literature at U.C., and former Judge Ben Lindsey. Modern methods of child education will be discussed by several speakers who are national authorities on the subject.

Among the other guests of honor will be Dr. James Huntley Sinclair, head of the education department at Occidental College; Dr. William B. Munroe, professor of history and government at the California Institute of Technology; Miss Barbara Greenwood, superintendent of the nursery school training, U.C.; Dr. Miriam Van Waters, consultant to the Hoover Crime Commission, and Hugh Lofting, writer of children's stories.

Sergei Eisenstein, Russian film director, and his translators, Ivor Montagu and Mrs. Montagu, are expected to attend, as well as State Senator Lyon and Alfred Hertz.

BOWL PLANS CELEBRATION ON 275TH PERFORMANCE

BERNARDINO MOLINARI

The 275th performance of the "Symphonies Under the Stars" Thursday night will be the occasion of a special program celebrating the event, it was announced yesterday by Glenn M. Tindall, business manager of the Hollywood Bowl. Richard Crooks, young American tenor, who was a sensation in his first appearance a week ago, will return to sing four numbers in honor of the anniversary.

In addition to the tenor solos, the orchestra will be heard in four selections, with Bernardino Molinari, noted Italian conductor, directing.

The entire program for the week is one of the most novel ever attempted by Bowl officials. Friday night, the orchestra will be directed by Miss Antonia Brico, 28-year-old California girl, who has just returned from several years of study in Germany, where she has achieved a reputation of being one of the two best women conductors in the world.

Miss Brico will share honors with the Albertina Rasch ballet of sixty dancers, which will interpret Dimitri Tiomkin's latest composition, "Suite Choreographic." It will be the world premiere of the number.

Saturday night's program includes five numbers, with Arne Oldberg, the noted composer, and his daughter-in-law, Hilda, appearing in one of his own compositions. The week's program opens tomorrow night with five unusual numbers.

DEFENDER FIGHTS CUT

The Public Defender, in connection with the general reduction of personnel and salaries, has advised the City Council that his department already is operating at the minimum, and that no further reductions can be effected.

Porto Rico imported nearly 190,000,000 pounds of American rice last year.

CIVIL SERVICE TESTS ANNOUNCED BY BOARD

The United States Civil Service Commission announces the following open competitive examinations: Guard in the penitentiary service. Age, 25 to 44, inclusive. Minimum height and weight requirements: five feet six inches, and 135 pounds stripped. Salary, $1680 a year, and dictating machine transcriber for positions at Washington, D. C. only. Salary, $1440 a year. Other examinations pending are: Junior patent examiner, foreman, general maintenance and construction, and senior and junior physical director. Further information and application blanks may be obtained from Warner McIntyre, Room 618 Federal Building, secretary of the United States Civil Service Board.

TRAVEL WEST INCREASES

"Motor-coach travel westward over all routes has increased appreciably within recent weeks," according to J. D. Watson, general traffic manager of Pickwick Greyhound Lines, which operates two transcontinental lines east through Salt Lake City, Albuquerque and Denver. "Every year more residents of inland sections are learning that California is an ideal summer spot."

POPULARITY QUEEN OF OKLAHOMA HERE

Nell Allen

Nell Allen, winner of a recent popularity contest in Oklahoma, today will begin a week's vacation in Hollywood as guest of Paramount theaters and Max Factor studios, sponsors of the competition. She arrived by Western Air Express Saturday night and is stopping at the Hollywood-Plaza Hotel.

Tomorrow evening she is to be guest of honor in the Blossom Room of the Roosevelt Hotel, and on Friday will be feted by the Breakfast Club. During the week she will broadcast her impressions of the film capital over KHJ and KNX.

ENGLAND LAUDS TENOR WHO WILL SING HERE

Beniamino Gigli, Metropolitan Opera Company tenor, who is to sing in the local season in the Shrine Auditorium September 29 to October 13, is being hailed in England as a successor to Caruso, David T. Babcock, president of the Los Angeles Grand Opera Association, said yesterday. "Dispatches to local opera headquarters say that Gigli was a sensation in London and was hailed as Caruso's successor," Babcock said.

BAN PLACED ON RUSSIAN BOND SALES

Corporation Department Says Fraud Perpetrated on Purchasers

Climaxing an investigation that began ten days ago, an order to stop the sale of Russian bonds in California has been issued by State Corporation Commissioner Athearn, it was announced at the Corporation Department yesterday by H. C. Ellis, assistant commissioner, who conducted the inquiry. The order, addressed to Stone & Co., 500 Bank of Hollywood Building, calls upon that firm to discontinue any further sales of securities which have been repudiated by the soviet government of Russia. The alternative, according to the notice, will be an appeal to prosecuting officers.

The department's investigation, according to Ellis, disclosed that Stone & Co. is owned by C. W. Aydelott. The concern does not keep books and investigators were told it operates on a cash basis, Ellis said.

"One of our investigators was told by Mr. Aydelott that the selling price of the bonds is at the rate of $20 per 1000 rubles," said Ellis. "Further inquiry at the office of a broker who deals in foreign securities showed that purchases could be made at a quoted price of $3 to $4 per 1000 rubles. Under the circumstances we must regard sales of these repudiated bonds at the price demanded as unjust and inequitable and a fraud upon the purchasers."

WORLD CRUISE PLANNED

Under the direction of the D. F. Robertson Travel Bureau, 408 South Spring street, the following Angelenos will sail from Los Angeles October 18 on a six months' cruise around the world: Mr. and Mrs. O. J. Goldman, Dr. and Mrs. James Holman, Mr. and Mrs. D. A. Moulton, Miss Alice Russell, Miss Louise West, A. J. Walters and others. The party will proceed to Honolulu, Japan, Korea, Manchuria, Pieping, China; the Philippines, Ceylon, Egypt, Palestine, Syria, Turkey, Greece, and on arrival at Naples will proceed by automobile through Europe.

SHE THOUGHT:

"If the poor gal only knew that 'O. W.' is making people dislike her a lot."

But, to seem polite,

SHE SAID:

"How quaint, my dear, we used to drink ordinary water ourselves—long ago, when it was fashionable."

GUESTS SELDOM ASKED FOR A SECOND GLASS

until she learned to serve *JUVENILE Water instead of O. W. {Ordinary Water}

Another budding friendship gone "haywire," and just when they were learning to like each other well enough to pan their absent lady friends. **All because of 'O. W.'**, the polite term for a thing that polite people even dislike to mention—sshh! **Ordinary Water!** Not until her mother talked with her frankly—told her in plain words to serve **juvenile water**—not until then did she get along well with her friends. You, too, can avoid the risk of offending with 'O. W.'

BUT IN ALL SERIOUSNESS—the serving of Arrowhead Spring Water is an act of hospitality that your guests will **instantly** notice—and appreciate. It is distinctly different from all other waters **because it is juvenile.** Arrowhead is virgin-pure mountain spring water. It is naturally formed oxidized hydrogen that bubbles up through masses of granite and thus acquires the minerals vital to normal health. That is why it has a better taste, why it is so invigorating, so buoyantly refreshing, especially on **hot days** such as we are experiencing right now. Drink at least six glasses daily and serve it to guests—**always!**

*Juvenile

drinking water is one of the freshest kinds of spring waters known. Procured from Arrowhead Springs, it comes from profound depths and therefore is not exposed to contamination as is surface water. It is primarily composed of oxidized hydrogen in its natural state. Percolating upward through granitic and mineralized masses, Arrowhead Spring Water dissolves satisfactory amounts of the natural salts required for normal health. Being Juvenile, this water is fresh, pure, healthful and better tasting.

PRISON IMPRESS DECLARED BANE

Chaplain of Arizona State Penitentiary Speaks

Says They Make More Not Less Criminals

Avers Fewer Can be Trusted After Than Before Term

REDLANDS, July 27.—Walter Hoffman, chaplain of Arizona State prison at Florence for six years, a visitor here, says that six years of being constantly with prisoners when they come in, when they go out, and even on the scaffold, has convinced him that fewer can be trusted after they have been in prison, than before they enter.

Crime and unemployment are the two great problems before America today, he says. "And the pity of it is that we are making more criminals rather than less," declared Chaplain Hoffman. "I can trust seven out of ten as they arrive at the prison but I can't trust any as they go out. During their term they have become disciplined in crime, and it seems impossible to change the situation. In a prison built for 230 we have more than 600. How can we segregate the innocent mind from the criminal?"

Hoffman pointed out that the increase in crime is not keeping pace after all with the increase in population.

"The Legislature is grinding out new laws each year, and remember, each time a law is changed a large group of illegal operators is created. There is a large group also which does not change its ways immediately, protestants and potential law breakers."

A change in the system of prosecution, judgment and sentencing must come to save the economic situation, he declared. He recommended a board of six or eight judges to whom all the facts in a case would be submitted, and lawyers would be ordered to keep still and not given opportunity to sway the minds of jurors.

"Capital punishment does not deter. It only punishes the relatives. After viewing a number of executions, one of them a woman, I cannot see that in any case it has been a constructive method of dealing with crime," Hoffman concluded.

Chromo on Wall in Gas Office Stirs Memories

NORTH HOLLYWOOD, July 26. Every day and in some of the most out-of-the-way places a human interest incident will pop up to prove again the world is a small place and that coincidence is not so unusual a thing.

L. D. Cole, district manager at the local office of the Southern California Gas Company, today was showing a gas stove to Mrs. William Newman of 11258 Peach Grove street. Mrs. Newman couldn't keep her eye on the stove nor listen to what Cole was saying. Her glance was fixed on a little colored chromo that hung on the office wall. She later explained that the picture was of her girlhood home town in Germany, a picturesque little hamlet on the Baltic Sea Coast.

MOVE MADE TO CURB COMMERCIAL FISHING

HUNTINGTON BEACH, July 27. A movement is being started by Capt. W. B. Stevens, City Councilman and head of the Municipal pier committee, to keep commercial fishing boats outside of the three-mile limit of Huntington Beach and if necessary he will seek State aid. The city of Huntington Beach owns out into the ocean three miles and it is his plan to enact city legislation protecting the waters from commercial fishing boats.

Stevens is directing his opposition against purse seining. He says that the fishermen take many tons of all kinds of fish both large and small and sell them for fertilizer at approximately $10 a ton. The operations of the purse seiners must cease soon as the catches are greater than the natural increase of fish, Stevens says. Plying of the nets through the kelp beds within the three-mile limit frightens the fish that escape so that fishing is ruined for sportsmen.

VENTURA BUDGET SLASHED

Board of Supervisors Reduces Estimates $107,000 in Effort to Lighten Tax Burden

VENTURA, July 27.—About $107,000 so far has been looped-off Ventura county's estimated budget for the coming fiscal year by the Board of Supervisors. The total estimated expenditures before the Supervisors amounted to $7,045,953.

The $107,000 is the aggregate of slashings from the tentative budgets of departmental offices, including the health department, county library system, farm advisor's department, road districts, and others.

Three major items are yet to come before the board for consideration, all of which are expected to be cut materially. They are the proposed Courthouse annex and jail, the proposed tuberculosis preventorium and the county fire district. Budget of the Coroner also is slated to be cut.

Recommendation that the board clamp down on expenditures for the coming fiscal year with a view to either lowering the tax rate or keeping it at the same level, was given in a letter to the board from its chairman, T. G. Gabbert, who is confined to his bed with illness.

Expressing sorrow at not being able to assist in the budget deliberation, Gabbert stated: "As you know, we are in the midst of a very deep business depression and many of the taxpayers are going to be hard put to raise money to pay their taxes this coming fiscal year. Therefore, I feel that we should use every effort to reduce our levy below last year's rate."

Gabbert declared himself as favoring a reduction in road district taxes to 20 cents, 5 cents below the present tax rate.

Swing Predicts California First Back to Normal

SAN BERNARDINO, July 27.—Southern California will be the first section of the country to recover from the business depression because of the construction of the Boulder Canyon Dam and its kindred project, the Colorado River Aqueduct, according to Congressman Phil D. Swing, who arrived here today. Congressman Swing forecasts an early return of prosperity throughout Southern California.

"Because of the expenditure of funds involved in the construction of the dam by the government and the aqueduct by the Metropolitan Water District," he said, "Southern California is certain to be the first section of the nation to recover from the business depression."

Swing will be the guest of honor at a spectacular reception here tomorrow night. He will speak at a county-wide mass meeting and celebration to be held in the Municipal Auditorium, where thousands will hear his prediction of the development to follow the beginning of work on the dam.

Nap at Wheel Ends in Crash

LAGUNA BEACH, July 27.—Believed to have fallen asleep at the wheel of his car while driving on the Coast highway three miles north of here, Dominguez Acosta, 35 years of age, of 6500 Regent street, Huntington Park, is in a critical condition from injuries when his car plunged to the side of the road, turned over and caught on fire at 7 a.m. today.

R. L. Thomas, 1138 Amanda avenue, Pasadena, and O. R. Good of 607 East Lemon avenue, Monrovia, passers-by, rescued the victim from the burning wreck and took him to Dr. B. B. Mason's Hospital here.

He is unconscious, has a skull fracture and several broken ribs. Later he was removed to the Orange County Hospital.

WOMAN INJURED IN CAR CRASH AT GUASTI

YUCAIPA, July 27.—Mrs. H. E. Church of Yucaipa was injured in an auto accident when the car driven by Mr. Church, who lost control of the machine at the Guasti winery corner, struck a cement post. Mrs. Church was thrown against the door, receiving cuts on her head which required eleven stitches to close. She was unconscious for some time and was taken to Ontario for treatment. Mr. and Mrs. Church, accompanied by Mrs. M. A. Dunham, were en route to Los Angeles. Neither Mrs. Dunham nor Mr. Church was injured.

PARK BOND FIGURES CUT

Reduction of $135,000 From Estimate Made by State Commission Announced to Voters

SAN DIEGO, July 27.—A cut of $135,000 from the estimate of the State Park Commission has been made in the bond issue to be voted on August 26, the directors of the State-County Parks and Beaches Association remind the voters in a statement issued today. From an original estimate of $750,000 the amount sought was scaled down to $570,000 several weeks ago. At the final hearing the minimum figure of $435,000 was decided on and that amount will go on the ballot. The cost to each property owner will be small, it is declared.

The situation regarding the coming bond election is summarized in a communication from the association to the Board of Supervisors which is as follows:

"We are ready to submit final figures and recommendations for the county bond issue to match California in the acquisition of State parks in San Diego county.

"On Saturday, the 19th inst., the board of directors of the State-County Parks and Beaches Association voted unanimously to request your honorable body to submit a bond issue for the sum of $435,000 to match the State in the acquisition of the following sites, the itemized sums for each project to be held for the purchase of that site and that site only: $185,000 to cover one-half the cost of the Silver Strand and Coronado Heights; $150,000 to cover one-half the cost of the Hedionda Estuary Beach park site; $75,000 to cover one-half the cost of Palomar Mountain park site; $25,000 to cover one-half the cost of acquiring Borego Palms Canyon region.

"You will note that we have slashed more than $300,000 from the original tentative bond-issue figures submitted to you last December. This has been accomplished for the most part by eliminating a fifth site known as the southwest boundary area, and by a heavy reduction in the amount included to cover the cost of the Silver Strand and Coronado Heights. Three hundred acres of the more expensive plateau lands in Coronado Heights have been eliminated from the Silver Strand park site.

"The bond issue as finally submitted represents a cut of $135,000 below the estimates submitted by the State of California."

PASADENA BUILDING AT NEW MARK

Kress Permit for New $213,000 Structure Will Bring Figure Near Record

PASADENA, July 27.—Grant of a $213,000 permit for the construction of a new S. H. Kress & Co. 5-10-25-cent store building at 254-266 East Colorado street, will lift July's permit total here past the $1,500,000 mark and aid in writing what is expected to prove an all-time monthly construction record, city officials stated today.

Plans for the new building, filed late yesterday, call for a two-story, reinforced concrete building to be erected at the downtown address. A sales room, 74x250 feet, will occupy the entire first floor. In the rear of the room, a soda fountain and lunch stand will be installed adjoining a large kitchen and pantry.

Basement plans call for a stock room, rest rooms and a huge refrigerator. Cloak rooms, more stock shelves, sample offices and a girls' lunch counter will be placed on the second floor. Provisions for further, future refrigeration will be made on the roof. A large cooling tower will be erected.

Kress officials, it is said, have purchased the site of their present store and the adjoining building, giving the firm all the property between the Model Grocery Company and Jordan's department store. The stock all has been moved to a temporary location at 31 East Colorado street, where business will be carried forward during construction, which will begin as soon as the permit is granted. The present structures will be torn away.

This is the third July project which has exceeded $200,000, while this month has seen several hundred thousand dollars' worth of new homes started here. Activity during July follows the record-breaking June total when $1,200,000 in permits were issued and presages one of the greatest eras of building ever experienced here, it is declared.

San Diegans to Welcome Filming of Event Series

SAN DIEGO, July 27.—Seven motion-picture companies have been invited to come here and film for the news reels some of the outstanding events arranged by the San Diegans next Friday, Saturday and Sunday, it was announced today by the publicity department of the Chamber of Commerce.

The three-day "know San Diego" program of events is probably the most comprehensive and varied ever arranged by the chamber. It includes every governmental activity of the city as well as exhibits of educational, historical, scientific and cultural interests.

More than seventy events have been arranged by the San Diegans, ranging from a mass flight of 132 planes to an elephant swim at the zoo.

ODD FELLOWS AND REBEKAHS INSTALL

NORTH HOLLYWOOD, July 26. Ora Griswold was installed Noble Grand of the local chapter of Rebekahs and Homer Cook was installed Noble Grand of the local Odd Fellows lodge, at the annual ceremonies conducted in Odd Fellows' Hall. District Deputy Grand Master J. W. Mays and District Deputy President Mrs. Nellie Austin were in charge of proceedings. Other new officers of the Odd Fellows are: E. L. S. Ware, H. V. Millested, L. C. Buckles, R. H. Henry, J. B. Smith, Frank Griswold, M. M. More and C. R. Elder. Officers of the Rebekahs are: Betty Horton, Mae McMurtry, Wardie Hale, Dora Neff, Effie Wood, Ola Richards, Mina Carroll and Mildred Clay.

MRS. KIRBY'S BODY TO BE BURIED IN EAST

HUNTINGTON PARK, July 27. The body of Mrs. Jane Elizabeth Kirby, who for thirty-five years, had been a minister in the Friends churches of Ohio and Iowa, was sent today to Marshalltown, Iowa, where burial will be in the family plot in that city on its arrival there. Mrs. Kirby, who for two years had made her home in Pasadena, was spending a few days here as the guest of her son, Rev. William Kirby, pastor of the local Friends Church, when she was suddenly taken ill with heart disease. She was 72 years of age. The body is accompanied to the Middle West by her son.

NURSERYMEN'S STATE MEETING IN ONTARIO

ONTARIO, July 27.—Elaborate preparations are being made for entertainment of the California Association of Nurserymen, which meets here in annual convention September 25 to 27. J. Awdry Armstrong of Armstrong Nurseries here is president of the association, and will be presiding officer at the convention. All members of the association have been invited to attend the twentieth annual conclave of the organization.

CENTENARIAN VISITS REGISTRAR

Galusha M. Cole Fulfills Civic Duty

He Walks a Mile to Assure His Vote

Galusha M. Cole of Pasadena, who will be 103 years of age next month, visits Miss Harriet Bufkin, deputy registrar of voters, and makes possible exercise of the franchise at the forthcoming August primary election.

PASADENA, July 27.—"How old are you, Mr. Cole?" "I'm 103 years of age, but I'll be 104 on August 15."

The interrogator was Miss Harriet Bufkin, deputy registrar of voters, and the answer was supplied under oath by Galusha M. Cole, oldest Mason and choirmaster in the United States, who walked a mile and a half from his home, 306 South Lake avenue, to the City Hall yesterday to register for the August primary election.

"Pasadena's grand old man" objected with a chuckle when asked to what political party he belonged. "Why, I thought I'd voted the Republican ticket so long that everyone knew I was a Republican," he laughed. Cole voted for Abraham Lincoln and his first vote was cast for Gen. Fremont.

After registering, the centenarian walked from the City Hall to an East Colorado-street barber shop he was patronizing for twenty years. The shop is located on the second floor, but Cole climbs the long flight of stairs regularly every two weeks.

"Hurry a bit," he ordered the barber, "I've got to catch a trolley car to an Indiana picnic in Sycamore Grove this afternoon."

Because it is Galusha Cole's 104th birthday anniversary, August 15 will be "Galusha Day" in this city. At 1:45 p.m., a program of speeches will be given in Memorial Park followed by an automobile parade to Tournament Park, where Cole will cut a 150-pound birthday cake into small pieces for the 2000 persons expected to attend the birthday party.

GEN M. H. SHERMAN AT NEWPORT BEACH

NEWPORT BEACH, July 27.—Gen. M. H. Sherman, president of the Los Angeles Steamship Company, which runs steamers between Los Angeles and Honolulu and coast ships between Los Angeles, San Francisco and San Diego, is spending a vacation with his cousin, H. L. Sherman, well-known civic leader of this community. Gen. Sherman and his brother-in-law, E. P. Clark, built the electric railways between Los Angeles and Pasadena, Santa Monica and Redondo Beach, these lines forming the nucleus of the present vast Pacific Electric system.

DEPARTMENT ELECTS

HUNTINGTON PARK, July 27.—The high school department of the First Methodist Episcopal Church has elected Ralph Head president. The other officers are Dorothy Runnells, first vice-president; Donald Shugg, second vice-president; Elma Mansfield, third vice-president; Albert McCowan, fourth vice-president; Betty Greenamyer, statistical secretary; Helen Mansfield, corresponding secretary; Mildred Smith, treasurer; Pauline Smith, editor; Roger Millikan, sergeant-at-arms; Miriam Grafius, pianist; Bernice Ward, assistant pianist; Herbert Morgan, librarian.

New Annex to Courthouse Will be Built

VENTURA, July 27. — Assurance of construction of the proposed Courthouse annex and County Jail this coming fiscal year was given as the Board of Supervisors wound up its budget activities by allowing $275,000 for that purpose. Only $25,000 was lopped from the proposed expenditure of $300,000 for the buildings.

Another building project which was assured was the tuberculosis preventorium, ground for which is ready at Ojai. Although the proposed budget for this structure was cut from $122,000 to $64,500, work on the first building, to cost $20,060, probably will start soon, the Supervisors decreed.

A total of $254,940 was slashed from the proposed budget of $7,045,953 covering all county expenditures, leaving the total allowance as it stands now, $6,791,013. Of this latter amount, $3,817,485 is to be raised by taxation, leaving the tax rate for the year practically on a par with what it was the past year.

County road district taxes probably will remain at 25 cents on the $100.

Bond Election Unanimous; Fourteen Vote

OWENSMOUTH, July 27.—The proposal to issue $65,000 worth of bonds for a water system at Lakeside Park in the Chatsworth Hills was won by a unanimous vote. Everybody was in favor of the system. However, only fourteen votes were cast. Lakeside Park is a part of the Los Angeles municipality and has city water. The bonds will be spent for a water-pumping system to send city water to the highest residential area in the foothills.

CORN STALK HAS NINE EARS ON IT

NORTH HOLLYWOOD, July 27. As a backyard farmer M. C. Salter of 11344 Miranda avenue has a garden plot that is a prize winner. "Squirt water on it and it'll grow anything," Salter says. Today he is exhibiting a seven-foot stalk of corn which bears seven fully-developed ears and two other ears partly so. Neighbors say Salter is a crack-a-jack amateur gardener. "Salter can leave a three-legged milking stool out overnight," one neighbor said, "and the next morning it will have grown into a six-legged mahogany gate table."

PLAYERS PLAY HEATED SCENE

Exclusive Group of Santa Barbara Amateurs Battle Over Charges That it is Degenerating Into Mere Proletarian Service Club

SANTA BARBARA, July 27. Too much food, and not enough dramatics, is causing a rift in the ranks of The Players, a select group of amateur actors and actresses and others evincing an interest in things smirking of the stage.

The opening flurry of what promises to become a real tempest in the club's teapot occurred at the weekly luncheon meeting of the club, a few of the members exploding an oral bombshell in the midst of the meeting by supporting the heated charge of Armand Friedlander, local advertising man, that The Players were "degenerating" into nothing better than a service club.

Adding to that the charge that the club, which was originally formed as an "exclusive" organization, is fast becoming tainted with that great stain, "commonness," the rebels hurled charge after charge at the policies of the club, leaving their portions of pineapple souffle untouched in the heat of the argument.

After regaining his feet following the oral barrage, Harrison Ryon, president of the club and barrister of note in this section, edged into the argument long enough to state that he thought the social whirl through which the club was being led was well worth while and as entertaining and interesting as were the production of plays—and that furthermore, the resignations of those not in accord with the policies of the club would be welcome.

His thrust had little effect on the rebel band, and the leader of the warring faction hastened to retort with suggestions that the resignation of Ryon himself would not be amiss, and that it would be received with open arms.

More pineapple souffle went untouched as more of the members, after grasping literary bombs, hurled themselves into the fracas. In fact, the souffle was all but forgotten, in the heated exchange of even more heated charges and countercharges.

Pleas that the conduct of the members might be unpleasant to several invited guests at the meeting went unheard and unanswered—the martial hosts of amateur actors continuing their word battle unrelentingly until a cooler head, probably with an eye to the possibilities of the scene for the entertainment of those members not present, suggested that a date be set for a special meeting, with all members present, for the fight to the finish.

Believe it or not, the warring factions agreed, and the fate of The Players is destined to be decided on August 14, providing a suitable, well-padded and insured arena can be found by that date.

WHISKERS TO GO UNPRUNED

Upland Men Will Encourage Facial Foliage for Exhibition During Pioneer Pilgrimage

UPLAND, July 27.—A heavy run on local barber shops is anticipated the last day of the month, and from that time until September 10 none of the male population will visit the tonsorial parlors under penalty of fine or embarrassment.

The local whiskerino contest will be officially launched the first day of August, and is to climax with the pioneer pilgrimage September 9, when all pioneers of Southern California will be invited to gather here for a ceremony and program reminiscent of the founding of the Southland.

In order to have plenty of pioneer-looking men roaming the city, male citizens have consented to enter a no-shaving or hair-cutting contest from August 1 to September 9. At noon that day a committee of women will judge the whiskers by divisions, and will award prizes to the winners.

The divisions are: Heaviest beard; thinnest beard; best-looking mustache and sideburns; most novel beard.

All the entrants will be photographed at start of the contest, and will face a camera again at close of the whisker-growing tournament.

Methodists Put Church Contract With Builder

CHINO, July 27.—Progress has been so rapid in the program for building a new Methodist Church here that plans for the edifice have been placed in the hands of a contractor, it was reported today.

The finance committee has met with such success that arrangements for financing the project have been practically completed also. An architect has been authorized to complete the plans and specifications. All costs of construction will be figured by the contractor and submitted to the building committee. The committee expects to have work started by September 1.

The building committee numbers Mrs. F. A. Payne, representing the ladies' aid; Mrs. G. C. Seitel, representing the Sunday-school; H. G. Shafer, J. F. Solter, A. J. Leavitt, W. H. Delphey, Ralph C. Homan, secretary; M. L. Nirnie, assistant secretary, and Rev. Harry Branton, ex-officio chairman.

Trustees are A. J. Leavitt, W. H. Delphey, J. A. Latham, G. H. Garrison, Ralph C. Homan, H. G. Shafer is financial secretary of the building committee. Harry L. Pierce of Los Angeles is architect.

The new church is to be located at the corner of Sixth street and Riverside Drive, opposite the high school and junior high school buildings. Plans have been drawn for a new parsonage to adjoin the church.

Change of Road Survey Sought in Piru Canyon

MOORPARK, July 27. — In order that a heavy expense to the county might be saved if a storage dam is ever built for the Santa Clara River conservation district in French Flats in Piru Canyon, V. A. Freeman of Santa Paula, engineer for the conservation district, announced here today, that he will confer with the State Highway Commission engineers with a view of having the commission relocate the proposed road through Piru Canyon to the Ridge Route.

No definite plans regarding the construction of a dam in that vicinity have been made by the district it was stated by Freeman. The site, he said, probably will be investigated soon and possibly utilized for the purpose. If the survey on the new road to the Ridge Route through Piru Canyon is completed and the road made it would necessitate the moving of the road if the dam was built there. This would cost the county a sum estimated at between $50,000 to $75,000 Freeman stated.

A relocation of the proposed route would obviate this cost, Freeman will endeavor to point out to the Highway Commission.

Re-employment Plea Withdrawn by C. E. Stickle

PASADENA, July 27.—Charles E. Stickle, former local school-teacher acquitted of a charge of misconduct with young boys, has abandoned his attempt to secure re-employment as a member of the Pasadena public schools' faculty.

Stickle resigned as teacher at the John Marshall Junior High School, following his arrest, several months ago. Felony charges against him were dismissed by the Superior Court, and he was acquitted in Justice Court here of five misdemeanor charges.

Following his acquittal, he presented a written application to the Board of Education requesting re-employment. Letters and petitions from private citizens requesting his reinstatement were presented. After reading the communications and hearing a verbal plea from Stickle himself, the board took the question under advisement. Stickle's withdrawal of his application now has made the board's decision unnecessary.

CONTRACT LET FOR STAR ROUTE MAILS

REDLANDS, July 27.—B. C. Hamilton of this city was awarded the contract for carrying the mail from here to Yucaipa and Calimesa, with the star route delivery along the boulevard. The extension of this service to Calimesa makes the round trip on the route 21.84 miles. The contract is for four years and the salary $896.80 per year. Mail arrival time in Yucaipa is undisturbed, the arrival in Calimesa is 9:45 and 4:35, and it leaves at 10 a.m. and 5 p.m. Arrival of mail here from both Yucaipa and Calimesa is 10:45 a.m. and 5:45 p.m. Postmaster Murray requests that mail for the local office be in not later than 9:10 a.m. and 4:10 p.m.

VETERANS AND THEIR NURSES ENTERTAINED

REDONDO BEACH, July 27.—Assisted by other units of the district, the local post American Legion Auxiliary will entertain the boys and nurses from the San Fernando Veterans' Hospital Wednesday. There will be a luncheon at the Legion clubhouse at noon followed by an afternoon on the beach. Elaborate plans are being made for the event which is to be an annual one.

Large Force is at Work Today on Tujunga Dam

TUJUNGA, July 27.—A large force will be on hand tomorrow to start the pouring of concrete in the construction of the first of a series of four dams in the Big Tujunga Canyon. According to E. C. Eaton, chief flood-control engineer of Los Angeles county, all preliminary work has been completed and everything is in readiness for the actual pouring of the concrete. Contractors are Edwards, Wildey & Dixon of Los Angeles.

This dam is to be of variable-radius concrete arch type, 200 feet above the stream bed and 240 feet above bedrock. When completed it will impound 7500 acre feet of water, which will be released during the dry season into the gravel beds of the Big Tujunga Wash. The dam now being constructed will be followed by three others as soon as plans can be made for their construction. The four dams will impound a total of 47,500 acre feet, according to Engineer Eaton.

The plan to build four smaller dams instead of one large one was decided on some time ago. This system, it was agreed, is much more flexible and will save a great deal in construction costs.

Hammer-Wrench Bandits Routed by Man's Fist

SIERRA MADRE, July 27.—When he realized that the two masked bandits attempting to hold him up were armed only with a hammer and a monkey wrench, Henry Pettijohn of Pasadena tackled the larger of the two with his fists. The result was that he kept his wallet, and saved the purse of his companion, but at the cost of a heavy blow on the head with the hammer.

Six stitches were taken in Pettijohn's scalp at the Sierra Madre Emergency Hospital. Police of the Altadena substation of the Sheriff's office were today investigating the case.

Accompanied by Miss Margaret Butler, also of Pasadena, Pettijohn had parked his car on a Foothill road here, when two men loomed up out of the night and demanded that Pettijohn "stick 'em up." When the motorist landed on the larger of the two bandits, the smaller one cracked down on Pettijohn with the hammer, after snatching Miss Butler's purse. He dropped the purse, however, and fled with his companion, at Pettijohn's determined resistance.

BOY BUILDS BANTAM GOLF COURSE IN YARD

REDONDO BEACH, July 27.—As for many others, miniature golf held an irresistible lure for Carl Hanson, 13-year-old local schoolboy, and a likewise common consequence, the urge kept him continually short of spending money. Adopting the adage, "Fight fire with fire," young Hanson now has an improvised course in his own yard, charging 1 cent admission to a surplus of juvenile patrons and with every twenty-fifth customer is thus prepared for a round on a more pretentious course.

INSURANCE FUNDS

Money is now available as in the past several years for attractive loans in acceptable locations on real estate in Los Angeles and immediate vicinity.

Our supply is from the East where accumulations in large quantities are always seeking investment and at lower rates than can be had in the West, where so much money is needed for development.

A 6% loan after commission is added means only 6 3-8% to the borrower over a five-year period.

FREE INSPECTION of your property. Telephone us the address.
